

Resources for Students Using WAOL ANGEL

How to Log In:

1. Go to <http://angel.pcd.edu/>
2. User name: Your student ID number (925##### or some may start with FSC#####)
3. Password: First five characters of your last name (must change upon first login)

See the box above the login prompts for examples for names with spaces and hyphens, etc.

Remember, if you changed your password in a previous quarter, it will remain changed and you continue to use it. Use the "I forgot my password" link below the login prompts and be sure to enter the e-mail address that was associated with your account when it was last used. Login to that e-mail account, find the message from Angel and follow the prompts to reset the password.

Student Guide:

All users have access to an excellent Student Guide with numerous screenshots. To access the guide, click on the question mark icon on the left margin of any page in ANGEL.

There is also a document you can download just below the link to this document - to the right of the login examples on the Login page.

For Technical Support:
