EMPHASIS: Chemical Dependency
DEGREE: Associate in Applied Science

Purpose: Chemical Dependency is for students interested in focusing their studies on Chemical Dependency rehabilitation. This program prepares the student for work as a Chemical Dependency counselor in various settings from detoxification units to residential treatment programs. Students will fulfill the education requirements for certification as Chemical Dependency Professional Trainee through the Department of Health (DOH). Students take classes that directly fulfill Washington Administrative Code (WAC) requirements toward acquiring the Chemical Dependency Professional (CDP) certification.

Note: Students thinking of transferring into an applied bachelors program, such as the Bachelor of Applied Science in Applied Management program that Centralia College offers, may need to take additional course work required for entrance:
English Composition (5 credits) ******(note that English 102 and Public Speaking CMST& 202 are highly desirable, but not required)

- College-level math course (5 credits) ******
- Social Science course (5 credits)
- Natural Science course (5 credits)
- One additional course in English, college-level math, social science, or natural science (5 credits)

****** English Composition I and the college-level math class can replace the math and English course required in this degree program.

Program Outcomes - Students who successfully complete this program should be able to:

- A. Demonstrate an understanding of developmental psychology and psychopathology.
- B. Evaluate, assess, and treat addiction, substance abuse and chemical dependency in adolescents and adults.
- C. Recognize the pharmacological actions of alcohol and other drugs.
- D. Apply chemical dependency rules and regulations as well as professional and ethical responsibilities to patient care.
- E. Coordinate the use of services, referrals, and community resources.
- F. Recognize cultural diversity, including people with disabilities, and its implications for treatment.
- G. Plan and implement appropriate addiction placement, continuing care, and discharge criteria.
- H. Plan and provide effective counseling for chemical dependency, relapse prevention and continuing care for addicted individuals, their families or significant others in individual or group sessions.
- I. Demonstrate skills necessary to perform clinical evaluations, HIV/AIDS risk interventions and case management functions.

Learning Themes: General education outcomes at Centralia College help students, faculty, and the general public identify what learning is expected when a student has completed a degree or program. The administration, faculty, and staff have agreed upon the following five Learning Ability Themes which students can expect to encounter in most courses and by the completion of any degree or program.

Reasoning: The ability to extract information from data, develop ideas and solutions, establish logical progression in thinking, and problem solve using such procedures as literary analysis or the scientific methods.

Written, Oral and Visual Communication: The ability to make oneself understood in public, interpersonal, professional, artistic, and technical arenas.

Exploration-Self and Others: An awareness of the values, beliefs, customs, and contributions of persons from one's own and other traditions, ethnicities, classes, and genders.

Resourcefulness: The ability to adapt to change such as technological innovations or environmental conditions.

Responsibility: The ability to be accountable to self and society, and the natural world.
