MISSION
Centralia College is committed to student success, academic excellence and supporting our community in an inclusive and equitable learning environment.

CORE THEMES
Access: Centralia College shall make the benefits of higher education accessible by enrolling a wide range of students and by creating a welcoming and supportive environment.
Education: Centralia College shall provide educational programs that meet the needs of its community, that achieve well-defined academic goals, and that prepare students for success in further education, work, and life.
Stewardship: Centralia College shall serve as a model of effective stewardship by prudently managing its physical, fiscal and human resources to support effectively and efficiently meeting the mission of the College.

COLLEGE VALUES
At Centralia College we value:
• Student success
• Quality education and services
• Equity and inclusion
• Our diverse communities
• Stewardship and sustainability

VISION STATEMENT
Centralia College strives to be a responsive educational leader for our community.

THE COLLEGE’S COMMITMENT
Centralia College seeks to fulfill its mission by ensuring student success through its commitment to:
• Promote learning activities within the community the college serves
• Offer opportunities for learners of all ages to gain knowledge and understanding
• Respond to training and retraining requests in various skill areas
• Provide respectful forums in which individuals may examine their values
• Encourage learners to pursue multiple options for learning
• Manage responsibly the assets and fiscal resources of the college
• Demonstrate college values to the community
• Provide a civil and non-disruptive learning environment
## CENTRALIA COLLEGE CALENDARS

### FALL QUARTER 2019
- Labor Day Holiday: Sept. 2
- Faculty Days: Sept. 3-13
- First Day of Class: Sept. 16
- All Campus Meeting (no classes): Oct. 11
- Assessment Day (no classes): Oct. 25
- Advising Day (no classes): Nov. 6
- Veterans Day Holiday (campus closed): Nov. 11
- Thanksgiving Holiday (campus closed): Nov. 28-29
- Last Class Day: Dec. 2
- Final Examinations: Dec. 3, 4, 5
- Faculty Days: Dec. 6, 9, 10
- Winter Holiday (campus closed): Dec. 25
- Quarter Break: Dec. 6-31

### WINTER QUARTER 2020
- New Year's Day Holiday (campus closed): Jan. 1
- Martin Luther King Holiday (campus closed): Jan. 20
- Advising Day (all classes in session): Feb. 11
- President's Day Holiday (campus closed): Feb. 17
- Last Class Day: March 13
- Assessment Day (no classes): March 16
- Final Examinations: March 17, 18, 19
- Faculty Day: March 20
- Quarter Break: March 20-29

### SPRING QUARTER 2020
- First Day of Class: March 30
- Advising Day (all classes in session): May 14
- Memorial Day Holiday (campus closed): May 25
- Last Class Day: June 8
- Assessment Day (no classes): June 9
- Final Examinations: June 10, 11, 12
- Commencement: June 12
- Quarter Break: June 13-30

### SUMMER QUARTER 2020
- First Day of Class: July 1
- Fourth of July Holiday (observed, campus closed): July 3
- Last Class Day (6 week session): Aug. 7
- Last Class Day (8 week session): Aug. 21

### FALL QUARTER 2020
- Labor Day Holiday: Sept. 7
- Faculty Days: Sept. 8-18
- First Day of Class: Sept. 21
- All Campus Meeting (no classes): Oct. 9
- Assessment Day (no classes): Oct. 23
- Advising Day (no classes): Nov. 3
- Veterans Day Holiday (campus closed): Nov. 11
- Thanksgiving Holiday (campus closed): Nov. 26-27
- Last Class Day: Dec. 8
- Final Examinations: Dec. 9, 10, 11
- Faculty Day: Dec. 14
- Winter Holiday (campus closed): Dec. 25
- Quarter Break: Dec. 12-Jan. 3

### WINTER QUARTER 2021
- New Year's Day Holiday (campus closed): Jan. 1
- Martin Luther King Holiday (campus closed): Jan. 18
- Advising Day (all classes in session): Feb. 9
- President's Day Holiday (campus closed): Feb. 15
- Last Class Day: March 16
- Final Examinations: March 17, 18, 19
- Assessment Day: March 22
- Faculty Days: March 23, 24
- Quarter Break: March 20-April 4

### SPRING QUARTER 2021
- First Day of Class: April 5
- Advising Day (no classes): May 11
- Memorial Day Holiday (campus closed): May 31
- Last Class Day: June 15
- Final Examinations: June 16, 17, 18
- Commencement: June 18
- Assessment Day (no classes): June 21
- Quarter Break: June 19-July 4

### SUMMER QUARTER 2021
- First Day of Class: July 6
- Last Class Day (6 week session): Aug. 13
- Last Class Day (8 week session): Aug. 27

*BAS-AM and BAS-TE classes will meet on Advising (non-class) Days.
Calendars subject to change.

Centralia College does not discriminate against any person on the basis of race, color, national origin, disability, sex, genetic information, or age in admission, treatment, or participation in its programs, services and activities, or in employment. All inquiries regarding compliance with access, equal opportunity and/or grievance procedures should be directed to the Vice President of Human Resources and Legal Affairs, Centralia College, 600 Centralia College Blvd, Centralia, WA 98531, or call 360-623-8943.
CAMPUS INFORMATION
600 Centralia College Blvd
Centralia, WA 98531
360-736-9391
www.centralia.edu

Regular Hours (Labor Day-early June)
8 a.m.-5 p.m. Monday-Friday

Summer Hours
8 a.m.-5 p.m. Monday-Thursday

As the oldest continuously operating two-year public college in the state of Washington (founded in 1925), Centralia College has a rich heritage of transfer, workforce and basic skills programs serving the community. We also offer bachelor degree programs.

A community college in the truest sense, we are in the center of Centralia, WA, on a tree-lined, 30+ acre campus. The college serves Lewis and south Thurston counties with a population over 75,000.

Our enrollment averages 5,799 total annual students with 1,907 full-time equivalent (FTEs).

Student-faculty ratio: 15:1

Average class size: 32

ACCREDITATION
Centralia College is accredited by the Northwest Commission on Colleges and Universities (NWCCU). NWCCU is a regional organization recognized by the U. S. Department of Education as the authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region.
Centralia College East (CCEast) represents Centralia College’s dedication to meeting educational needs of the residents of central and eastern Lewis County.

CCEast provides educational advising, college level placement testing, registration services, Running Start testing and advising, financial aid assistance, GED testing and classes, and online access to Centralia College’s library resources. In addition, a variety of classes connect students to the Centralia campus via interactive video. The CCEast Organization of Students offers opportunities for leadership development as well as activities for the students.

CCEast offers many of the prerequisite and support courses for professional and technical programs such as:
- Nursing Assistant Certification
- Home Care Aid Certification
- Accounting Clerk (Certificate of Proficiency)
- Medical Office Assistant (Certificate of Proficiency)
- Office Assistant (Certificate of Proficiency)

**Associate in Arts Degree Program**
Academic classes offered at CCEast enable students to complete a Centralia College Associate in Arts degree in two years. A combination of day and evening classes are available.

**Associate in Technical Arts Coursework**
Coursework toward Business Technology certificates and Associate in Technical Arts (ATA) degrees is offered at CCEast for a variety of programs, including administrative assistant, medical administrative assistant, and accounting. CCEast offers many of the prerequisite and support courses for other Professional/Technical programs as well.

**Business Office Technology**
Develop computer-based skills in CCEast’s computer lab. Classes such as Microsoft Office, Excel, Word, digital photography, and desktop publishing are offered regularly. Community Business classes offer an opportunity to gain skills that may be applied to the business setting or for professional development. These courses are non-transcripted and are offered at a reduced rate.

**Skill Development Program**
GED and Adult Basic Education (ABE) classes prepare students for the GED and for college preparation courses. Self-paced ABE classes are offered in math, writing, and reading. GED testing is offered at CCEast.

**Other Offerings**
CCEast offers personal enrichment opportunities for credit and non-credit, including an array of adult special interest and community education classes, including the summer theater production performed at the Roxy Theater in Morton.
Centralia College operates the Garrett Heyns Education Center at the Washington Corrections Center and provides educational opportunities at the Cedar Creek Corrections Center under an agreement with the State Board for Community and Technical Colleges and the Washington State Department of Corrections.

The alliance with the Garrett Heyns Education Center at the Washington State Corrections Center in Shelton began in 1975. Educational offerings include basic education for adults, GED prep courses, GED testing, adult basic education contextualized to horticulture, and Construction Trades Apprenticeship Preparation Program.

In 2011, Centralia College assumed oversight of the education center at the Cedar Creek Corrections Center in Littlerock. Courses administered include basic education for adults, GED preparation classes, GED testing, Construction Trades Apprenticeship Preparation Program, drywall, roofing, siding, and horticulture. Through the Second Chance Pell Experimental Site program, an Associate of Art – Direct Transfer Degree is also available for those who are eligible.

Educational navigational services are available at both sites to assist students move seamlessly onto the next step of their educational pathway. Services are provided through education navigators at each site and include: career & education planning, completing college admission and financial aid applications, proctoring college placement testing, assisting with resume and job application creation, referring to community resources to mitigate educational and employment barriers.

A collaboration with the Confederated Tribes of the Chehalis Reservation, classes are offered in basic skills.

Placement sites change quarterly. Names and addresses of the sites can be provided on request by the Workforce Education department at 360-623-8963.
Applying to Centralia College is easy

There is no application fee. Applications are accepted throughout the year for entrance into any quarter and most programs. Students must be 18 years of age or older or have a high school diploma or GED certificate. There are exceptions to these standards, which are described later.

Some programs have special admission requirements. These programs are Nursing, Medical Assisting, Running Start, GED, and bachelor’s degrees. Some programs, such as Nursing and the bachelor’s degree programs, require a fee to apply.

Admission to the college does not guarantee entry into all classes or programs. Centralia College has a priority registration system that makes it easier for students to get the classes they want.

The more credits a student earns, the earlier they can register, giving them better choices for classes and times. This is important for those wishing to earn a degree or certificate. It is also helpful for students who plan to register for the most popular classes. Priority students will be assigned a faculty advisor.

For more information about class registration and becoming a priority student, please see the Registration section.

NOTE: Persons with a disability who would like accommodations with any of the programs and services of the college, including admission, can contact the Disability Services Office at 360-623-8966. Students are encouraged to do this as early as possible.
ADMISSION AS A PRIORITY STUDENT

To become a priority student, follow these steps:

I. New Student
Students who are beginning college for the first time and have graduated from high school or will soon graduate, have a GED, or have reached the age of 18, follow these steps:

A. Apply for admission online on the college website.

B. Complete placement. There are two options:
   1. Take a Next-Generation ACCUPLACER placement test on campus. For test times, fees, and instructions, contact the Testing Center at 360-623-8920.
   2. If a student has completed placement someplace else, they can submit their scores to the Enrollment Services Office. Next-Generation ACCUPLACER, applicable AP scores, and Smarter Balanced are some of the scores that will be accepted. Check with Enrollment Services to determine how long your score is valid.

II. Transfer Student
Students who have attended another college or university can follow these steps:

A. Apply for admission online on the college website.

B. Complete placement. There are three options:
   1. Take a Next-Generation ACCUPLACER placement test on campus. For test times, fees, and instructions, contact the Testing Center at 360-623-8920.
   2. Students who have completed testing someplace else must submit their test scores to the Enrollment Services Office. Test scores must be no older than two years.
   3. Students who have taken an English and/or math class can use their transcripts to waive the appropriate placement test. Submit transcripts to the Enrollment Services Office.

II. Returning Student
Students who have attended Centralia College in the past can follow these steps:

A. If a student has taken off between 1-3 quarters, the student will need to fill out the Returning Student Update form that is found online www.centralia.edu/cgi-bin/forms.pl?form=9

B. Students who have been out for a year or more will need to reapply for admission on the college website https://public.ctc.edu/Applicant/AppWelcome.aspx

C. Students who have attended another college or university since they last took classes at Centralia College must forward an official transcript(s) to the Enrollment Services Office and submit a Credit Evaluation Application if they want their credits considered for their degree.

IMPORTANT NOTE: All admission and enrollment information is sent via letter and/or email. To avoid complications and delays, applicants must include their correct address on their admission application. Otherwise, the admission and enrollment process may be delayed. Students can change their address online via Student Web Services or at the Enrollment Services Office. https://www.ctc.edu/~cent/student/stuaddr/
Evaluation of Transfer Credits
The Enrollment Services Office determines which credits transfer and how they apply to a degree or program. Transfer of credits and the application of transfer credits to a degree or program are two separate but related processes. Not all transfer credits apply to every degree or certificate. Semester credits convert to quarter credits by multiplying the semester credits by 1.5.

NOTE: Credits earned at regionally accredited colleges or universities are eligible to transfer to Centralia College.

Application for Credit Evaluation
Centralia College uses a two-step process to determine which transfer credits apply to Centralia College degrees or certificates. Students must:

1. Have an official copy of their transcripts sent directly or submit a sealed official transcript to the Enrollment Services Office.

2. Submit an Application for Credit Evaluation to the Enrollment Services Office for official evaluation. This form is available online [link to the form] and in the Enrollment Services Office. Centralia College does not evaluate transcripts without an official Credit Evaluation Application from the student.

NOTE: Students are encouraged to request a credit evaluation as early as possible. Registration appointments are calculated on a credit-earned basis. The more credits a student has, the earlier they may register. Appointments are based on cumulative credits earned at Centralia College and the other transfer institution(s). Enrolled students should allow a minimum of six weeks for processing from the start of the first quarter after their transcript arrives and the Application for Credit Evaluation is completed.

Transcripts become the property of Washington State and become part of a student’s official file. They cannot be returned or sent to another school or college. Centralia College does not issue or certify copies of transcripts from other institutions.

Non-Traditional Credits
In addition to taking classes from Centralia College or transferring credits from other colleges, there are other ways students may be able to apply credits towards their program. These are called non-traditional credits. Non-traditional credits are granted on a case-by-case basis consistent with non-traditional credit requirements established by NWCCU. Students receiving non-traditional credit must meet Centralia College’s degree requirements. Centralia College will recognize four categories of Credit for Non-Traditional Learning, as follows (descriptions are taken from the State Board for Community and Technical Colleges):

1. **Credit by Testing**: Commonly accepted higher education equivalency exams that are documented via transcripts or other official record.

2. **Prior Experiential Learning**: Knowledge and skills acquired through experience alone, evaluated by a faculty member via evaluation of a compilation of work.

3. **Extra-Institutional Learning**: Knowledge and skills acquired outside the institution and verified through third-party certifications, industry-recognized testing/training, or crosswalks. Refer to Policy 4.121 for the Military Credit Acceptance Policy at [link to the policy].

4. **Course Challenges**: Challenge examinations are sufficiently comprehensive to determine that the student has the same knowledge and skills as those students who enroll in, and successfully complete, the course. A student should have previous training, private study, work experience, or other bona fide qualifications indicating the student has the knowledge or abilities equivalent to course completers.
ADMISSION AS A DROP-IN STUDENT

Students interested in taking classes, workshops, non-degree programs, or learning assistance programs for personal enrichment can register as drop-in students. Drop-in students register after priority students. Drop-in students can register for remaining classes on a first-come, first-served, space-available basis. The period of registration in which drop-in students register is called open enrollment or open registration.

I. High School Graduates or Students 18 Years or Older
To enroll in a course for personal enrichment, improving job skills, or for a workshop or a special program, students can register at the Enrollment Services Office during open enrollment by filling out a registration form and paying the appropriate tuition/fees. The Centralia College website lists the open enrollment dates and times. Individuals seeking entrance into a special program may have to meet additional requirements for admission.

II. Students Between 16 and 18 Years of Age
When a student is younger than 18, their high school class has not graduated, and they do not have a GED, they need the permission of their high school district to enroll at Centralia College. High school juniors and seniors may be eligible to enter Centralia College as Running Start students. Students interested in Running Start should contact the Advising/Counseling Center for more information.

III. Students Under 16 Years of Age
The minimum age for admission into credit classes is 16, unless a student already has a high school diploma or GED. Exceptions are rarely granted. Students wishing to seek an exception should contact the Enrollment Services Office for the appropriate forms and procedures.

IV. Senior Citizens
Adults at least 50 years old may enroll in college classes for a reduced fee, provided there is space available. Adults may enroll for no more than two courses per quarter at these rates. Contact the Enrollment Services Office for more information.
Centralia College encourages and welcomes students from other countries who want to pursue a quality education. Centralia College offers academic and technical programs and an Intensive English Program (IEP). For immigration and tuition purposes, international students are classified as nonimmigrant (F-1 or M-1 visa), non-U.S. citizens, and non-residents. Application forms are available online at www.centralia.edu/international.

ADMISSION REQUIREMENTS

To be considered for admission to Centralia College, including the Intensive English Program (IEP), the following items must be submitted to the International Student Programs office via email to intl@centralia.edu or via postal mail to International Student Programs, 600 Centralia College Blvd, Centralia, WA 98531:

1. Completed and signed International Student Application

2. Application fee (USD $65 via money order, cashier’s check, or credit card: Visa, Mastercard, or Discover)

3. Proof of adequate financial support for all expenses for one academic year, e.g., official bank statement, notarized affidavit of support, embassy, agency or government letter of support. Expenses for tuition, fees, insurance, and living expenses for a year at Centralia College are available at www.centralia.edu/international/tuition.html. International students are not eligible for financial aid, but they can apply for college scholarships. Continued enrollment will require a more current statement of financial support.

4. Official transcripts from high school and all colleges attended (including all language schools, universities, etc.)

5. Copy of current passport

6. Proof of proficiency in the English language is NOT required for admission.
   a. Students without an official TOEFL score or with an official TOEFL score below 500 (paper-based)/173 (computer-based)/61 (Internet-based) or an IELTS score below 5.5 will be admitted only to the Intensive English Program (IEP).
   b. Students with a TOEFL score higher than 500 (paper-based)/173 (computer-based)/61 (Internet-based) or an IELTS score higher than 5.5 may enroll in college-level courses after an assessment of readiness has been completed at Centralia College.

NOTE: All international students are REQUIRED to purchase student health insurance each quarter through the International Programs Office.
For high school juniors and seniors who are academically ready for college-level work, Running Start provides a valuable opportunity to earn up to two years of college tuition-free while finishing their high school requirements. Running Start students may enroll in academic/transfer or professional/technical courses. Through an agreement with the high school, Running Start students do not pay college tuition. Students pay for fees and books; these fees may be waived for low-income students.

Students can contact their high school counselor or visit the Advising/Counseling Center for more information.

To apply for Running Start, students must return the following to the Advising/Counseling Center:

A. Running Start Application
B. Placement test results
C. High school transcript

Program acceptance letters will be sent after the application and test scores are received.
Assessing one's readiness for college coursework is the first step toward success as a college student. This includes answering questions, such as: What classes are appropriate for my skill level? How many courses and credits should I take? Students that gain priority status, will be assigned a faculty advisor who will assist with planning a program of study. Only by considering one's academic readiness and life situation can one choose courses that offer the right amount of challenge and workload. An advisor can assist with these choices.

**Advising**

**New Students**
After applying for admission, completing placement and orientation requirements, new students can call or visit the Advising/Counseling Center for advising/registration dates and times. (See above for contact information.) New students should expect to discuss their plans, review their assessment of academic readiness, select and schedule classes, register, and pay tuition and fees.

**Current Students**
Students must meet with their advisor on Advising Day or during Advising Week to plan their classes and receive a registration code. Students are expected to contact their advisor BEFORE Advising Day to set up an advising appointment. After meeting with their advisor, students can visit Student Web Services to access their registration time and register for classes.

Students may request to change their advisor at any time. To do this, students must obtain the signature of the new advisor on a Change of Advisor form and submit the form to the Enrollment Services Office.

**NOTE:** *It is the student's responsibility to meet all graduation and transfer requirements (if applicable). The advisor only assists and is not responsible for a student's total planning.*

For students who need help choosing college programs, information is available in the Advising/Counseling Center. Students can also schedule an appointment with a counselor.
Students can register based upon the following order of their registration status:

1. Early
2. Priority
3. Open

**Early Registration:**

Per RCWs 1, 2, Centralia College provides Early Registration, which takes place before Priority Registration, to student Veterans, spouses/dependents using VA educational benefits or the state veteran waiver and some students with specific disabilities.

**Priority Registration:**

**HOW TO QUALIFY FOR PRIORITY REGISTRATION**

In order to qualify for Priority Registration, students must complete the following steps:

1. Apply for Admission,
2. Intend on earning a certificate or degree,
3. Complete placement requirement(s),
4. Complete the orientation (if required), and
5. Meet with an entry advisor.

Students that have completed the process will be assigned a faculty advisor and changed to priority status. Students with priority enrollment status are given priority in selecting their classes, after students with Early Registration status, for the next quarter. Appointment times for registration are created according to total Centralia College cumulative credits earned.

Having earned at least 90 credits, students accepted into any Bachelors of Applied Sciences program(s) will receive a registration time before students working toward an associate degree/certificate.

Centralia College has the authority to determine additional populations that can be moved to an earlier registration time, regardless of credits earned.

**Open Registration:**

The period of registration in which drop-in students register is called open registration. Students interested in taking classes, workshops, non-degree programs, or learning assistance programs for personal enrichment can register during open registration and do not need to apply for admission. Drop-in students register after early and priority registration. Drop-in students can register for remaining classes on a first-come, first-served, space-available basis.

1 RCW 28B.15.624
2 RCW 28B.10.912
Late Registration
Students may add classes by completing and submitting a Class Registration Form or Schedule Change form to the Enrollment Services Office. Forms are available on the college’s website and in the Enrollment Services Office. To add classes that are filled, students must ask for the instructor’s permission and, if authorized, obtain the instructor’s signature or authorization via email or Canvas. To add any class after the second day, whether it is filled or not, students must obtain the instructor’s signature.

The form must be taken to the Enrollment Services Office for processing. Students will not be allowed to add a class after the first 10 days of the quarter (eighth day of summer) except in continuous enrollment classes without a Late Registration Authorization Form. For continuous enrollment or Late starting courses, registration may continue after the second week of the quarter.

Change of Schedule/Withdrawal from Classes
Students can add and drop classes for a limited time at the beginning of each quarter. To add or withdraw officially from a class, students must submit a Schedule Change form to the Enrollment Services Office. Forms are available on the college’s website and in the Enrollment Services Office.

IMPORTANT:
- Students are strongly encouraged to consult with their advisor before adding or dropping classes. Students who are receiving financial aid and/or scholarships should consult with the Financial Aid Office to avoid jeopardizing their aid. Student who are receiving VA Educational Benefits must check in with the School Certifying Official to avoid jeopardizing their aid.
- Students who stop attending class will NOT be dropped or withdrawn automatically. Official withdrawal is required. To withdraw from a class, students must submit a Schedule Change Form to the Enrollment Services Office. Failing to withdraw officially may result in a failing grade in the class.
- Students are required to pay for any classes for which they register. Refunds are available for a limited time at the beginning of each quarter.

Student Withdrawal
For classes that match with quarter start and end dates, if a student withdraws from a course during the first 10 calendar class days (8 calendar days for summer quarter), their name will be removed from the class list. They must return the Schedule Change Form to the Enrollment Services office by the 10th class day. An instructor’s signature is not required. No record of the class will appear on the student’s transcript.

If a student withdraws from a class after the 10th class day (8th class day for summer quarter), but on or before the 35th class day, they must return the Schedule Change Form to the Enrollment Services Office by the 35th class day. An instructor’s signature is not required. The student will receive a “W” grade on their transcript.

If a student withdraws from a class after the 35th class day (20th class day for summer quarter), but before the last class day, they must contact their instructor by 5 p.m. on the last class day of the quarter to ask for a withdrawal. An instructor’s signature is required. The student will receive a “WP” grade (Withdrawal Passing) or a “WF” grade (Withdrawal Failing) on their transcript. The instructor will determine this grade based upon whether the student was passing or failing the course at the time of their withdrawal. This does not apply to continuous enrollment courses.

Instructor Initiated Withdrawal
Students are expected to attend all classes for which they enroll. Students who do not attend during the first week of class will be dropped from their classes unless they have received prior approval from the instructor. Students must receive prior approval from the instructor for any absences during the first week of the term.

NOTE: The instructor must notify the Enrollment Services Office of this withdrawal by noon of the sixth business day since the start of the class. If a student has attended before the first day that an instructor can drop the student for non-attendance, the student cannot be dropped from the class for non-attendance.

Administrative Initiated Withdrawal
The most common reason for administrative withdrawal is class cancellation. Administration may withdraw students for non-grade related reasons such as, but not limited to, medical, disciplinary, error, or military assignment. Students withdrawn after the 35th class day shall receive a “WF” or “WP” as assigned by the instructor. Administration will notify the instructor.
COLLEGE COSTS

Enrollment Services Office
TransAlta Commons Building, Second Floor
360-623-8976 Main Campus • 360-496-5022 Centralia College East

When estimating college costs, students are reminded to include amounts for tuition and fees, special fees, books, supplies, transportation, and living expenses. The college accepts most major credit cards for payment of tuition, fees, books, and supplies. Check with the cashier for details.

Tuition and Fees
Tuition rates for Centralia College are set annually by the state legislature and the State Board for Community and Technical Colleges.

Tuition rates and fees are posted on the Centralia College website. The most up-to-date rates can be found on the college website.

Associated Students of Centralia College (ASCC) student fee of $30 per quarter will be charged in addition to tuition and fees. Student Use Fee of $4 per credit (up to 10 credits/maximum $40 per quarter). Student Project Fee of 5 percent per credit (up to 18 credits). Lab/course fees may apply.

- ABE/ESL - $25 per student/per quarter
- Parent Education (Home & Family Life) - $16 per credit
- Senior Citizen Courses (ASI and SNRC) - $20 per credit + fees
- Vocational 18+ credits - No charge
- EMT - $31 per credit
- Apprentice - $54 per credit
- Veterans, child and spouse of totally disabled POW/MIA or deceased eligible veterans or National Guard members tuition waiver - 100 percent
- Space Available Basis
- State Employee Waiver - $20 per quarter up to two quarters
- Senior Citizen Waiver - $5 per quarter up to two classes + fees

PAYMENT PLAN
Centralia College offers a payment plan to help students spread the cost of tuition and fees throughout the quarter. Contact the Business Office, 360-623-8646, for details.

Residency Requirement
Students who are residents of Washington pay less for tuition than nonresident students. This is because Washington taxpayers pay the difference in cost for Washington residents.

Washington law determines residency status for tuition purposes. This is what the law says:
"To qualify for resident tuition, you must be a U.S. citizen, a person who has permanent resident status, or has "refugee-parolee" or "conditional entrant" status and (1) has established residence in the State of Washington primarily for purposes other than educational for one year immediately prior to the start of the quarter, and was financially independent from parents or legal guardians for the calendar year prior to the year in which application was made; or (2) is a financially dependent student, one or both of whose parents or legal guardians have lived in the State of Washington for at least one year immediately prior to the start of the quarter."

DREAMers may qualify for resident tuition rates if the following requirements are met: (1) Student has resided in Washington for the three years immediately prior to receiving a high school diploma and completed the full senior year in a Washington State high school or student will have completed the equivalent of a high school diploma and resided in Washington for three years immediately prior to receiving the equivalent diploma. (2) The student has continually resided in Washington since earning a high school diploma or its equivalent. (3) The student has a permanent resident card or DACA status.

Nonresident tuition is required of students whose legal residence is outside of Washington. There are some limited exceptions to this rule. The Enrollment Services Office can explain these exceptions. Nonresidents of Washington pay a slightly higher rate.

International students attending Centralia College are classified as nonresidents regardless of length of residency in Washington. International students pay the highest rate.

To apply to change residency classification, students must complete the Residency Questionnaire form and provide documentation within 30 calendar days of the beginning of the quarter for which they have registered. Residency forms and regulations are available in the Enrollment Services Office or on the website.

Refund Policy
The state determines the limits of Centralia College's refund policy. Refund requests must be made to the Enrollment Services Office.

Students who officially withdraw from a class or from the college through the Enrollment Services Office may be entitled to a refund. Refunds may not be arranged by telephone.
Non-Sufficient Funds Check Policy
Centralia College charges $25 for each NSF (non-sufficient funds) check. This charge may be subject to change. Centralia College will place a hold on registration, grades, transcripts, etc., until students settle the NSF check and associated fees. All NSF checks will be sent to a collection agency in 15 days. The collection agency may charge an additional collection fee and interest. A student’s registration may be canceled if the NSF check is for tuition (including lab and other fees).

Appeals
If a student fails to meet their financial obligations to the college, the college may withhold their grades, degree, or transcript and may block registration for future quarters. Students have the right to make a written appeal regarding fees, refunds, fines, charges, debts, or other financial obligations to the college. Appeals can be addressed to the Director of Business Services.
Eligibility
In general, to be eligible for financial aid students must:
1. Be a U.S. citizen or eligible non-citizen
2. Not owe a refund or repayment on prior financial aid and not have a student loan in default
3. Have a high school diploma or GED
4. Register with Selective Service, if required or meet ability-to-benefit guidelines.
5. Enroll in financial aid eligible degree or certificate program at Centralia College
6. Meet satisfactory academic progress standards

Applying for Aid
To apply for financial aid, students must submit the following:
1. Free Application for Federal Student Aid (FAFSA) – This form can be filled out online at www.fafsa.gov. Centralia College’s school code is 003772.
2. Centralia College Application for Admission – To be eligible for funding, students must be admitted to the college for the quarters they wish to receive funds.
4. Verification or Other Required Forms – The Financial Aid Office may need additional forms. Students will be notified by email if this occurs.
5. Academic transcripts from all schools attended within the last five years

Funding
Financial aid helps offset the cost of college. The primary responsibility for paying for education rests on the student and their family. However, if the combined financial resources are not enough to cover expenses, students may qualify for funding from these various sources:

- Grants (federal, state or institutional funds): Federal Pell Grant, State Need Grant, Opportunity Grant, or Centralia College Grant
- Workstudy (federal, state or institutional funds): Federal or State Workstudy, Student Employment
- Scholarships (institutional): Centralia College (separate process for applying)

Loans
Centralia College does not participate in the Federal Direct Loan program, but the following options are available:
- Centralia College Short Term Loan
- Alternative loans through outside lending agencies

STANDARDS OF ACADEMIC PROGRESS (SAP)
To be awarded and continue to receive financial aid funds, students must meet Centralia Colleges SAP standards.
Students who do not meet the SAP standards or whose financial aid has been canceled have the option of submitting an appeal. The Financial Aid Office can provide additional information.

If a student is receiving financial aid and they completely withdraw from or stop attending their classes, the student may be required to repay a portion of the funds they received.
The Worker Retraining program provides retraining in in-demand workforce programs to eligible students who have drawn Unemployment Insurance within the last 48 months. Also, included are veterans, displaced homemakers (those who have lost their supporting income of a main breadwinner), and those formerly self-employed. Others eligible may be individuals who need updated skills in their current occupations or are working in jobs that are not in demand.

Worker Retraining funds may be awarded for tuition, fees, books, childcare, tools, or Training Completion Aid. Eligible students must apply for state and federal financial aid and other grants.

College staff may assist with career exploration, education planning, financial aid applications, Employment Security Department applications and forms, resource referrals, and job search assistance.

For additional information:
Worker Retraining, 360-623-8946
WorkFirst, 360-623-8410

OUTSIDE AGENCIES
Students who expect to be funded by an outside agency (such as a tribe, L&I, or DVR, for example) need to ensure the payments reach the Cashier’s Office by the posted quarterly deadline. Failing to do so may result in being dropped from classes.
Centralia College, through its foundation, has an array of scholarships available to new and continuing students. Scholarship applications are available on the college's and foundation's websites beginning in December and are typically due on March 1. Recipients are selected based on multiple levels of academic excellence, community service/work experience/school activities, a personal essay, writing sample, and potential for success. A single application applies to all scholarships to be awarded. The Scholarship Committee will notify recipients during spring quarter. Eligibility criteria for the scholarships vary.
SERVICES FOR VETERANS
TransAlta Commons Building, second floor
Centralia College is approved to provide educational benefits to veterans, active-duty service members, National Guard, and eligible spouses/dependents who receive benefits.

SCHOOL CERTIFYING OFFICIAL
Enrollment Services Office
Kelly Worthey 360-623-8664
kelly.worthey@centralia.edu

The School Certifying Official can provide the following: assistance through the education benefit application process; notification of enrollment and enrollment changes to the VA; help in interpreting, explaining, and implementing VA policies and college regulations.

Any changes to a student’s schedule or program must be immediately communicated to the School Certifying Official.

VETERANS CENTER
Kirk Library, Room 103
360-623-8958

The Centralia College Veterans Center is a dedicated safe zone on campus for all veterans, active duty personnel and spouses/dependents currently enrolled and receiving benefits. The Veterans Center connects students to both college and community veteran’s resources, as well as providing access to the computer lab, free printing, and a commons area. Access to the Veterans Center must be requested from either Enrollment Services or the Vet Corps Navigator.

MILITARY CREDIT ACCEPTANCE
In response to RCW 28B.10.057, Centralia College will evaluate and grant credit hours for military education based on the recommendations from the American Council on Education’s (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services. This is in accordance with transfer credit policies at Centralia College and the State Board for Community and Technical Colleges. Students are required to supply Enrollment Services with an official copy of their Joint Services Transcript (JST) or a transcript from the Community College of the Air Force, as well as previous academic transcripts.

EARLY REGISTRATION
Centralia College allows early registration (as defined by RCW 28B.15.624 and HB 1052) to all eligible veterans (with qualifying DD214), National Guard members, and spouses/dependents who are receiving VA Educational benefits. Refer to the Academic Calendar for registration dates.

ADDITIONAL INFORMATION
Selected programs of study at Centralia College are approved by the Workforce Training and Education Coordinating Board’s State Approving Agency (WTEECB/SAA) for enrollment of those eligible to receive benefits under Title 38 and Title 10, USC.

Centralia College does not and will not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollment or financial aid to any persons or entities engaged in any student recruiting or admissions activities or in making decisions regarding the award of student financial assistance.

Centralia College is recommended by the VA to limit student enrollment to 85 percent veteran enrollment per cohort. In the event a veteran wishes to enroll in a class that has already reached the 85 percent cap, he or she may do that but will not be eligible for VA funding. Chapter 35 and 31 students may still enroll even if the 85 percent has been realized. Note: This applies per USC 3680A(d)(1) for each program/concentration/track offered at the school.
CREDIT SYSTEM
Centralia College divides the academic year into four quarters. Fall, winter and spring quarters are approximately 11 weeks each. Summer quarter is six to eight weeks.

In general, a class that meets one hour per week for one quarter earns one credit; a class that meets five hours per week for one quarter earns five credits. Laboratory and certain other courses vary. The credit hours for each course are listed after the course titles in the Course Description section of this catalog. Some classes, particularly those offered through Transitional Education, offer variable credit (generally from 1 to 5 credits). With assistance from an advisor and/or the course instructor, students decide how many credits they can reasonably carry in one quarter and register for that amount.

To earn credit, students must officially register for a course and successfully complete it with a passing grade.

CREDIT HOUR POLICY
In compliance with U.S. Department of Education regulation and Northwest Commission on Colleges and Universities policy, college level courses at Centralia College, regardless of modality, shall be at a level of rigor such that the average adequately prepared student will invest approximately 30 hours of effort for each quarter credit earned.

Credits represent time. Each quarter, students must realistically assess their time commitments. Students are encouraged to take a credit load that can be managed successfully. To estimate the time needed to commit to college, students can figure three hours per week for each credit (combined class and study time). For example, a 15-credit load represents approximately 45 hours per week. Some students want to complete their associate degree in two school years. They register for an average of 15 to 18 credits each quarter. Other students take fewer credits each quarter, graduating when their requirements are satisfied.
Grades
Centralia College uses a numerical grading system. Instructors report passing grades from 4.0 to 1.0 in 0.1 increments. Instructors assign the number 0.0 for failing work and must assign a date of last attendance. Numerical grades are equivalent to letter grades as follows:

4.0-3.9  A  Superior achievement
3.8-3.5  A-  
3.4-3.2  B+  
3.1-2.9  B  High achievement
2.8-2.5  B-  
2.4-2.2  C+  
2.1-1.9  C  Average achievement

Note: 1.9 is below the 2.0 minimum requirement for program entrance or completion

1.8-1.5  C-  
1.4-1.2  D+  
1.1-1.0  D  Minimum achievement
0.0      F  Failure to meet minimum course requirements.

W • Withdrawal
May be awarded only on or before the 35th class day. May only be student-initiated. Requires dated signature of student. Not calculated in the grade point average. The college encourages students to speak with their instructor(s) before withdrawal.

WP • Passing withdrawal
Indicates student had completed enough work to pass the course (1.0 or above) at the time of withdrawal. May be awarded only after the 35th class day, but before the first day of finals. May only be student initiated. Requires dated signature of the student. Requires dated signature and “WP” grade of the instructor. Not calculated in the grade point average.

WF • Failing withdrawal
Indicates student was doing failing work (below 1.0) at the time of withdrawal. May be awarded only after the 35th class day, but before the first day of finals. May only be student initiated. Requires dated signature of the student. Requires dated signature and “WF” grade of the instructor. Not calculated in the grade point average. Receiving institutions may treat this grade as a 0.0.

I • Incomplete
No grade points calculated. The student must have finished a substantial portion of the work, attended past the 35th class day, be passing the course (1.0 or above), and because of circumstances not ordinarily controllable by the student, was not able to finish the course prior to grading. The instructor and student must complete a detailed contract that specifies what work is remaining, and when it is due. The contract must specify the default grade, if the additional work is not accomplished by the time limit. The grade shall revert to the default grade, if no new grade is turned in by the instructor by the time limit. The instructor, student, and the Enrollment Services Office receive copies of the contract. If there is no contract, or an incomplete contract when an “I” has been requested by the instructor, the grade shall be recorded as an *, until a complete contract is on file in the Enrollment Services Office. Incompletes must be completed by the end of the next quarter, except that spring quarter incompletes must be completed by the end of the following fall quarter.

N • Audit
No credit. Not calculated in grade point average.

S • Passing with credit
Not calculated in grade point average. Used only by approved departments. Degrees and certificates may limit the use of S credits.

U • Unsatisfactory progress
Not calculated in grade point average. Used only by approved departments.

Y • In progress
No grade point calculated. Used in courses that do not begin or end with the regular quarter calendar. Not calculated in grade point average.

A student has two quarters to complete the class (an extension for a third quarter is available for an additional fee). The instructor will submit a change of grade form to the Enrollment Services Office at the completion of the coursework within the time limit. If no new grade is turned in by the instructor a grade of 0.0 will be issued.
Time Limitation to Change a Grade
Instructor may authorize a grade change within the next quarter of the academic year. For example, spring quarter grade changes must be made by end of fall quarter. Summer quarter changes must be made by end of fall quarter.

Course Audit
Students may attend a class but not receive credit. To do this, students must register as an “auditor” and enroll in the class by the census date. Auditors pay regular credit hour and lab fees. An auditor does not take examinations or receive credit for the course. The student’s transcript will show an “N” for an audited course.

Grade Forgiveness
The Centralia College grade forgiveness policy may allow students to repair their Centralia College grade point average by not counting poor grades that have been earned. This can be done only under certain circumstances:

A. Only grades below a 2.0 may be forgiven.
B. The grades must be at least two years old.
C. Students must demonstrate improvement by earning a cumulative GPA of 2.5 or higher in all courses taken after the most recent course for which they are requesting forgiveness. Students must have completed a minimum of 24 credits to demonstrate improvement since that last date.

Students can apply for grade forgiveness by submitting a completed Grade Forgiveness Request Form (available from the Enrollment Services Office). Enrollment Services staff will review the student’s academic record and determine which grades, if any, may be forgiven. Enrollment Services staff will notify students of the results. Their decision may be appealed in writing to the Director of Enrollment Services. The Director of Enrollment Services will notify students by mail of the results of their appeal.

Forgiven grades and credits will remain on the student’s transcript but will not be calculated in their GPA at Centralia College. Forgiven grades cannot be used as credits towards any degree, certificate, program, or course requirement at Centralia College. Forgiven grades cannot be reinstated later.

ADVISING NOTE: Forgiven grades may not be recognized by other colleges. This means that staff at another college could recalculate a transfer student’s GPA, counting all their grades for admission and transfer purposes.

Repeating a Course
Students who repeat a class will receive credit for taking it once with a few exceptions. The higher grade will count toward their GPA. Both grades will remain on the student’s permanent record. Enrollment Services may adjust for educational or regulatory reasons.

ADVISING TIP: Transfer colleges may choose either grade or the average of two grades.

Transcripts
An official transcript is a copy of a student’s academic record signed by the Director of Enrollment Services. There is a small processing fee for each official or unofficial transcript. Official transcripts may be withheld if students do not fulfill their obligations, financial or otherwise, to the college. Centralia College works with the National Student Clearinghouse to provide online transcript ordering. More information is available on the college’s website https://www.centralia.edu/resources/default.aspx.

-
STUDENT RECORDS
Enrollment Services Office
TransAlta Commons Building, Second Floor
360-623-8976

STUDENT IDENTIFICATION NUMBER
All students will be assigned a Student Identification Number (SID) when they apply for admission to Centralia College. This number provides access to a number of services at the college.

If a student has transferred from another college in the Washington State community and technical college system, that number may be transferred.

Confidentiality of Student Records
FERPA affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) These rights include:

1. The right to inspect and review the student’s education records within 45 days after the day Centralia College receives a request for access.

Students may contact Enrollment Services to request an inspection of their records. A request must be submitted in writing to the Registrar. Centralia College has 45 days from the receipt of the request to arrange for access.

2. The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

Students may submit a written request to the Registrar if they wish to have an amendment made to their education records. After reviewing the record, the Registrar will inform the student of the decision. If the student’s record is not amended as requested, the Registrar will advise the student of their right to a hearing.

3. The right to provide written consent before Centralia College discloses personally identifiable information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Centralia College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW, Washington, DC 20202

For the full confidentiality information, see the The Family Educational Rights and Privacy Act (FERPA).

Students who would like Centralia College to share non-directory information with others need to complete a Release of Student Records FERPA Authorization Form and submit it to Enrollment Services.

Disclosure to school officials with legitimate educational work-related interests does not require the student’s consent. A school official is a person employed by Centralia College in an administrative, supervisory, academic or research, or support staff position; a person or company with whom Centralia College has contracted (such as an attorney, auditor, or collection agency); a person serving on the Board of Trustees; or a student serving on an official committee or assisting another school official in performing his or her tasks. Volunteers and interns serving in any of these capacities are also considered school officials. A school official has a legitimate educational interest if the official needs to review an education record to fulfill his or her professional responsibility. Centralia College may disclose education records without consent to officials of another school in which you are currently enrolled, receive services, or seek or intend to enroll.

The right to prevent disclosure of directory information.

Centralia College routinely publishes and discloses directory information about students to various requestors. FERPA defines directory information as information contained in the education records of a student that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information consists of:

- name
- address
- degree/program
- most recent previous college/university attended
- official Centralia College photographs
- participation in officially recognized activities and sports
- dates of quarter enrollment
- honor roll
- degrees and awards (including names of scholarships)
- Centralia College email address
- enrollment status

Students who would like to block Centralia College from releasing their directory information must submit a request in writing by utilizing the Student Directory Restriction Request form provided by Enrollment Services.

If a restriction request is in place, Centralia College could be restricted from including the student’s name in the commencement program or from providing verification of enrollment, graduation, or degrees awarded to third parties, including potential employers, insurance companies and
sports recruiters. No directory information would be released to any person.

Requests for confidentiality are permanent until removed in writing by the student.

Additionally, the Solomon Amendment, a federal law, authorizes representatives from the Department of Defense to request the following information: level of education, age, date of birth, place of birth, and phone number for recruiting purposes.

**Photo Consent Statement**
All students are advised that Centralia College, through the College Relations Office, takes photographs and shoots videos throughout the year, which may include images (as well as audio/video recordings of voices) of members of the student body and reserves the right to use them for publicity, promotional and marketing purposes.

The College also reserves the right to take photographs of campus facilities and scenes, events, faculty, staff and students for promotional purposes in any areas on campus or at any Centralia College-sponsored event off campus where subjects do not have a normal and reasonable expectation of privacy. All such photographs and videos are defined as "Directory Information" and are the property of Centralia College and may be used for Centralia College promotional purposes (e.g. electronic and printed publications, websites, classroom use, college ads, etc.) without prior permission of the subjects.

As a general practice, there is no attempt to collect individual photo release forms from students. Instead, College Relations makes the assumption that Centralia College students welcome involvement in these activities. However, students who do not wish to have their images/voices used for this purpose must stipulate this in writing to the College Relations Office at the beginning of the quarter. It is also expected that such students will excuse themselves from photo/video sessions and inform the Centralia College photographer/videographer that they do not wish to be included.

**Change of Address**
When their address changes, students must notify the Enrollment Services Office by completing the Student Update Form or updating online via Student Login/Web Services.

**Name Change**
It is important that students’ names are accurately reflected on their records. It is the student’s responsibility to notify the Enrollment Services Office of any name change. Enrollment Services can change a name with government-issued documentation.

**Emergency Messages**
Centralia College has no way to relay messages into classrooms or buildings. Only messages relating to accident, illness of a child, or death will be relayed to students. Contact the Enrollment Services Office. Please disclose the nature of the emergency and the college will attempt to locate a student. However, there is no guarantee of success.

**Emergency Notifications**
The possibility of an emergency exists on the Centralia College campus. There are natural and human-caused situations that require all students, employees, and others to be notified. The college uses Singlewire Informacast to deliver mass emergency notifications to students, employees, and volunteers. This is the primary means of mass notification when emergency and selected other events and situations arise that impact normal operation of the college.

To get text alerts for Centralia College, text #ccalerts to 360-347-2347. To get alerts for CCEast only, text #cceastupdates to 360-347-2908.

Students can download the Singlewire mobile app via the online student portal. The college will test its emergency response and evacuation procedures on at least an annual basis, including publishing its procedures in conjunction with at least one test per calendar year, and documenting a description of the exercise.

**Right to Know**

**Annual Security and Fire Safety Report**
Centralia College publishes the Annual Security and Fire Safety Report each year found at: https://www.centralia.edu/about/docs/security-fire-safety-report.pdf.

The report contains crime and fire statistics from the previous three years for certain on campus, non-campus and residential college facilities. All current and prospective students and staff are notified of this report annually.

If you would like to receive a hard copy of the Annual Security and Fire Safety Report please contact Facilities Operations and Maintenance at 360-623-8947.

**Graduation and Transfer Rate Report**
The annual graduation and transfer rate report has the percentage of Centralia College students who graduate or transfer to other colleges. A copy of this report is available by contacting the Office of the Vice President of Student Services, or by accessing it online at www.centralia.edu/students/srtk/ccssgradcomm.html.
ACADEMIC STANDARDS POLICY

Centralia College is a state supported public institution. Tuition covers about 34 percent of the cost of education. Tax dollars provide the rest. The college expects students to be serious about their education and to plan for their success. The college provides many ways to help; one is by setting standards for academic success.

Students must earn a cumulative grade point average (GPA) of at least 2.0 or show satisfactory progress as measured by an alternative approved method to be in good academic standing. If a student does not meet these criteria, the college will place the student on warning, probation, or suspension.

**Warning**
The first quarter a student’s cumulative GPA falls below 2.0, the college will place the student on Academic Warning.

There is no appeal.

**Probation**
The second quarter a student’s cumulative GPA falls below 2.0, the college will place the student on Academic Probation. This is the final warning prior to suspension.

**One-Quarter Suspension**
The third quarter a student’s cumulative GPA remains below 2.0, the college will suspend the student for one quarter.

During the suspension, the student may not register for any course and may not participate in events or activities reserved for students.

**Conditional Probation**
Suspended students who return from one-term or one-year suspension or were granted an appeal will be placed on conditional probation status. Students on conditional probation status must increase their cumulative GPA to above 2.0 or meet the conditions outlined in their approved appeal. The college will remove all warning, probation, suspension or conditional probation status from students increasing their cumulative GPA to above 2.0. Students who meet the conditions of the appeal but do not raise their cumulative GPA to above 2.0 will remain on conditional probation status. Students who fail to increase their cumulative GPA to above 2.0 or fail to meet the conditions of their appeal will be suspended for one year.

During the suspension, the student may not register for any course, and may not participate in events or activities reserved for students.

**Suspended students have two options:**
1. Separate from the college for one term. After the one-term separation, the student may return, but is required to raise their cumulative GPA to 2.0 or higher at the end of the quarter in which they return. If the student does not reach the minimum required cumulative GPA, the student will be suspended again for one year.

2. Appeal the suspension to the Vice President of Student Services. In a successful appeal, the student must show proof of circumstances over which they had no control and/or show proof of making measurable and substantial progress toward raising their GPA. The Vice President reviews appeals on a case-by-case basis. The Vice President may: grant the appeal, allow the student to continue under certain conditions, or deny the student’s appeal. The decision of the Vice President is final.
GRADUATION AND ACADEMIC HONORS

Students planning to graduate at the end of winter or spring quarter need to submit an Application for Graduation form by November 30 for priority credit evaluation. For graduation in summer or fall quarter, application forms are due by April 30. The application form is available at the Enrollment Services Office. A $15 fee is paid when the Application for Graduation is submitted. Centralia College will mail diplomas or certificates approximately 60 days after the end of the quarter.

Time Restriction for Graduation
Students may graduate under provisions of any official catalog in effect over the last five years, counting backwards from when they applied for graduation. Substitutions for courses that have changed or are no longer offered must be approved by the Vice President of Instruction. Arrangements will be made for students enrolled in a program that is discontinued to complete their degree in a timely manner.

Completion of Credits for Degree
To be eligible for a degree from Centralia College, students must complete their final 15 credits, or 35 of the last 45 credits at Centralia College. To be eligible for a certificate from Centralia College, students must complete their final 10 credits, or 15 of the last 25 credits at Centralia College. Students may earn a second degree or certificate if they satisfy all requirements of both degrees.

Commencement Ceremony
A commencement ceremony is held at the end of the academic year. Students who applied for graduation during that year may take part in the ceremony. There is a fee for a graduation cap and gown.

Academic Honors

Quarterly Honors
Any student who completes 12 or more credits in a quarter is eligible for quarterly honors. Students with a quarterly GPA of 3.9 to 4.0 will be on the President's List and will be awarded a Gold Seal Certificate. Students with a quarterly GPA of 3.75 to 3.89 will be on the Vice President's List and will be awarded a Silver Seal Certificate. Students with a quarterly GPA of 3.50 to 3.74 will be on the Dean's List.

Individuals receiving the honors listed above will be invited to an annual Honors Reception during spring quarter.

Graduation Honors
This applies to any student who earns a degree or certificate of proficiency. Students with a GPA of 3.90 to 4.0 will graduate with HIGHEST HONORS. They will receive a gold medallion and may wear a gold cord. Students with a cumulative GPA of 3.75 to 3.89 will graduate with HIGH HONORS. They may wear a gold cord. Students with a cumulative GPA of 3.50 to 3.74 will graduate with HONORS. They may wear a silver cord.

Individuals receiving the honors listed above will be recognized in the commencement program and have the honor stated when their name is announced at the commencement ceremony. Honor grades are calculated through winter quarter for the commencement program and ceremony.
SERVICES FOR STUDENTS

**Bookstore**
TransAlta Commons Building, First Floor
7:30 a.m.-4 p.m. Monday–Friday
360-623-8964

The Centralia College Bookstore serves students, faculty, staff, and community members. The bookstore offers new and used textbooks, reference materials, study aids, art supplies, computer supplies and software, stationery, gifts, insignia items, clothing, and snacks.

Extended hours are offered at the beginning of each quarter. Summer quarter hours may differ slightly. The bookstore buy-back takes place during the three days of final exams. The summer quarter schedule may differ slightly.

**Blazer Bite Cafeteria**
TransAlta Commons Building, First Floor
Hours may vary by quarter

Food Services offers a full line of fast foods, sandwiches, soups, salads, buffet, beverages, and a variety of snack items for breakfast and lunch.

**Children’s Lab School**
412 S. Oak Street
7:30 a.m.-5:30 p.m.
360-623-8949

Childcare services are available on campus for children ages one year through six years.

The childcare program participates in the Washington State Early Achievers Program. Areas of specialization are in interactions, environments, and overall quality. Parents participate in the children’s classrooms and parenting classes and receive college credit for their involvement.

The childcare center is utilized by the Early Childhood Education programs on campus for training and observation purposes.
The Advising/Counseling Center offers a variety of services. Appointments are recommended, however, drop-in service may be available.

CAREER SERVICES
Career counseling helps students to identify suitable academic programs and career paths. In collaboration with a counselor, students discover aptitudes, interests, values, and skills through assessment and exploration. Tools available include the Washington Occupational Information System (WOIS), the Strong Interest Inventory and Myers-Briggs Type Indicator® (fee applies), and other career exploration programs. These assessments and resources help students find college programs, career fields and occupations that align with interests and aptitude. These systems can also be used to search for specific information concerning training, skill needs, rate of pay, job prospects, etc.

COUNSELING
Pre-admission counseling is available to prospective students to provide information about college programs and courses in their area of interest.
Personal counseling and educational problem-solving helps students to manage various problems that may interfere with college success. Examples include stress, relationship problems, interpersonal conflicts, anxiety, depression, or grief. Counselors can also help students build strong study skills, manage test anxiety, set realistic goals, explore transfer information, and troubleshoot problems. Counselors help connect students with resources and services to support a positive educational experience.

EDUCATIONAL SERVICES
Pre-admissions Counseling: Pre-admissions counseling can provide information about programs, courses, and services to match student interest.
Educational Counseling: Educational counseling can help with study skills, academic deficiencies, test anxiety, setting realistic goals, transfer information, program planning, and class scheduling questions.
Test Interpretation: Test interpretation is provided for the ACCUPLACER placement test and career inventories (COPS, Strong Interest Inventory, CAI, etc.).
Transfer advising: Subject area faculty advisors are the primary source for assisting students in transferring to a four-year college. However, faculty counselors can assist with additional information. Transfer information for two- and four-year colleges in Washington are available in the Advising/ Counseling Center.

Scholarship information: The Advising/Counseling Center maintains a file of scholarships offered at Washington four-year colleges and universities, private organizations and businesses, and a variety of government agencies. Eligibility criteria for each scholarship may vary. A staff person can assist in research.

High School Completion: Adult High School Completion may provide options for those who have not yet graduated from high school. Counselors can explain the options and procedures, and assist in setting a goal that best meets the student’s needs.

M2IND INITIATIVE
The M2IND Initiative is a student-led peer mentoring program open to all students at the college. M2IND stands for Mentoring Motivation for Inspiring Networking & Development, and the program connects apprentice students with trained peer mentors to promote college success and career readiness through regular interaction. The M2IND Initiative is located in the Student Success Center in the Kirk Library.

HONORS AND RECOGNITION

PHI THETA KAPPA
Phi Theta Kappa, the honor society of the two-year college, accepts students with a 3.4 or higher GPA. Contact a Centralia College advisor for information.

OUTSTANDING STUDENT AWARD
Any member of the college community may nominate a student for the Outstanding Student Award. Students may also nominate themselves. The Outstanding Student Awards are presented at commencement. The Office of the Vice President of Student Services has nomination forms and information about eligibility and criteria for the award.

ALL-WASHINGTON ACADEMIC TEAM
The Centralia College president names one or two students annually to the All-Washington Academic Team. These students are also nominated for the All-USA Today Academic Team, a national student recognition program. To be eligible for nomination, students must demonstrate academic achievement, community activities, and service to the college while attending Centralia College. Nominations are made during fall quarter.
INTERNATIONAL STUDENT PROGRAMS
222 S. Rock St.
360-623-8965

The International Student Programs Office helps international students with academic, immigration, career, and personal concerns. Staff also assist by locating host families, placing students in campus apartments, and distributing an apartment locator guide.

An active international student club/network organizes social events, educational activities, and service projects. All international students are automatically members of the International Student Club/Network.

International students must follow immigration regulations. With an F-1 student visa, students must enroll in and maintain a minimum of 12 credits per term (18 IEP credits), make satisfactory progress toward a degree, and maintain a cumulative grade point average (GPA) of 2.0 (C) or better. Instructors, advisors, and the staff of International Student Programs can provide assistance.

TESTING
Kirk Library, Room 121
8 a.m.-8 p.m. Monday-Thursday
8 a.m.-5 p.m. Friday
Closes at 5 p.m. on non-class days
360-623-8920

Testing offers proctored testing for college placement, BEdA, ELA, eLearning, and other Centralia College academic classes on a drop-in basis. All Pearson Vue tests must be scheduled in advance. Current photo ID is required.

TESTS OFFERED
- Next-Generation ACCUPLACER (college placement)
- GED
- Emergency Medical Technician (EMT) certification
- American Medical Technologist (AMT) exam
- Test of Essential Academic Skills (TEAS) for nursing admission
- Washington Educator Skills Tests (WEST)
- Proctored testing for other educational institutions

TESTING ACCOMMODATIONS
Students with documented disabilities can request accommodations and apply for services through Centralia College Disability Services at 360-623-8968. For accommodation requests for GED testing, contact Pearson Vue at www.ged.com.
INSTRUCTIONAL SUPPORT
WRITING CENTER
TransAlta Commons Building, Room 301
Current hours available at 360-623-8841

The Centralia College Writing Center offers a space where students working on academic writing can have access to reference materials, computer workstations, and free assistance from trained consultants. Consultants offer students general feedback on their writing while encouraging them to apply what they learn to improving their own writing process. In addition, students can use the Student Portal https://portal.centralia.edu/ to submit their drafts for an online review by a writing consultant.

PROS (PRESENTATION RELIEF SQUAD)
TransAlta Commons Building, Room 337
10 a.m.-1 p.m. Monday-Friday (closed in the summer) 360-623-8494

This drop-in center provides help to any student with an upcoming presentation, speech or even job interview. If it has to do with communication, these are your “Pros.”

TUTORING CENTER
Walton Science Center, Room 309
360-623-8952

The Tutoring Center is a venue for students to study collaboratively and receive help and guidance from faculty members and peer tutors. The drop-in center provides free tutoring, computer workstations, and a group work area for science, technology, engineering, and math students.

PEER TUTORING
Walton Science Center, Room 309
360-623-8652

Peer tutoring is an instructional support technique used successfully with students at all levels. Peer tutors help students master a subject area. Tutoring can strengthen and improve students’ academic abilities and achievement. Upon request, tutoring is available for most classes taught at Centralia College.

Peer tutoring is free to registered Centralia College students. To apply to be a peer tutor, students need to meet a minimum of 3.2 GPA and complete an application form.

LIBRARY
360-623-8956

The Kirk Library provides a broad array of print and digital information resources. Additionally, the library provides access to computers with the full Microsoft Office suite. The Kirk Library website is the gateway to information resources and academic research tools. Access to the library catalog of books and multimedia materials, high-quality databases, and research aids are available 24/7.

Currently enrolled students may borrow materials by showing student photo identification. Librarians and staff are available to assist library users in locating information and conducting research. Librarians are available in person or online 24/7 through the library’s live chat reference service.

ELEARNING
Kirk Library, Room 137
360-623-8955

eLearning can help students with online educational tools, including Canvas, Panopto, Connect, MyMathLab, and other online websites, publishers and tools. eLearning can also help with devices and software being used for classes, such as laptops, mobile phones, internet browsers, Microsoft Office and other software, and the Canvas iOS and Android Apps.

Some of the things eLearning can help you do are signing in and resetting Canvas passwords, learning how to use these tools or how to do something with them, and troubleshooting with you when things go wrong. Walk-ins always welcome.

PARKING
All vehicles parking in Centralia College parking lots must have a valid Centralia College decal. Students need to first, submit an online request form https://parkingpass.centralia.edu and then pick up their decal in the TransAlta Commons Building, Room 137. Decals for staff are available in the facilities office. The decal for the first vehicle is available at no charge. Provisions can be made for physically disabled employees, visitors, and students.

A Guest Permit is required for visitors requiring parking for longer than 30 minutes. Guest Permits are available at the Student Life and Involvement Center (first floor, TransAlta Commons Building) and are valid in any undesignated on-campus parking spaces.
Racks are provided for bicycles. Bicycles are not permitted inside buildings and may not be secured to college facilities (other than designated bike racks). Violation of parking and traffic rules may result in fines or other penalties. Centralia College may withhold students’ official transcripts until fines are paid.

**SPORTS PROGRAMS**

Intercollegiate Athletics
Michael Smith Gymnasium, Room 117
360-623-8926

Centralia College is a member of the Northwest Athletic Conference (NWAC). The teams are known as the Trailblazers. The comprehensive intercollegiate athletic program provides competition for both men and women students and is gaining an enviable record in all league competition.

The athletic program offers opportunities to participate in the following varsity team sports:

- Baseball – Men
- Basketball – Men and Women
- Golf – Women
- Soccer – Women
- Softball (fast pitch) – Women
- Volleyball – Women

**STUDENT JOB CENTER**

TransAlta Commons Building, Room 228
8 a.m.-4:30 p.m. (summer hours may vary)
360-623-8974

The Student Job Center can help Centralia College students find part-time student employment on- and off-campus to supplement their educational costs. Visit the Job Center to review potential jobs and receive a job referral for an official interview.

**Student Employment Programs:**

- Federal Work-Study On-campus (must be eligible for financial aid)
- On-campus Employment (no financial aid eligibility required)
- Federal Work Study Community Service (on and off-campus, must be eligible for financial aid)
- State Work Study On-campus (must be eligible for financial aid)
- State Work Study Off-campus (must be eligible for financial aid)
- Federal Work Study Reading/Math Tutor (must be eligible for financial aid)
- Cooperative Work Experience (students earn credits for on-the-job learning related to their area of study)

**DISABILITY SERVICES**

TransAlta Commons Building, Second Floor
360-623-8966

Centralia College complies with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and all other applicable state and federal regulations that prohibit discrimination on the basis of disability.

Students with disabilities, who wish to receive assistance, should contact the Disability Services Office as soon as possible, preferably at least six weeks before the start of the quarter. Disability Services staff members will determine accommodations on an individual case-by-case basis. Current (usually not older than three years) documentation of the disability by a qualified professional is highly recommended to facilitate optimal services.

**STUDENT LIFE AND INVOLVEMENT CENTER (SLIC)**

TransAlta Commons Building, First Floor
360-623-8972

**HOW TO GET INVOLVED**

The Student Life and Involvement Center (SLIC) is the headquarters for student leadership and campus involvement. SLIC oversees student government; budgets for all student-funded programs, clubs, and organizations; and provides campus activities and support services to all student-funded programs. SLIC holds leadership training throughout the year for all student leaders and any student that is interested. SLIC also provides student identification cards, maintains a campus lost and found, and posts on campus bulletin boards.

**STUDENT GOVERNMENT ASSOCIATION (SGA)**

Centralia College recognizes the ASCC Student Government as part of the college’s governance structure. The ASCC Student Government serves as the recognized representative of Centralia College students. The ASCC Student Government holds weekly meetings that are open to all students. Members of the Student Government are elected each spring and receive compensation for their time. The Student Government appoints students to be part of the governance process by serving on college committees.

**STUDENT ACTIVITIES TEAM (SAT)**

The Student Activities Team is a student team selected and hired in conjunction with the ASCC Student Government and college staff. SAT plans cultural, social, educational, and recreational events for students on campus. They develop a well-rounded balanced calendar of activities and events that
include speakers, musicians, comedians, films, outings, and recreational tournaments. These are paid positions.

CLUBS AND ORGANIZATIONS
Student clubs and organizations offer opportunities for students to meet friends, satisfy special interests, and contribute to campus life. Students can organize and join associations to promote their special interests.

Currently recognized student groups include but are not limited to:
- Gender Sexuality Alliance
- Outdoor Club
- Psychology Club
- International Network
- Multicultural Club
- Phi Theta Kappa
- Latinos Unidos
- Centralia College East Organization of Students
- TRiO Club
- Science Club
- Art Club
- Speech Club
- Rotaract
- Diesel Tech Club
- Applied Physics and Engineering
- and many more.

Students are encouraged to start clubs through the recognition process. For a complete list of currently recognized clubs and organizations, visit https://www.centralia.edu/resources/student-life/default.aspx.
STUDENT RIGHTS AND RESPONSIBILITIES

The college has established policies providing for the rights and responsibilities of students. Copies of this code (WAC 132L-350) are available from the SLIC or the Vice President of Student Services Office.

1. This is a summary of the Student Rights and Responsibilities Code. It is not a complete summary and does not replace the actual code. Refer to the code itself for a complete understanding of its content.
2. Centralia College has this code to help fulfill its mission. See WAC 132L-350-010.
3. If you violate this code, Centralia College can discipline you. See WAC 132L-350-0.
4. Some words in the code have technical or special meanings. These are defined. See WAC 132L-350-020.
5. You are accountable for your behavior both on and off campus. See WAC 132L-350-030.
6. You have constitutional rights. See WAC 132L-350-040.
7. You have these freedoms: access, association, press, speech, assembly, due process, and other rights. You are also protected from unlawful discrimination, sexual harassment, and unreasonable search. See WAC 132L-350-070.
8. You should take an active role in your learning, obey the law, and follow college rules. See WAC 132L-350-080.
12. Do not steal or cause damage to other people’s property. See WAC 132L-350-080.
13. Do not go where you are not supposed to. See WAC 132L-350-080.
14. Do not abuse computers, telephones or other electronic equipment; do not use them to break the law or to bother people. See WAC 132L-350-080.
15. The use of tobacco, alcohol, and drugs is strictly controlled. See WAC 132L-350-080.
17. If you disrupt the classroom, the faculty member may remove you for that day. The same thing could happen if you disrupt an office. You can also be disciplined further. See WAC 132L-350-090.
18. If you violate the code, you can receive anything from a warning to dismissal. You can also be fined or have other restrictions placed on you. See WAC 132L-350-100.
19. If you are a threat to people, you will be suspended immediately. You will get a hearing later. See WAC 132L-350-200.
20. If you are accused of violating this code, you will be summoned to an initial hearing. See WAC 132L-350-110.
21. You can appeal decisions to the judicial board, then to the president. See WAC 132L-350-120.
22. There are rules about how the judicial board conducts its process and handles records. See WAC 132L-350-170.
23. There are rules about how the judicial board considers evidence. The college has to prove its case by a preponderance of evidence. See WAC 132L-350-160.
24. There are rules about what the judicial board can do, and how it communicates its results. See WAC 132L-350-170.
25. There are rules about how and when to appeal. See WAC 132L-350-190.
26. There are rules about how this code is changed. WAC 132L-350-240.
27. There is supplemental discipline process for sexual misconduct cases that have a few differences. WAC 132L-350-250.
28. The Conduct officer will communicate to both parties during a sexual misconduct case and investigation. WAC 132L-350-260.
29. The complainant in a sexual misconduct case can appeal. WAC 132L-350-270.
**TRiO PROGRAMS**

TransAlta Commons Building, Second Floor

Three federally funded TRiO programs – TRiO TS, Upward Bound, and Student Support Services – provide support services to help underrepresented college-bound students who meet federal eligibility requirements. The programs assist students as they prepare for college, attend college, and transfer to a four-year college or university.

**TRiO TS**

360-623-8969

This program helps young people in grades 7-12 as they explore their career and educational options beyond high school.

**UPWARD BOUND**

360-623-8968

This program provides academic assistance for those in grades 9-12 as they prepare for success in college.

**STUDENT SUPPORT SERVICES**

360-623-8970

This program provides a variety of levels of support to help students stay in college, graduate, and/or transfer to a four-year college.

TRiO programs offer these services
- Academic and career planning assistance
- Assistance in completing college admission, scholarship, and financial aid applications
- Assistance in preparing for college entrance examinations
- Transfer information, planning, and college visits
- Mentoring and tutoring
- Cultural enrichment activities
- Workshops/conferences and campus tours
- Information to improve financial literacy

**TECHNOLOGY RESOURCES**

The college provides a wide range of computing resources and internet services to students, faculty, and staff. There are general-purpose computer labs with Windows-based PCs equipped with a variety of software applications. There are specialty labs supporting various programs including computer graphics, music, electronics, robotics, computer science, and civil engineering.

**EMAIL**

Registered students will be issued a Centralia College email account. The college will send all official communication to this student email account. Students are responsible for activating and checking this account regularly.

Students may choose to forward messages to a different email account; however, they are still responsible for all information sent to their student account.
Centralia College offers a variety of course formats for students unable to attend regularly scheduled classes on campus.

**ONLINE COURSES**
Online courses meet 100% of the time online and do not require coming to campus for class. Students can log in any time, day or night, and have the flexibility of working in an online classroom when it’s convenient. There are still assignments, normal class start and end dates, finals week, and due dates. Students in online courses should plan on logging in regularly to interact with the instructor and other students.

**HYBRID COURSES**
Hybrid courses replace in-class time with online time. For example, a five-credit class may meet on campus two hours a week and conduct the rest of the week’s learning activities online.

**WEB-ENHANCED COURSES**
Web-enhanced courses meet 100 percent of the class time on campus, but include resources or other activities online. For example, students may take a five-credit class that meets five hours a week on campus, but they can access multimedia materials, practice quizzes, or get extra help online. Many of the classes at Centralia College are web-enhanced.

**FLEX COURSES**
In flex courses, students can decide whether to attend face to face or online, and can switch between those modes during the quarter.

Admission/Enrollment/Registration for these types of courses follows the same process as any other course. For more information about class registration and becoming a priority student, please see the Registration section. For questions about specific courses being offered, please contact the instructor of the course or the Instruction Office at 360-623-8929.

**NOTE:** Persons with a disability who would like accommodations with any of the programs and services of the college can contact the Disability Services Office at 360-623-8966. Students are encouraged to do this as early as possible.

A variety of non-credit classes and workshops are offered throughout the year. These classes are self-supporting and are offered at various times and places. The classes are designed for personal enrichment and/or job advancement. The Office of Continuing Education also develops and coordinates training for business and industry in the local community. Consult the quarterly schedule of classes or contact the Office of Continuing Education for current offerings or training needs. For information on Continuing Education classes, call 360-623-8940.

**APPRENTICESHIP PROGRAMS**
Apprenticeship courses are offered in cooperation with local joint training commissions or with approval of L&I. Apprentices must be in an approved training program.

**CERTIFICATE PROGRAMS**
Centralia College offers several vocational certificate programs. Contact Centralia College Workforce Education Office for details.

These classes enrich life and cultivate the love of lifelong learning. Classes are small, ungraded, affordable, and geared to the interests and lifestyles of older adults.

Commitments to a job or other obligations can prevent students from completing a college degree or certificate program, or from attending classes for professional development or personal enrichment. Centralia College evening, weekend and online classes can help. These classes allows many students to stay with their jobs while taking classes during their free time.

Admission/Enrollment/Registration for these types of courses follows the same process as any other course. For more information about class registration and becoming a priority student, please see the Registration section. For questions about specific courses being offered, please contact the instructor of the course or the Instruction Office at 360-623-8929.
ACADEMIC AND CREDIT INFORMATION

FULL-TIME DESIGNATION
How many hours does a student need, to be considered full-time?

<table>
<thead>
<tr>
<th>Designation</th>
<th>Credits per Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>12 or more credits</td>
</tr>
<tr>
<td>¾-time</td>
<td>9-11 credits</td>
</tr>
<tr>
<td>½-time</td>
<td>6-8 credits</td>
</tr>
<tr>
<td>Less than ½-time</td>
<td>1-5 credits</td>
</tr>
</tbody>
</table>

CREDITS BY CLASS TYPE

- Lecture – 1 contact hour per week per credit; 2 hour per week outside work per credit
- Lab – 2 contact hours per week per credit; 1 hour per week outside work per credit
- Clinical/Practicum/Externship – 3 contact hours per credit per week; no outside work

CLASS BREAKS

The normal class schedule is 50 minutes, with 10 minutes between classes. Labs and block classes operate on extended class periods of two or more hours. In those cases, it is appropriate for faculty to provide students with break periods. However, the cumulative time for breaks should not exceed the total of 10 minutes per hour. Students should be back in class and fully productive at the end of the break period. Breaks should be scheduled regularly throughout the class period and class periods may not be shortened by elimination of the break periods.

CLASS DISMISSALS

Holding classes in accordance with adopted schedules has high priority in the educational program. However, the class periods can, on occasion, be superseded by other educational opportunities.

CLASS AND OFFICE DISRUPTIONS AND STUDENT DISCIPLINE

Centralia College exists to provide educational programs for its students and activities that disrupt the educational process will not be tolerated. All members of the faculty and staff have a responsibility to ensure the orderly conduct of the educational process.
COOPERATIVE EDUCATION

Student Job Center
TransAlta Commons Building, 2nd Floor
360-623-8974

Cooperative Education, a partnership involving Centralia College, students, and employers from the community, extends classroom learning into the workplace. Students can be placed in a job relating to their field of study or career plan and earn college credit for the learning that takes place on the job site.

Cooperative Education personnel will interview students and assist them in locating an appropriate co-op experience. Students who are already employed may be interviewed to determine eligibility for Cooperative Education.

After securing an appropriate placement, students will meet with a faculty co-op coordinator, who will enroll them in a Cooperative Work Experience course. In addition, enrollment in a Work Experience Seminar is required either prior to or concurrent with all cooperative work experiences.
STUDENT TRANSFER

Centralia College has transfer agreements with most of the four-year colleges and universities in Washington.

Only the Associate in Arts (AA), Associate in Liberal Arts (ALA), and Associate in Science (AS) degrees are designed specifically to transfer. These degrees are covered by Statewide Transfer Agreements.

Depending on the college to which a student transfers and their major, they may need to select specific courses within a degree to ensure full transferability. These transfer degrees assure the transfer of credit, but not automatic or guaranteed admission, since each institution has separate admission criteria based on grades, test scores, and other considerations.

The Associate in Applied Science—Transfer (AAS-T) degree is designed for transfer to specific four-year colleges and universities for students pursuing specific professional/technical programs. The AAS-T degree is not designed for general transfer.

The Associate in Technical Arts (ATA) and Associate in General Studies (AGS) are NOT generally designed for transfer. There are a few very specific exceptions to this. The ATA degree can sometimes be used to transfer, but only to a few colleges under very special circumstances. These circumstances are called Alternatives for Transfer of Occupational Programs (ATOPS) degrees. The most common are “Upside Down Degree Programs” or “Articulation Agreement Programs.” Unless a student has absolutely confirmed that one of these special and very limited exceptions applies to their plans, they are advised not to use the ATA degree for transfer purposes. The AGS degree may contain some courses that transfer, but the AGS degree does not transfer anywhere as a package.

STUDENT RIGHTS IN THE TRANSFER PROCESS

The Washington State Board for Community and Technical Colleges has published a Policy on InterCollege Transfer and Articulation Among Washington Public Colleges and Universities. This policy spells out student rights in the transfer process.

This policy states, in part, “Students have the right to expect fair and equitable treatment from the public colleges and universities in Washington, both sending and receiving institutions. They have, in turn, the responsibility of seeking out current information pertaining to their educational objectives and for acquiring appropriate information when they change their academic plans. When a student changes a major or degree program, the student shall assume full responsibility for meeting the new requirements. Colleges shall make every effort to help students make transitions as smoothly as is feasible.”
TRANSFER DEGREES

ASSOCIATE IN ARTS (AA)
ASSOCIATE IN LIBERAL ARTS (ALA)

Centralia College’s Associate in Arts (AA) degree and other degrees based on the Direct Transfer Agreement (DTA) conform to rules established by the Inter College Relations Committee (ICRC) and are maintained by the Joint Transfer Council (JTC). This means that if a student successfully completes one of these degrees, they will have met most, if not all, of the general university requirements at many baccalaureate colleges in Washington.

This is the first step in preparing for entry with junior standing. The second step is including courses required by the student’s major. As of the printing of this catalog, the following baccalaureate colleges and universities will accept either of these degrees from Centralia College in accordance with the Direct Transfer Agreement under the ICRC guidelines.

Colleges or universities marked with an * have some special requirements which must be satisfied at Centralia College and/or at the baccalaureate institution in order to complete all the general undergraduate requirements. These additional requirements are called provisos.

- Bastyr University*
- Central Washington University
- City University
- Cornish College of the Arts*
- Eastern Washington University*
- Gonzaga University*
- Heritage University*
- Northwest University*
- Pacific Lutheran University*
- Saint Martin’s University*
- Seattle Pacific University*
- Seattle University*
- The Evergreen State College
- Trinity Lutheran College
- University of Washington*
- University of Washington-Tacoma
- Washington State University
- Western Washington University
- Whitworth College*

Students are encouraged to meet frequently with their advisor, review the catalog and transfer guide of the institution to which they are planning to transfer, and consult with representatives of the baccalaureate institution. They should do this planning very early. This is especially important if the student plans to transfer to an institution that has provisos as indicated by the “*”.

Meeting general undergraduate requirements is important but not sufficient. It is also important that students meet the specific requirements required by their college major. Most college majors require students to take certain courses to prepare for entry as a junior in their major.

These requirements vary from major to major and from college to college. Usually these requirements can fit within the Associate in Arts or other degrees based on the Direct Transfer Agreement Degrees. If a student does not fold these courses into their degree at Centralia College, they may have to extend their college program by taking additional courses either at Centralia College or at the baccalaureate institution. Early selection of a college major is very important in planning a transfer program. Also, early planning with an advisor is imperative. Early decision making and early planning can save additional coursework.
ASSOCIATE IN SCIENCE (AS)
Centralia College’s Associate in Science (AS) degrees conform to rules established by the Inter College Relations Committee (ICRC) and are maintained by the Joint Transfer Council (JTC). This specialized degree program is designed for students pursuing science, technical, engineering, and pre-professional degrees. The Associate in Science degree places more emphasis on completion of mathematics and pre-major science, computer science, or engineering classes before transfer to enable students to begin upper-division coursework immediately.

The Associate in Science degree is divided into two tracks, depending upon academic major interest:

**Associate in Science Degree Track 1**
Biological Sciences, Environmental/Resource Sciences, Chemistry, Geology, Earth Science, Chemistry, Biology and General Science Education.

**Associate in Science Degree Track 2**
Engineering, Computer Science, Physics, Atmospheric Sciences and Physics Education.

Students who successfully complete either degree will have met most, if not all, of the lower-division science and mathematics major requirements at many baccalaureate colleges in Washington. This is the first step in preparing for entry with junior standing. The second step is including courses required by the student’s major.

As of the printing of this catalog, the following four-year colleges and universities will accept either of the degree tracks from Centralia College in accordance with statewide agreements under the ICRC guidelines.

- Central Washington University
- Eastern Washington University
- Gonzaga University
- Pacific Lutheran University
- Seattle Pacific University
- Seattle University
- The Evergreen State College
- University of Washington
- Washington State University
- Western Washington University
- Whitworth College

Meeting all general undergraduate requirements is not as important for the AS program. Students will finish the requirements at the four-year college. It is more important that students meet the specific requirements required by their intended college major. Most science and technical majors require students to take many courses to prepare for entry as a junior in their major. These requirements vary from major to major and from college to college. Usually these requirements can fit within the Associate in Science degree. Students who do not fold these courses into their degree at Centralia College may have to extend their college program by taking additional courses either at Centralia College or at the baccalaureate institution. Early selection of a college major is paramount in planning an AS transfer program. Also early planning with an advisor is imperative. Early decision making and early planning can save additional coursework.

ASSOCIATE IN APPLIED SCIENCE-TRANSFER (AAS-T)
Centralia College’s Associate in Applied Science-Transfer (AAS-T) degree is designed to meet the requirements of specific four-year colleges and universities. This specialized degree program is for students pursuing professional-technical degrees. In general, technical degree programs are not designed for transfer. However, several four-year colleges and universities have specific degree programs that accept the AAS-T degree. Institutions and majors outside the specifically designed degrees will accept very few of the credits in the AAS-T degree.

Students should meet frequently with their advisor, review the catalog and transfer guide of the institution to which they are planning to transfer, and consult with representatives of the baccalaureate institution. This planning should be done very early.
DEGREES AND CERTIFICATES

Centralia College offers different degrees to meet varied student needs. All associate degrees require a minimum of 90 credits. Students must complete the last 15 credits or 35 of the final 45 credits at Centralia College to be eligible for a degree from Centralia College. It is possible to earn a second degree if a student satisfies all the requirements of both degrees.

BACHELOR OF APPLIED SCIENCE DEGREES
A traditional bachelor degree requires general education classes from many disciplines and is designed to provide students a wide base of knowledge, allowing them to concentrate their education in the third or fourth year of their education. A BAS degree gives students the chance to focus their education on their specific educational and career goals early within their education and incorporates more practical and concentrated hands-on learning in a specific industry or the career of their choice.

ASSOCIATE IN APPLIED SCIENCE – TRANSFER
Workforce Education degrees are designed to provide detailed skills related to a profession and are not primarily intended for transfer.

Some institutions accept these degrees under an “upsidedown” model that allows the student to complete content-specific work in the first two years and round out his or her education by completing general university requirements (GURs) in the second two years of the baccalaureate. Centralia College Workforce Education degrees include:

- Associate in Applied Science
- Associate in Technical Arts

GENERAL TRANSFER DEGREES
General transfer degrees are accepted by all state colleges and universities in Washington through formal agreements, including the Direct Transfer Agreement (DTA), between the universities and the community college system. Students who complete a General Transfer degree will, upon acceptance to a Washington public or signatory private college or university, generally be granted 90 transfer credit. Students may still need to complete more than 90 quarterly credits to graduate in their major. Centralia College General Transfer degrees include:

- Associate in Arts and derivative degrees
- Associate in Science and derivative degrees

GENERAL STUDIES DEGREE
The General Studies degree allows the student more latitude in designing a degree based upon personal interests, but does not necessarily meet the requirements for direct transfer. As with all degrees not designated as General Transfer, there is no guarantee all 90 credits required for the degree will transfer or that general university requirements will be satisfied.

CERTIFICATES OF PROFICIENCY
Certificates of Proficiency are Workforce Education programs that require at least 45 credits and which provide job specific skills.

CERTIFICATES OF COMPLETION
Certificates of Completion are similar to Certificates of Proficiency except requiring less than 45 credits.

HIGH SCHOOL DIPLOMA AND GED
High School Diplomas and GEDs can be obtained by meeting all requirements for the Centralia College High School Diploma or by passing the GED tests, respectively.
EDUCATIONAL OUTCOMES

Student learning is central to the college's mission. All degrees offered by Centralia College are designed to provide experiences that lead to the attainment of general education outcomes as embodied in the following Learning Themes:

REASONING
The ability to extract information from data, develop ideas and solutions, establish logical progression in thinking, and problem solve using such procedures as literary analysis or the scientific method.

WRITTEN, ORAL AND VISUAL COMMUNICATION
The ability to make oneself understood in public, interpersonal, professional, artistic, and technical areas.

EXPLORATION – SELF AND OTHERS
An awareness of the values, beliefs, customs, and contributions from one's own and other traditions, ethnicities, classes and genders.

RESOURCEFULNESS
The ability to adapt to change, such as technological innovations or environmental conditions.

RESPONSIBILITY
The ability to be accountable to self, society, and the natural world.

To support the attainment of these general educational outcomes, instruction in major areas of inquiry is required for all degrees. The transfer degrees include courses in the Distribution Areas of communication, quantitative skills, humanities, social sciences, natural sciences, diversity, and health and fitness. Workforce Education degrees and certificates of proficiency achieve this end through the inclusion of related instruction in communication, computation, human relations, and health and fitness.

PROGRAM OUTCOMES

Distribution Area Outcomes, found at the end of this section, define the program outcomes for degrees based on the Direct Transfer Agreement (DTA) and Associate in Science. In addition to the general outcomes, individual transfer programs have content designed to prepare students for success in that field.

Each Workforce Education degree or certificate includes courses that enable students to achieve profession-specific learning outcomes. These program outcomes are listed on the program pages on the college website.
GENERAL TRANSFER DEGREES

ASSOCIATE IN ARTS DEGREE

In addition to the general requirements listed below, derivative programs may have additional requirements as listed in the programs of study in the next section. The Associate in Arts degree represents the broad knowledge generally acquired in the first two years of a four-year program leading to a Bachelor of Arts degree. When students earn the AA, they may transfer to a baccalaureate institution within the state of Washington with assurance that they have satisfied all or most of the basic requirements (General University Requirements/ Distribution Requirements). This means, generally, that AA transfer students can begin work on their specialized, major-area course work as soon as they transfer.

DEGREE REQUIREMENTS:
To qualify for an Associate in Arts degree, students must complete a minimum of 90 credits in courses numbered 100 or above, with a cumulative grade point average (GPA) of at least 2.0 (“C” average).

The 90 credits must include the following:

Core Skills .................................................. 15 credits
a. Communication Skills ........................................... 10 credits
   ENGL& 101, ENGL& 102, ENGL& 235
b. Quantitative Skills ........................................... 5 credits

Humanities .................................................. 15 credits
Select from at least three of the disciplines listed on the distribution list. No more than 5 credits in foreign language at the 100 level may apply.

Social Sciences ............................................. 15 credits
Select from at least three disciplines listed on the distribution list.

Natural Sciences .......................................... 15 credits
Select from at least two disciplines on the distribution list. Include at least one laboratory course.

Health and Fitness ....................................... 3 credits
Selected from either discipline listed on the distribution list.

Diversity .................................................. 3 credits
A 3 to 5 credit course listed as a Diversity (D) course. Diversity courses may also meet other Distribution Requirements.

Academic Electives ...................................... 27 credits
A minimum of 27 elective credits are required. Elective courses may be selected to satisfy major emphasis requirements (see program summaries section), or to satisfy department requirements of the college/university chosen for transfer. If desired, students may include up to a maximum of 12 credits from courses numbered 100 and above that are not included on the ICRC approved electives list. A maximum of three (3) PE credits may be included in the AA degree.
ASSOCIATE IN SCIENCE DEGREE

The Associate in Science degree represents attainments generally required by four-year colleges and universities for preprofessional programs in scientific disciplines. The need for early concentration on coursework in the chosen scientific major diminishes the general educational experience demonstrated by the Associate in Arts degree.

By working with an advisor in the completion of one of the two Associate in Science tracks, students can transfer to one of the Washington baccalaureate institutions with reasonable assurance they have completed all or most of the prerequisite courses for the targeted science major.

DEGREE REQUIREMENTS:

1. A minimum of 90 credits is required for the degree.
2. A minimum grade point average (GPA) of 2.0 (“C” average) is required for the degree.
3. Students completing this Associate in Science degree will receive the same priority consideration for admission to most Washington state baccalaureate institutions as they would for completing the direct transfer Associate in Arts degree and will be given junior status by the receiving institution.
4. Additional general education requirements, cultural diversity requirements, and foreign language requirements, as required by the transfer institution, must be met prior to the completion of a baccalaureate degree.
5. Students are responsible for checking specific major requirements of baccalaureate institutions in the year prior to transferring.

Courses for programs of study fall into two tracks that are listed in the program section of this catalog. These programs are designed to match specific major requirements and also to meet the general distribution requirements listed below:

Core Skills ................................................................. 15 credits
a. Communication Skills .......................................... 5 credits
   ENGL& 101
b. Quantitative Skills.................................................. 10 credits
   MATH& 151, MATH& 152

Humanities & Social Sciences .................. 15 credits
Select from at least three disciplines listed on the distribution list with at least 5 credits from humanities (H) and 5 credits from social sciences (SS). The remaining 5 credits can be from either category.

Health and Fitness .................................................. 3 credits
Select three (3) credits from the list of courses approved for health and fitness (HF) distribution.

Diversity .............................................................. 3-5 credits
A 3 to 5 credit course listed as a Diversity (D) course. Diversity courses may carry another distribution designation that can be counted toward both distribution requirements.

Track I – Biological Sciences, Environmental/Resource Sciences, Chemistry, Geology, Earth Science

Core Requirements: .................................................. 46-54 credits
a. CHEM& 161, 162, 163
b. MATH& 146 or MATH& 163
c. BIOL& 221, 222, 223 or PHYS& 221, 222, 223
d. Additional requirements: 10 – 18 science credits from courses normally taken by science majors, preferably in a 2 or 3 quarter sequence (biology majors should select physics or organic chemistry).

Remaining Credits: .................................................. 3–11 credits

Track II – Atmospheric Science, Computer Science, Engineering, Physics

Core Requirements: .................................................. 30 credits
a. PHYS& 221, 222, 223
b. CHEM& 161
c. Computer programming (4 credits minimum)
d. MATH& 163 or MATH& 146

Remaining Credits: .................................................. 27 credits

Electives up to a maximum of 5 credits from courses numbered 100 or above that are not included on the ICRC approved electives list should be planned with the help of an advisor, based on the requirements of the specific discipline at the baccalaureate institution and using the programs listed later in this catalog.
ASSOCIATE IN LIBERAL ARTS DEGREE

The Associate in Liberal Arts degree provides a broad background of knowledge rather than a course of study narrowly focused on preparation for a specific field of employment or profession. This degree develops reasoning, judgment, and expression abilities. Students who earn the ALA degree may transfer to a baccalaureate institution within the state of Washington with assurance that they have satisfied all or most of the basic requirements (General University Requirements). This means, generally, that the ALA transfer student can begin work on their specialized, major course work as soon as they transfer.

DEGREE REQUIREMENTS:
To qualify for this degree, students must complete a minimum of 90 credits in courses numbered 100 or above, with a cumulative grade point average (GPA) of at least 3.0 (“B” average).

The 90 credits must include the following:

Core Skills .................................................... 15 credits
a. Communication Skills .............................. 10 credits
   ENGL& 101, ENGL& 102, ENGL& 235
b. Quantitative Skills ................................. 5 credits
   Any (M) designated math course numbered 107 or higher.

Foreign Languages .................................. 15 credits
Fifteen (15) credits in one foreign language, five (5) of which count toward Humanities Distribution.

Health and Fitness ....................................... 3 credits
Three (3) credits from the list of courses approved for Health and Fitness distribution.

Humanities .................................................. 20 credits
A minimum of twenty (20) credits in humanities, including one course from at least three of these subjects: Art, Drama, Literature, Music, Philosophy. No more than five (5) credits from performance/skill courses. Five (5) credits of Foreign Language count toward Humanities. Select courses from the distribution list.

Natural Science .......................................... 20 credits
At least twenty (20) credits in Math/Science, including at least ten (10) credits in laboratory science or one course each from at least two of the following subjects: Astronomy, Biology, Botany, Chemistry, Forensic Science, Geography, Geology, Mathematics, Oceanography, Philosophy, Physics.

Social Sciences ........................................... 20 credits
At least twenty (20) credits in social sciences, including one course from at least three of these subjects: Anthropology, Sociology, Psychology, History, Economics, Political Science.

Diversity .................................................... 3-5 credits
A 3 to 5 credit course listed as a Diversity (D) course. Diversity courses may carry another distribution designation that can be counted toward both distribution requirements.

MAJOR RELATED PROGRAMS

In addition to the transfer degrees listed above, the college offers degrees derived from both the Associate in Arts degree (AA) and the Associate in Science degree (AS). These degrees have been developed through collaboration between the State Board for Community and Technical Colleges (SBCTC) and the public colleges and universities in Washington.

These degrees may have specific requirements beyond those required by the AA or AS as listed in the program plan.
LIMITED TRANSFER DEGREES
ASSOCIATE IN APPLIED SCIENCE-TRANSFER

The Associate in Applied Science-Transfer degree is for transfer to schools offering baccalaureates in applied science. This degree combines the technical focus of the Associate in Technical Arts with a minimum of 20 credits of transferable academic courses.

This degree is not generally transferable. Students intending to transfer should work with an advisor to make sure this is the right degree.

Degree Requirements:

To qualify for the degree, students must complete a minimum of 90 credits in subjects numbered 100 or above. Students must also achieve a grade point average (GPA) of at least a 2.0 (“C” average).

Courses must be selected in accordance with a college program of study. Check with an advisor for a current list of programs. These programs are designed to incorporate specific and major requirements as well as meet general education and related instruction requirements.

WORKFORCE DEGREES
ASSOCIATE IN TECHNICAL ARTS DEGREE & ASSOCIATE IN APPLIED SCIENCE DEGREE

Students whose plan is to prepare to compete for employment in an occupational field may choose to earn an Associate in Technical Arts or an Associate in Applied Science degree. Since this degree concentrates on a particular trade or skill, it does not have broad general education requirements.

Whether a technical course will transfer or count as a degree requirement for a baccalaureate degree is at the discretion of the transfer college or university.

The program must include:

a. English Communications
   ENGL& 101 ................................................................. 5 credits

b. Quantitative Reasoning
   (see distribution list).............................................. 5 credits

c. Humanities & Social Science
   (see distribution list).............................................. 10 credits

d. Health & Fitness
   (see distribution list).............................................. 3 credits

OCCUPATIONAL MAJOR

Programs vary in total credits necessary to obtain a degree, although the minimum requirement is 90 credits. Core program credits are designed to meet occupational skills standards.
THE ASSOCIATE IN GENERAL STUDIES DEGREE

The Associate in General Studies degree is designed for students who do not plan to transfer to a four-year college or pursue an Associate in Technical Arts degree in a specific occupational area. It is a terminal degree with emphasis on improvement of basic skills, general knowledge in the areas of humanities, natural science and social science, and some specialty of choice. This degree is designed to prepare the student to lead a full and useful life.

To qualify for the Associate in General Studies degree, students must complete 90 credits in courses numbered 100 or above, with a cumulative grade point average of at least a 2.0 (“C” average).

The 90 credits must include the following:

**Forty-three (43) credits taken in communication skills, humanities, math/natural sciences, social sciences, and health and fitness consisting of the following:**

a. A minimum of ten (10) credits in communication skills ENGL& 101, ENGL& 102, or ENGL& 235.

b. A minimum of ten (10) credits in each of the three general areas of knowledge (humanities, math/natural sciences, and social sciences). See the AA distribution list.

c. Three (3) credits from the list of courses approved for Health and Fitness distribution.

An additional 47 credits of the student’s choosing to satisfy their own educational plans or interests. Choices can be occupational, personal enjoyment, physical education, or academic courses.
CERTIFICATES AND PROGRAMS

CERTIFICATES OF COMPLETION
Students may be awarded a certificate of completion by successfully completing a set group of courses from a professional/technical program. These certificates require significantly fewer credits than a certificate of proficiency. The courses tend to concentrate on one set of skills.

The U.S. Education Department’s Gainful Employment regulations require disclosure of certain program information to students and prospective students. For additional information and updates, please visit www.centralia.edu/academics/GE-disclosure.html.

CERTIFICATES OF PROFICIENCY
Students may earn a Certificate of Proficiency by completing a professional/technical program which requires a minimum of 45 credits, includes related instruction, and a grade point average (GPA) of at least 2.0 (“C”). Certificates of Proficiency are awarded in these programs:

- Accounting Clerk
- Child Care Specialist
- Criminal Investigation
- Medical Office Assistant
- Medical Scribe
- Office Assistant
- Phlebotomy
- Welding

Transitional Education Programs
Transitional Education Programs help you learn English, earn a high school diploma or GED, or prepare for college and job training. Classes are offered in the morning and evening and at various locations throughout Lewis County. The cost is $25 per quarter (waivers are available). Most programs are open to students age 16 years and older. Any student younger than 19 must provide a high school release form.

Questions? Contact us at (360) 623-8957 or BEdA@centralia.edu.

English Language Acquisition (ELA)
Non-native English students learn to listen, speak, read, and write English. Students learn basic computer skills and prepare for academic and Workforce classes. Students will thrive in the community and at work.

Civics
Reading for Civics is a citizenship preparation class. Students learn to complete the N-400 (Citizenship) application, and prepare for the naturalization interview with USCIS. Students gain confidence and learn interview skills. They also practice reading, writing, speaking, and listening in English.

Adult High School Diploma
High School 21+ is a competency-based high school diploma program for adult learners aged 21 and older who do not have a high school diploma or equivalent. Students must be at least 21 at the time of completion to earn a high school diploma. Please submit an official high school transcript to the Enrollment Services prior to advising. Official transcripts can be submitted directly to Enrollment Services (second floor, TransAlta Commons) or mailed to: Enrollment Services, 600 Centralia College Blvd., Centralia, WA 98531-4099.

GED
GED 2014 classes focus on GED topics to help students prepare for the Mathematical Reasoning, Reasoning Through Language Arts, Social Studies, and Science tests. Bilingual English/Spanish classes are available.

Career and College Preparation
Students with a high school diploma or GED can brush up on their reading, writing, and math for college level classes, to prepare for job training or for entering the job market. Students enrolled in college preparation classes can take other college classes at the same time.
In this catalog, courses that satisfy distribution requirements are identified by a capital letter at the end of the course title. Use the following guide to identify the distribution categories:

- C – Communication
- H – Humanities
- M – Mathematics/Quantitative Skills
- SS – Social Science
- NS – Natural Science
- HF – Health and Fitness
- D – Diversity

Distribution Requirements (also known as General University Requirements or GURs) are part of each transfer degree. Courses that fulfill Distribution Requirements meet specific criteria listed below:

**CORE REQUIREMENTS**

**Communication Skills (C)**

1. The course carries three or more credits.

2. The course objectives address three or more of the following outcomes. Upon successful completion of designated courses, students will have demonstrated the ability to:

   - Recognize structures and modes of development that are used to inform, persuade, or entertain (Themes: Communication & Responsibility).
   - Apply analytical thinking to reading, writing, revising, and discussion activities (Themes: Reasoning, Communication and Responsibility).
   - Prepare clearly organized and well-supported written works, including specific documentation formats, which meet the conventions of assignments (Themes: Communication & Reasoning).
   - Collaborate with others respectfully and with attention to guidelines given for various projects (Themes: Responsibility & Exploration of Self and Others).
   - Discuss and respond to writings drawn from diverse traditions, ethnicities, cultures, classes, and genders (Themes: Exploration of Self and Others).
   - Access and utilize appropriate technologies and library resources in the preparation of written and oral projects (Themes: Resourcefulness, Responsibility, and Communication).

**QUANTITATIVE SKILLS (M)**

1. The prerequisite for the course is Algebra II (MATH 099 or equivalent).

2. The course objectives address the following outcomes. Upon successful completion of designated courses, students will have demonstrated the ability to:

   - Recognize and then apply mathematical concepts to personal, professional and scientific situations. (Theme: Reasoning)
   - Communicate ideas through mathematics graphically, symbolically, numerically and verbally with clarity and accuracy. (Theme: Written, Oral, and Visual Communication)
   - Utilize technology as a tool in the application of mathematical concepts. (Theme: Resourcefulness)
OTHER REQUIREMENTS

HUMANITIES (H)

1. The course carries three or more credits.

2. The course objectives address three or more of the following outcomes:

*Students should be able to:*

- Articulate the roles, purposes, and functions of the Humanities using discipline-specific vocabulary. (Themes: Communication and Reasoning)
- Recognize and apply the discipline-specific structures used to communicate critically and/or creatively. (Themes: Communication and Reasoning)
- Access and utilize appropriate technologies to research, experience, and respond to the Humanities (Themes: Resourcefulness, Communication and Reasoning)
- Explore and assess how language, philosophy, and/or the arts represent and record individuals' and communities' engagement with social issues. (Themes: Exploration and Responsibility)
- Demonstrate an understanding of, and appreciation for, how these humanities influence, and are influenced by, their cultural contexts. (Themes: Reasoning and Exploration)

* No more than five credits allowed for distribution in performance/skills courses.
** No more than five credits in a foreign language at the 100 level allowed for distribution.

SOCIAL SCIENCE (SS)

1. The course carries three or more credits.

2. The course objectives address all of the following outcomes. Upon successful completion of designated courses, students will have demonstrated the ability to:

   • Describe social, political, economic, linguistic, cultural, historical, and religious factors that explain human behavior and mental processes at individual and group levels (Theme: Communications & Exploration).
   • Identify and apply terminology, concepts, theories, data, and principles used by the various social science disciplines (Theme: Reasoning & Exploration).
   • Develop an informed sense of self that demonstrates tolerance and respect for diverse perspectives (Themes: Exploration, Resourcefulness & Responsibility).
   • Demonstrate critical thinking skills through formulating questions, analyzing data, and distinguishing between objective fact and subjective interpretation (Theme: Reasoning).

### Natural Science (NS)

1. The course is broad in scope, covering major concepts.

2. The course objectives address all of the following outcomes. Upon successful completion of designated courses, students will have demonstrated the ability to:
   - Communicate key scientific concepts in oral, written, and/or visual format using the language of science. (Theme: Communication)
   - Apply the scientific method to solve problems, conduct experiments, evaluate data, and test hypotheses. (Themes: Reasoning, Resourcefulness & Communication)
   - Critically evaluate scientific information and its sources (Themes: Exploration, Responsibility & Reasoning)

#### Anthropology
- ANTH& 205 Biological Anthropology
- ANTH& 215 Bioanthropology w/Lab
- ANTH& 236 Intro to Forensic Anthropology

#### Astronomy
- ASTR 125 The Solar System
- ASTR 126 Stars & Galaxies
- ASTR 127 The Solar System & Universe
- ASTR 128 Observational Astronomy

#### Biology
- BIOL& 160 General Biology w/Lab

- OCEA& 101 Intro to Oceanography w/lab

#### Physics
- PHYS& 110 Phys: Non-Science Majors w/lab
- PHYS& 114 General Physics I w/lab
- PHYS& 115 General Physics II w/lab
- PHYS& 116 General Physics III w/lab
- PHYS& 221 Engineering Physics I w/lab
- PHYS& 222 Engineering Physics II w/lab
- PHYS& 223 Engineering Physics III w/lab

#### Science
- SCIE 103 Survey of Earth Sciences
- SCIE 104 Intro to Physical Science
- SCIE 115 Weather and Climate w/lab
HEALTH AND FITNESS (HF)

The course provides the student with knowledge and skills that enable them to achieve and maintain optimal health over a lifetime.

Health and Physical Education courses are non-academic electives.

DIVERSITY (D)

1. The course carries three or more credits.

2. Diversity courses may also meet other Distribution Requirements.

3. The course focus should address human diversity by examining the experiences and contributions of underrepresented groups. This can include but is not limited to culture, race, ethnicity, gender, sexual orientation, gender identity, socioeconomic class, physical disability, mental disability, religion, age, immigration status and/or geopolitical power.

4. The course objectives address the following outcomes:
   Students should be able to:
   • Demonstrate knowledge of the contributions made by individuals from diverse and/or underrepresented groups. (1, 3, 4, 5)
   • Analyze the multiple identities, histories, cultures, perspectives, contributions, knowledge, struggles, and/or strategies of historically excluded groups. (1, 3, 4, 5)
   • Explain the value of diversity in the classroom, workplace, community, country, and the world. (1, 2, 3, 4, 5)
   • Explain personal views, values, and prejudices and their impact on the ability to identify and benefit from the contributions of others. (1, 2, 3, 4, 5)

PROGRAMS OF STUDY

These Educational Plans are intended as a guide for students who wish to emphasize a specific area of study. It is not a guarantee that the courses listed in the plan will be available in the sequence suggested. In some instances, due to low enrollment, some courses may not be offered at all.

Students should consult with their advisor for recommended electives. It is strongly recommended that students intending to transfer to a four-year college or university consult with the intended transfer institution for any prerequisites or additional requirements.
ACCOUNTING

EMPHASIS: Accounting/Tax
DEGREE: Associate in Applied Science
TOTAL CREDITS: 91
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The AAS program in Accounting provides students with necessary skills to compete for entry-level accounting positions in private industry, state, and local government, and public accounting firms.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Perform bookkeeping tasks in the service of the business public.
• Assist in the production of financial reporting in accordance with generally accepted accounting principles (GAAP).
• Assist in the conduct of audits in accordance with generally accepted audit standards (GAAS).
• Demonstrate familiarity with the application of computer accounting information systems software (AIS).
• Assist in the determination and disposition of tax liability as it applies to individuals and business entities.
• Prepare industry standard written and oral communications to include the use of Microsoft Word and Excel.
• Successfully complete qualification examinations for either Certified Professional Bookkeeper (CPB)

Spring Quarter, Second Year

ACCT 210 Introduction to Audit ....................... 5
ACCT 285 Bookkeeper Certification Course ........ OR
BUS& 201 Business Law .............................. 5

PURPOSE:
The AAS program in Accounting provides students with necessary skills to compete for entry-level accounting positions in private industry, state, and local government, and public accounting firms.
ACCOUNTING

EMPHASIS: Accounting Clerk
DEGREE: Certificate of Proficiency
TOTAL CREDITS: 53
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Accounting Clerk program prepares students for an entry level accounting position. Some advancement is possible with this background, but students may wish to acquire additional training in accounting to allow broader advancement opportunities. Prerequisite: demonstrate proficiency in math, reading, and English.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Perform basic bookkeeping and accounting tasks both manually and on the computer.
• Outline the relationships among the various business functions such as accounting, finance, marketing, purchasing, operations, and human resources.
• Illustrate computer proficiency on the computer keyboard and ten-key calculator as well as Quick Books Pro.
• Prepare written and oral business communications.
• Recognize business law concepts such as contract law and the Uniform Commercial Code.

ANTHROPOLOGY

EMPHASIS: Anthropology
DEGREE: Associate in Arts

PURPOSE: The Associate of Arts Degree with an emphasis in anthropology is for students wishing to transfer to a four-year college or university. A student acquiring the Associate in Arts degree in anthropology will achieve an understanding of the diversity of humans and human cultures past and present around our globe.

While preparing the student for further study and eventual employment in the field of anthropology, this educational plan also is relevant for students preparing for a broad range of jobs in both government and international agencies that focus on cross-cultural issues and involve working with people from different cultural backgrounds. These jobs, in addition to work in international and government agencies, might include working in agricultural development and educational reform or as a consultant, planner, market analyst, survey researcher, forensic scientist, or refugee coordinator.

BIOLOGY

**EMPHASIS:** Biology, Botany, Ecology, Zoology
**DEGREE:** Associate in Biology-DTA/MRP

**PURPOSE:** This program is for students who wish to complete a bachelor's degree in such disciplines as general or molecular biology, zoology, microbiology, genetics, entomology, botany, horticulture, soil science, phycology, ecology, marine biology, fisheries biology, or wildlife management. This program assumes that a student is prepared to start college-level math and English courses.

Students who are not prepared to begin at this level may require additional quarters.

To ensure optimal course selection, plan your program of study with your advisor and with the specific requirements of your likely transfer institution.

* Students requiring Pre-Calculus I (MATH& 141) or Pre-Calculus II (MATH& 142) should complete these now. These students would use one of the second year electives for a third Social Science and another second year elective for a third Humanities distribution course. Other students should satisfy a Social Science or Humanities elective.

** Recommended electives include a full year sequence of Organic Chemistry, or additional math classes, such as statistics or additional Calculus.
**PURPOSE:** This program is for students who wish to complete a bachelor’s degree in such disciplines as general or molecular biology, zoology, microbiology, genetics, entomology, botany, horticulture, soil science, phycology, ecology, marine science, fisheries or wildlife management.

If you are not well prepared in high school mathematics and science, you should plan, with your advisor, a three-year program at Centralia College in preparation for transfer to a four-year college or university.

The main emphasis in the first year at Centralia should be on strengthening your mathematics, basic sciences, communications, and reading skills. To ensure optimal course selection, plan your program of study with your advisor.

CHEM& 261, 262, 263 Organic Chemistry w/Lab I-III;
PHYS& 221, 222, 223; Engineering Physics I-III

* Biology majors should select organic chemistry or physics for second year sequence.
BUSINESS

EMPHASIS: Business Administration
DEGREE: Associate in Business-DTA/MRP

PURPOSE: The Associate in Business is designed for students who plan to transfer to a four-year college or university to complete a bachelor's degree in business.

Suggested Order of Classes

Fall Quarter, First Year
- ECON& 202 Macroeconomics ........................................5
- ENGL& 101 English Composition I ..................................5
- Humanities Distribution ..................................................5
- Total: 15

Winter Quarter, First Year
- ECON& 201 Microeconomics .........................................5
- ENGL& 102 Composition II .............................................5
- Natural Science Distribution** .........................................5
- Total: 15

Spring Quarter, First Year
- MATH& 146 Introduction to Statistics ...............................5
- CMST& 220 Public Speaking ............................................5
- MATH& 141 Pre-Calculus I (if needed) .............................5
- Elective credits 2-5
- Health and Fitness Distribution ......................................3
- Total: 15-18

Fall Quarter, Second Year
- ACCT& 201 Principles of Accounting I .............................5
- BUS& 201 Business Law ..................................................5
- MATH& 142 Pre-Calculus II (if needed) ............................5
- Social Science Distribution** ...........................................5
- Total: 15-20

Winter Quarter, Second Year
- ACCT& 202 Principles of Accounting II ............................5
- MATH& 151 Calculus I* ....................................................5
- Natural Science Distribution** .........................................5
- Total: 15

Spring Quarter, Second Year
- ACCT& 203 Principles of Accounting III ..........................5
- MATH& 152 Calculus II* ...................................................5
- Humanities Distribution ..................................................5
- Total: 15

Students should confer with an advisor at their baccalaureate institution regarding the course choices in each area where options are listed: Humanities, Social Sciences, Natural Sciences and electives.

* Five of the 10 Quantitative credits required may include the prerequisite for Calculus (MATH& 141 and/or MATH& 142) and can be substituted for MATH& 152.

** At least 10 credits in physical, biological and/or earth sciences including at least one lab course.
BUSINESS ADMINISTRATION

DEGREE: Associate in Applied Science
TOTAL CREDITS: 93
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Associate in Applied Science with a Business Administration emphasis, provides students with a broad exposure to the principles and philosophies of business and management. Successful completion of the two-year program will help facilitate the process of graduates pursuing meaningful careers in a dynamic, changing business environment. It will also satisfy the requirements necessary for students to pursue additional advanced degrees.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Prepare statements to monitor, evaluate, and assess financial performance of a business.
• Evaluate the performance of a business by using tools of pricing, promotion, product development, and distribution.
• Recognize and analyze how economic forces shape the environment of business and aid in decision making.
• Apply acquired skills to workplace scenarios.
• Develop human relations skills and professional behavior necessary for successful job performance.
• Apply rules of grammar, punctuation, and spelling to written communications.
• Define and compare and contrast characteristics and traits of leadership and management.
• Explain the importance and challenges of diversity, employee motivation, and employee engagement in the workplace.
• Identify and describe various forms of business ownership.
• Summarize basic laws in regards to business ownership, recruitment and hiring practices, OSHA, and liability.
• Explain communication, social responsibility, ethics, morals, and values as they relate to the workplace.
• Create a personal code of ethics and explain how it relates and impacts the workplace.
• Identify the impact of international business and explain various methods for a business to enter the global market.
• Describe the activities involved in each function of management and at various levels of management in the workplace.

Business Electives: Students should work with their advisor to select appropriate electives for career goals or continuation in BAS-AM program. BUS 190, BUS& 201, BUS 203, BUS 215, BUS 220, BUS 225, BUS 230, BUS 232, BUS 240, BUS 250, BUS 275, *MATH& 146, *ENGL& 102, *5 credits Natural Science w/Lab (NS), *5 credits Social Science (SS).
*Indicates course options to fulfill BAS-AM general education requirements.

66
BUSINESS OFFICE TECHNOLOGY

EMPHASIS: Administrative Assistant
DEGREE: Associate in Applied Science
TOTAL CREDITS: 94
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: These degree programs prepare students with a broad business background, as well as provide specialized training in office skills. While students are accepted into the program each quarter, those who start in September find it easier to schedule their courses in the suggested sequences. Prerequisites include: demonstrated proficiency in math, reading, English, and basic keyboarding skills. After completing the selected program, students will be prepared for entry level employment as office assistants and receptionists, in general offices, legal offices, or medical offices.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
- Keyboard with speed and accuracy.
- File correctly using alphabetic, numeric, geographic, and subject filing systems.
- Apply rules of grammar, punctuation, and spelling in written and oral communications.
- Prepare documents using advanced features in word processing software.
- Format basic business letters, memos, reports, tables, and newsletters to office standards.
- Compose business letters, memos, resumes, and letters of application.
- Organize data using business math and practical accounting.
- Analyze and calculate data using spreadsheet software.
- Enter and organize data using database software.
- Obtain a first aid and CPR certificate.
- Operate a 10-key electronic calculator by touch.
- Relate effectively with others in the classroom.
- Develop human relations skills and professional behavior necessary for successful job performance.
- Apply acquired skills in the workplace.
- Transcribe from recorded dictation.
- Enter accounting transactions and generate reports using Quick Books.
- Analyze data and report information using database software.
- Possess a basic understanding of receiving office visitors, using the telephone, scheduling appointments, customer service, and confidentiality skills in an office.
- Develop effective presentations using presentation software.
- Develop effective communications skills using electronic software.
- Prerequisites include: demonstrated proficiency in math, reading, English, and basic keyboarding skills.

**BUSINESS OFFICE TECHNOLOGY**

**EMPHASIS:** Office Manager  
**DEGREE:** Associate in Applied Science  
**TOTAL CREDITS:** 93-95  
**CLASS TYPE:** Lecture, Lab, Hybrid, Online

**PURPOSE:** The Associate in Applied Science-Office Manager program prepares students for entry-level management positions in a variety of office settings. The coursework will prepare students to successfully hire and supervise clerical and administrative staff, develop and monitor department deadlines, effectively use office technology, possess professional verbal and written communication skills, and professionalism needed to support the business.

**PROGRAM OUTCOMES:** Students who successfully complete this program will have demonstrated the ability to:
- Prepare statements to monitor, evaluate, and assess financial performance of a business
- Demonstrate human relations skills and professional behavior necessary for successful job performance
- Explain the importance and challenges of diversity, employee motivation, and employee engagement in the workplace
- Summarize basic laws in regards to business ownership, recruitment and hiring practices, OSHA, and liability.
- Describe the activities involved in each function of management and at various levels of management in the workplace
- Demonstrate the ability to keyboard with speed and accuracy
- File correctly using alphabetic, numeric, geographic, and subject filing systems
- Apply rules of grammar, punctuation, and spelling in written and oral communications
- Prepare documents using advanced features in word processing software
- Format basic business letters, memos, reports, table, and newsletters to office standards
- Analyze and calculate data using spreadsheet software.
- Demonstrate the ability to demonstrate effectively with others in the classroom
- Demonstrate the ability to apply acquired skills in the workplace
- Compose business letters, memos, resumes, and letters of application,
- Enter and organize data using database software
- Possess a basic understanding of receiving office visitors, using the telephone, scheduling appointments, customer service, and confidentiality skills in an office.
- Develop effective presentations using presentation software

BUSINESS OFFICE TECHNOLOGY

EMPHASIS: Medical Office Assistant
DEGREE: Certificate of Proficiency
TOTAL CREDITS: 55
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Medical Office Assistant Certificate program combines general office skills with studies in medical terminology, human biology, medical office procedures, and medical machine transcription.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Keyboard with speed and accuracy.
• File correctly using alphabetic, numeric, geographic, and subject filing systems.
• Apply rules of grammar, punctuation, and spelling in written and oral communications.
• Prepare documents using word processing software.
• Format basic business letters, memos, reports, tables, and newsletters to office standards.
• Solve basic business math problems.
• Operate 10-key electronic calculator by touch.
• Analyze and calculate data using spreadsheet software.
• Apply acquired skills in the workplace.
• Relate effectively with others in the classroom.
• Develop human relations skills and professional behavior necessary for successful job performance.
• Use medical terms correctly.
• Obtain a first aid certificate.
• Understand human biology.
• Possess a basic understanding of medical office procedures using medical charts and records, electronic records, receiving visitors, scheduling appointments, and confidentiality in a medical office.

BUSINESS OFFICE TECHNOLOGY

EMPHASIS: Office Assistant

DEGREE: Certificate of Proficiency

TOTAL CREDITS: 48

CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Office Assistant certificate program prepares students for entry-level employment as office assistants. Prerequisites include: demonstrated proficiency in math, reading, English, and basic keyboarding skills.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
- Keyboard with speed and accuracy.
- File correctly using alphabetic, numeric, geographic, and subject filing systems.
- Apply rules of grammar, punctuation, and spelling in written and oral communications.
- Prepare documents using advanced features in word processing software.
- Format basic business letters, memos, reports, tables, and newsletters to office standards.
- Solve basic business math problems.
- Operate a 10-key electronic calculator by touch.
- Analyze and calculate data using spreadsheet software.
- Apply acquired skills in the workplace.
- Relate effectively with others in the classroom.
- Develop human relations skills and professional behavior necessary for successful job performance.
- Develop effective presentations using presentation software.
- Analyze and organize business transactions applying bookkeeping theory and systems.
- Possess a basic understanding of receiving office visitors, using the telephone, scheduling appointments, customer service, and confidentiality skills in an office.
- Develop effective communications skills using electronic software.

CHEMICAL DEPENDENCY

DEGREE: Associate in Applied Science
TOTAL CREDITS: 93
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: Chemical Dependency is for students interested in focusing their studies on Chemical Dependency rehabilitation. This program prepares the student for work as a Chemical Dependency counselor in various settings from detoxification units to residential treatment programs. Students will fulfill the education requirements for certification as Chemical Dependency Professional Trainee through the Department of Health (DOH). Students take classes that directly fulfill Washington Administrative Code (WAC) requirements toward acquiring the Chemical Dependency Professional (CDP) certification.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Understand developmental psychology and psychopathology.
• Evaluate, assess, and treat addiction, substance abuse and chemical dependency in adolescents and adults.
• Recognize the pharmacological actions of alcohol and other drugs.
• Apply chemical dependency rules and regulations as well as professional and ethical responsibilities to patient care.
• Coordinate the use of services, referrals, and community resources.
• Recognize cultural diversity, including people with disabilities, and its implications for treatment.
• Plan and implement appropriate addiction placement, continuing care, and discharge criteria.
• Plan and provide effective counseling for chemical dependency, relapse prevention and continuing care for addicted individuals, their families or significant others in individual or group sessions.
• Apply skills necessary to perform clinical evaluations, HIV/ AIDS risk interventions and case management functions.

Suggested Order of Classes

Fall Quarter, First Year.................................Credits
CDP  100 Chemical Dependency Introduction.....5

HR    110 Human Relations - Workplace ..........5
                                      12

* MATH& 146 and BUS 121 are optional math courses.
CHEMISTRY

**EMPHASIS:** Chemistry  
**DEGREE:** Associate in Science

**PURPOSE:** The Associate in Science with an emphasis in Chemistry is for students interested in transferring to a four-year college or university to complete a bachelor’s degree. Students who complete this educational plan are reasonably assured of junior level standing at most four-year colleges and universities in Washington State.

You are urged to consult with your advisor to coordinate your program with the requirements at the institution to which you intend to transfer.

If you have successfully completed algebra, geometry, trigonometry, pre-calculus, chemistry and physics in high school you are prepared to enter Pre-Calculus Refresher (MATH& 135) and General Chemistry (CHEM& 161) and completion of your program in four years is possible.

If you are not well prepared in high school mathematics and science, you should plan, with your advisor, a three-year program at Centralia College in preparation for transfer to a four-year college or university. The main emphasis in the first year at Centralia should be on strengthening your mathematics, basic sciences, communications, and reading skills.

COMMUNICATION STUDIES

EMPHASIS: Communication

DEGREE: Associate in Arts

PURPOSE: People who can effectively communicate their opinions, thoughts and ideas can often outperform people who might have higher intelligence quotients but lack solid communication skills. The study of communication - sending and receiving messages, both verbal and nonverbal - is more important than ever in today's fast-paced, collaborative, technology-driven society.

The Associate in Arts degree with an emphasis in Communication Studies is for students who want to complete a two-year program or transfer to a four-year college or university to pursue a Communications related bachelor's degree. Students who obtain a degree in Communications enjoy a wide range of employment opportunities because hiring managers place such a high priority on communication skills (National Association of College Employers, 2014, as cited by Forbes Magazine, 2014).

* Fall Quarter, First Year choose a Humanities course:
  ART 110 2D Design
  ART& 100 Art Appreciation
  ART 130 Computer Graphics
  ENGL& 111 Intro to Literature or
  ENGL 208 Intro to Creative Writing

It is strongly recommended that students confer with an advisor at their potential transfer institution to determine the Communication Studies courses that best support or may be prerequisites for their program. This program plan can possibly be modified to meet their requests.
**COMPUTER SCIENCE**

**EMPHASIS:** Computer Science  
**DEGREE:** Associate in Arts

**PURPOSE:** The Associate in Arts degree with Computer Science emphasis is for students interested in transferring to a four-year college or university to complete a bachelor's degree in computer science.

If you are not well prepared in high school math at least through a second year algebra course (following geometry), you should plan, with your advisor, a three-year program to prepare you for transfer to a four-year college or university. The emphasis in the first year should be on strengthening your math, basic science, communication, and reading skills.

The given sequence begins with MATH& 141 Pre-Calculus I. If possible, start with MATH& 151 Calculus I.

It is extremely important that you, the student, identify the institution you intend to transfer to as soon as possible as some computer science programs have specific general education requirements and prerequisites.

**PROGRAM OUTCOMES:** Students who successfully complete this program will have demonstrated the ability to:
- Script static web pages.
- Code dynamic web pages.
- Install and operate simple web servers.
- Install and configure routers in small-scale networks using RIP, OSPF and/or IGRP.
- Install and configure security programs.
- Install and configure TCP/IP protocols.

* PHYS& 221 Engineering Physics I recommended
PURPOSE: Provides students with training in the core IT and workplace competencies necessary to complete for entry-level employment in the Information Technology industries.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the objectives associated with the following:

- **Creativity and innovation:** Students demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology.
- **Communication and collaboration:** Students use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others.
- **Research and information fluency:** Students apply digital tools to gather, evaluate, and use information.
- **Critical thinking, problem solving, and decision making:** Students use critical thinking skills to plan and conduct research, manage projects, solve problems, and make informed decisions using appropriate digital tools and resources.
- **Digital citizenship:** Students understand human, cultural, and societal issues related to technology and practice legal and ethical behavior.
- **Technology operations and concepts:** Students demonstrate a sound understanding of technology concepts, systems, and operations.

DATA ANALYSIS

EMPHASIS: Data Analysis
DEGREE: Certificate of Completion
TOTAL CREDITS: 15
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: This certificate program teaches students how to collect data through archival research and newly designed studies, manage, access, and perform computations on data, analyze data, and share results in a useful and informative way.

PROGRAM OUTCOMES: Students who successfully complete this program should be able to demonstrate the following:

- Program basic statistical/data science scripts in appropriate languages (such as R, SQL, Python, spreadsheet functions)
- Create data visualization (dashboards, exploratory data analysis, etc.)
- Compute and interpret inferential statistics (confidence intervals, hypothesis tests, parameter estimates in regressions)
- Use the rules of probability to make decisions
- Mine data and make decisions with large data sets using regression and exploratory analytic methods.
- Design research studies
- Communicate results in a professional context to help clients make decisions
- Discover the data needs of clients in a data science consulting context

This certificate is intended for students who already have or intend to earn at least a Bachelor’s degree. The certificate particularly complements and augments the courses from the BAS-IT: AD program.

Program Prerequisite: MATH& 146 Introduction to Stats (5)

COMMERCIAL DRIVER LICENSE

EMPHASIS: Commercial Driver License
DEGREE: Certificate of Completion
TOTAL CREDITS: 12
CLASS TYPE: Lecture, Lab

PURPOSE: The commercial truck driving course provides comprehensive hands-on skill development and instruction that aligns with the Department of Transportation. The student will maneuver a commercial vehicle in different traffic conditions; operate a tractor-trailer combination; and maneuver the vehicle safely forward and backward around various obstacles.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

• Perform repair procedures using proper tools while abiding by safety and environmental regulations
• Maintain proper workplace documentation in a professional manner
• Conduct behavior that is consistent with the professionalism standards of the industry

PROGRAM OBJECTIVES:
Successfully take and pass the Washington State exam for a Commercial Driver License with the understanding of rules, regulations, and requirements of the professional truck driving industry.
• Recognize, avoid, or solve potential hazardous situations related to commercial truck driving.
• Calculate axle weight and adjust according to state and federal laws.
• Follow established procedures for pre-trip inspections.
• Couple and uncouple a tractor/trailer unit.
• Control and safely maneuver the vehicle in various traffic situations.
• Back a tractor/trailer combination into and through various obstacles.
• Apply correct logbook procedures and rules.

Course prerequisites:
• 18 years of age or older
• Pass Federal Department of Transportation health and drug screening
• Valid Washington state driver license
• No DUI, hit and run, reckless, or negligent infractions within the past five years
• Have no more than three moving violations in the past 3 years

CONSTRUCTION MANAGEMENT

EMPHASIS: Construction Management
DEGREE: Associate in Construction Management-DTA/MRP

PURPOSE: This degree is a Major Related Program designed for students planning to transfer and to prepare for American Council of Construction Education (ACCE) accredited majors in Construction Management at Central Washington University, Washington State University-Pullman, and University of Washington-Seattle; the degree also provides coursework for transfer into Eastern Washington University’s Bachelor of Science in Technology-Construction Management.

This degree meets the requirements of the Statewide Construction Management DTA/MRP Agreement.

Elective credits should be planned with the help of an engineering advisor and be based on the requirements of the specific program at the baccalaureate institution that the student plans to attend. This two-year program requires students to be calculus ready by second quarter of the first year. Students not well prepared in high school mathematics and science should plan a three-year program at Centralia in preparation for transfer to a four-year school. The main emphasis in the first year should be to strengthen mathematics, basic sciences, communication, and reading skills.

CRIMINAL JUSTICE

EMPHASIS: Criminal Justice
DEGREE: Associate in Applied Science
TOTAL CREDITS: 90-93
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: Designed to meet the education needs of both working professionals and those seeking new employment in a variety of law enforcement and correctional agencies. Cooperative education components will be designed with local or state law enforcement agencies, correctional institutions, or social service support agencies. Courses offered in a variety of formats to accommodate the schedules of traditional and non-traditional students.

Cooperative education components offered in partnership with regional law enforcement agencies, adult and juvenile correctional institutions.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Discuss and demonstrate basic procedures related to the fields of law enforcement and corrections.
- Utilize knowledge about state and federal laws that impact law enforcement and corrections in decision making.
- Understand and discuss the difference in relationships between law enforcement, the community and other legal entities.
- Understand and describe the relationships that exist between the various law enforcement, corrections, and the courts systems and at the local, state and federal levels of government.
- Discuss ethics as related to law enforcement and corrections.

CRIMINAL JUSTICE

EMPHASIS: Criminal Justice
DEGREE: Associate in Arts

PURPOSE: This degree prepares students to transfer to a baccalaureate institution and major in criminal justice. A B.A. degree prepares students to work in criminal justice and government agencies (federal, state, or local) or the private sector. Graduates may enter careers in state and local law enforcement, community corrections, federal law enforcement, or in the private sector.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Discuss and demonstrate basic procedures related to the fields of law enforcement and corrections.
- Utilize knowledge about state and federal laws that impact law enforcement and corrections in decision making.
- Understand and discuss the difference in relationships between law enforcement in the community and other legal entities.
- Understand and describe the relationships that exist between the various law enforcement, corrections, and the courts systems and at the local, state, and federal levels of government.
- Discuss ethics as related to law enforcement and corrections.

The Criminal Justice emphasis can be tailored to meet both the career path objectives of the individual and coordinate planning to a four year school. An advisor can provide additional information on this.
### CRIMINAL JUSTICE

**EMPHASIS:** Criminal Investigation  
**DEGREE:** Certificate of Proficiency  
**TOTAL CREDITS:** 50  
**CLASS TYPE:** Lecture, Lab, Hybrid, Online

**PURPOSE:** To provide individuals with information and techniques used in forensic investigations.

**PROGRAM OUTCOMES:** Students who successfully complete this program will have demonstrated the ability to:

- Understand basic concepts of criminal and forensic investigation and the functions of a forensic specialist.
- Identify crime scene considerations of investigators for a variety of different crime scenes.
- Employ proper and appropriate evidence collection, preservation, documentation and transport techniques of all evidence identified at the crime scene.

### DENTISTRY

Pre-Medicine, Pre-Dentistry
PURPOSE: This Diesel Equipment Technology program is designed to prepare students for immediate employment as a technician in the maintenance, repair, or overhaul of heavy equipment (i.e., logging, construction, and mining), agricultural equipment, or trucking.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Perform repair procedures using proper tools while abiding by safety and environmental regulations.
- Identify, diagnose and repair electrical and hydraulic circuits.
- Maintain proper workplace documentation in a professional manner.
- Conduct behavior that is consistent with the professionalism standards of the industry.

* DET 102 must be completed during the first year.
** BTEC 191 can be taken any quarter prior to or in the same quarter as DET 190.
*** Students must take either DET 230 OR DET 190.

STUDENTS WILL NEED TO PURCHASE TOOLS FOR CLASS. PLEASE SEE A DIESEL INSTRUCTOR FOR TOOL LIST.
**PURPOSE:** The Associate of Arts degree with an emphasis in Dramatic Arts meets the needs of students interested in acting or technical theater work who intend either to complete a two-year program or to transfer to a four-year institution.

Course work can provide an important supplement to the work of those who plan to major in the humanities and social sciences. Dramatic experience brings insight into the complex motivation for human behavior.

For students who plan to become educators, particularly those interested in elementary and secondary school teaching, courses in drama can provide insight into methods of teaching and learning through "language arts."

If you intend to transfer to a four-year program at a college or university in Washington State, you should see the drama advisor for information on special requirements, if any, of that school. This information may have a bearing on courses you choose to satisfy distribution requirements.

A maximum of 15 credits in DRMA 100 level courses may be credited toward an Associate in Arts Degree. Up to 5 credits in Drama may be used as Humanities distribution credits.

EARLY CHILDHOOD EDUCATION

EMPHASIS: Early Childhood Education

DEGREE: Associate in Arts

PURPOSE: The Early Childhood Education AA degree transfers to a four-year school to complete work for a bachelor’s degree. Coursework can apply to the Early Childhood endorsement for Washington State teaching certification. These courses acquaint the student with terms, vocabulary, and activities pertinent to a quality experience within the early childhood education field. Course expectations include tasks to provide a foundation and proficiency for work toward a four-year degree program in early childhood education.

EARLY CHILDHOOD EDUCATION

EMPHASIS: Early Childhood Education
DEGREE: Associate in Applied Science
TOTAL CREDITS: 91-96
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Early Childhood Education, AAS degree program provides students with the critical early childhood and child development content necessary to compete for employment in early childhood education or in a school system as a teacher’s aide.

The Children’s Lab School provides a lab environment for observation and practice. Classes are offered on a two-year rotation. Students may enter the program during any quarter and participate part-time. Completion of the ATA program prepares graduates to compete for employment in child care centers, family day care homes, cooperative and private preschools, ECEAP, or Head Start. The curriculum provides instruction for parents, foster parents, day care parents, and persons working with children.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Understand how children differ in their development and approaches to learning and to use this knowledge to provide opportunities that support the physical, social, emotional, and cognitive development of all young children from birth through age eight.
- Use theory, research and foundations of education when planning and implementing Early Child Education programs.
- Plan and implement developmentally appropriate curriculum and teaching practices based on knowledge of individual children, the community and the curriculum goals and content.
- Use individual and group guidance and problem-solving techniques to develop positive and supportive relationships with children and develop personal self-control, self-motivation and positive self-esteem.
- Establish and maintain positive, collaborative relationships with families.
- Articulate a philosophy and rationale for decisions while continually assessing and evaluating the effects of their choices and actions on others.
- Serve as an advocate on behalf of young children and their families, programs for young children and the working environment for early childhood educators.
- Understand the early childhood profession and the commitment to professionalism.
- Manage human, fiscal, and spatial resources while meeting the health and safety needs of children and adults.
- Model global awareness and respect for the cultural diversity of children.
- Examine, discuss, evaluate and critique various issues and trends in Early Childhood Education.

- Identify and explain the major historic events and theoretical perspectives of Early Childhood Education.

EARLY CHILDHOOD EDUCATION

EMPHASIS: Early Childhood Education
DEGREE: Associate in Applied Science – Transfer
TOTAL CREDITS: 93-95
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Early Childhood AAS-T degree provides both the necessary critical content to compete for immediate employability in early care and education and the general education coursework necessary for transfer to a bachelor’s degree program. Coursework can apply to the Early Childhood endorsement for Washington State teaching certification.

These courses acquaint the student with terms, vocabulary, and activities pertinent to a quality experience within the early childhood education field.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Understand how children differ in their development and approaches to learning and to use this knowledge to provide opportunities that support the physical, social, emotional, and cognitive development of all young children from birth through age eight.
- Use theory, research and foundations of education when planning and implementing Early Child Education programs.
- Plan and implement developmentally appropriate curriculum and teaching practices based on knowledge of individual children, the community and the curriculum goals and content.
- Use individual and group guidance and problem-solving techniques to develop positive and supportive relationships with children and develop personal self-control, self-motivation and positive self-esteem.
- Establish and maintain positive, collaborative relationships with families.
- Articulate a philosophy and rationale for decisions while continually assessing and evaluating the effects of their choices and actions on others.
- Serve as an advocate on behalf of young children and their families, programs for young children and the working environment for early childhood educators.
- Understand the early childhood profession and the commitment to professionalism.
- Manage human, fiscal, and spatial resources while meeting the health and safety needs of children and adults.
- Model global awareness and respect for the cultural diversity of children.
- Examine, discuss, evaluate and critique various issues and trends in Early Childhood Education.
- Identify and explain the major historic events and theoretical perspectives of Early Childhood Education.

PURPOSE: The Early Childhood Education Certificate Program prepares students to compete for entry level employment in the child care field. This certificate also increases the knowledge and skills of people who currently work with children. The Children’s Lab School provides an environment for observation and practice. Students acquire in-depth knowledge of child development from birth through age eight.

EDUCATION

EMPHASIS: Education
DEGREE: Associate in Arts

PURPOSE: The Associate in Arts degree with an emphasis on Education transfers to a four-year college or university for students planning a teaching career. Requirements of four-year colleges vary greatly, and individual programs need to be coordinated with the institution to which the prospective teacher plans to transfer. Future elementary teachers should also seriously consider involvement in music, art, or drama activities. See your advisor for additional information.

ELECTRONICS, ROBOTICS & AUTOMATION

EMPHASIS: Electronics, Robotics & Automation

DEGREE: Associate in Applied Science

TOTAL CREDITS: 96-104

CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The goal of this program is to provide a graduate with the skills needed to find a job at a company that uses high-end automation equipment.

This equipment ranges from devices controlled by programmable logic controllers (industrial computers) to robotic devices. A successful student will have learned core electronics skills, characteristics and operation of various types of electric motors, pneumatics and embedded controllers.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

• Safely operate equipment and evaluate situations for safety issues.
• Work as members of a team in an office or industrial setting.
• Determine quantitative solutions to AC/DC electronic circuits.
• Apply common theorems and instrumentation to safely troubleshoot complex circuits.
• Design, implement and maintain automated systems using Programmable Logic Controllers and industrial sensors.
• Integrate modern microcontrollers into robotic systems to retrieve data and produce specified results.
• Obtain, process and articulate visualizations of sets of data from industrial equipment, and use that data to propose logical system improvements.
• Think independently to obtain solutions, and to recognize the need to pursue results which exceed the minimum standards whenever possible.

ENERGY TECHNOLOGY

EMPHASIS: Energy Technology – Power Operations

DEGREE: Associate in Applied Science

TOTAL CREDITS: 100-110

CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The Power Operations AAS Degree program prepares students to compete for employment in the Power Generation Industry.

Centralia College is designated as Washington State’s Center of Excellence for Energy Technology and is supported by statewide energy industry and labor leaders. The Energy Technology degree offers coursework in traditional sources of power generation as well as renewable energy and energy efficiency. The program prepares students for entry level positions such as power plant assistant control operator, technician, and other high voltage apprenticeships.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Operate electrical systems.
- Explain the components used in the transmission of electricity.
- Specialize in power generating, power transmission, metering, substation operations, plant mechanics, or boiler operations.
- Provide examples of the necessary steps to complete an energy audit of a home or building.
- Describe a practice for entrance exams that are typically required for entry into the electric utility industry.

**ENGINEERING**

**EMPHASIS:** Bioengineering and Chemical Engineering  
**DEGREE:** Associate in Science-MRP

**PURPOSE:** The Bio/Chemical Engineering Associate in Science degree is a pre-engineering Major Related Program designed for students transferring to a four-year college or university to complete a degree in the sub-discipline of bioengineering or chemical engineering. Elective credits should be planned with the help of an engineering advisor and based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend. This two-year program requires students to be ready for calculus by the second quarter of the first year.

If you are not well prepared in high school mathematics and science, you should plan a three-year program at Centralia College in preparation for transfer to a four-year school with the main emphasis in the first year on strengthening your mathematics, basic sciences, communication, and reading skills.

*An Economics class is recommended.

**If you need review prior to MATH& 151 Calculus I, you may take Pre-Calculus.

***Choose one elective from CS& 131, CS& 141, MATH 264.
**ENGLISH**

**EMPHASIS:** English  
**DEGREE:** Associate in Arts

**PURPOSE:** The Associate in Arts degree with an emphasis in English provides introductory-level and survey courses within the parameters of an English major as that English major is defined at the baccalaureate degree-granting institution to which the student transfers. Most English departments at the baccalaureate level will accept 10-15 credits of lower-level English courses as meeting minimum requirements toward a major in English. English credits taken at Centralia College beyond the 10-15 acceptable credits at the baccalaureate institution will be considered elective credits and may or may not fulfill English major requirements at the baccalaureate transfer institution.

To satisfy the 3-5 credit diversity requirement, students may wish to take:
- ENGL 260 Non-Western Literature
- ENGL 160 Women in Literature

Other “D” courses listed in current college catalog.

* History is recommended for a Social Science distribution requirement.
ENVIRONMENTAL SCIENCE

EMPHASIS: Environmental Science
DEGREE: Associate in Science

PURPOSE: The Associate in Science degree with an emphasis in Environmental Science is intended for students who plan a career as a scientist or technician in an environmental field such as conservation biology, environmental chemistry, environmental geology, energy resources, environmental planning, agro-ecology or atmospheric sciences.

Recommend choosing one from the following:
Select three Social Science distribution classes, one class from each of the following disciplines:
- ANTH& 100, OR 206, OR 225, OR GEOG& 200
- ECON& 202 OR ECON& 201
- POLS& 101 OR POLS& 202

Select Humanities distribution classes from the following:
- CMST& 220, PHIL& 101
- Plus five (5) credits of foreign language or other Humanities distribution. Additional Natural Science distribution classes are recommended for electives: BIOL& 221, 222, 223; BOTA 113, 150; GEOG 201, and GEOL 108, 208
## FINE ARTS

**EMPHASIS:** Fine Arts  
**DEGREE:** Associate in Arts

**PURPOSE:** The Associate in Arts degree with a Fine Arts emphasis is for students interested in transferring to a four-year college or university to complete a bachelor's degree with a major in art.

As well as providing a basic liberal arts foundation, this program provides a solid base in studio art and art history which is essential for those interested in entering a variety of art professions.

FOREIGN LANGUAGES

EMPHASIS: Chinese, French, Spanish

DEGREE: Associate in Arts or Associate in Liberal Arts

PURPOSE: The degree plan is designed for transfer but is also appropriate for anyone who wishes a solid foundation in Chinese, French, or Spanish. It will benefit students with personal reasons for speaking a foreign language as well as travelers and those planning a career in international business, teaching, social work, interpreting, translating, and the Foreign Service, to name just a few possibilities.

Suggested Order of Classes

Fall Quarter, First Year Credits
CHIN&, FRCH&, or SPAN& 121 .................................................... 5
ENGL& 101 English Composition I ............................................. 5
Quantitative Skill Distribution ....................................................... 5

Winter Quarter, First Year Credits
CHIN&, FRCH&, or SPAN& 122 .................................................... 5
ENGL& 102 Composition II .......................................................... 5
ANTH& 206 Cultural Anthropology .............................................. 5
Health and Fitness Distribution ...................................................... 1

Spring Quarter, First Year Credits
CHIN&, FRCH&, or SPAN& 123 .................................................... 5

Elective .......................................................................................... 5
Natural Science Distribution .......................................................... 5

Students are advised to consult their advisor for the selection of distribution and elective credits. Foreign language majors are encouraged to include courses in Anthropology, Political Science, Business, Education, Criminal Justice or Medical and Legal Terminology, depending on focus.
**GEOLOGY**

**EMPHASIS:** Geology, Environmental Geo-sciences, Geophysics, Oceanography  
**DEGREE:** Associate in Science

**PURPOSE:** The degree program in Geology transfers to four-year colleges and universities. Completion of the program qualifies a student for junior standing at most four-year colleges and universities in Washington and reasonably assures qualification outside of the state.

Students not prepared to enter MATH& 131 and CHEM& 121 should plan on more than four years to complete a bachelor's degree in one of the earth sciences. For those students, a three-year program of study at Centralia College, carefully planned with an advisor, is recommended.

* Some baccalaureate institutions require physics with calculus.

** Although the Biology (for majors) sequence can be substituted to complete your AS degree, most baccalaureate institutions require physics with calculus sequence.
GENERAL ENGINEERING

See Engineering

GRAPHIC DESIGN

**EMPHASIS:** Graphic Design  
**DEGREE:** Associate in Arts

**PURPOSE:** Graphic design is art that interests, informs, persuades, or sells. It has taken the traditional form of printed material and now includes computer imaging.

The Associate in Arts degree with emphasis in graphic design is for students who want to complete a two-year program or transfer to a four-year college or university. This educational plan gives students a solid base in studio art. A portfolio of artwork is required to demonstrate studio abilities upon completion of the program.

**Recommended distribution for Graphic Design majors:**  
CMST& 220 Public Speaking. 5
**PURPOSE:** The Associate in Arts with an emphasis in History is designed to prepare students to major in history when they transfer to a four-year college or university.

Through the study of history students systematically examine the past and gain an opportunity to explore human nature and contemporary concerns. Historians work from the written records (cultural, economic, political, and scientific) of past generations to discover the kinds of lives led and problems faced.

The study of the trials and accomplishments, deeds, and aspirations of past generations is an excellent way to obtain the kind of broad education needed in our constantly changing world.

**Suggested Order of Classes**

**Fall Quarter, First Year**
- ENGL& 101 English Composition I ....................... 5
- HIST& 116 Western Civilization I .......................... 5
- HUM 110 Ethics & Cultural Values .......................... 5

**Winter Quarter, First Year**
- ENGL& 102 Composition II ................................. 5
- HIST& 117 Western Civilization II .......................... 5
- Health and Fitness Distribution ............................ 1
- Natural Science Distribution ............................... 5

**Spring Quarter, First Year**
- ECON& 202 Macroeconomics ............................... 5
- HIST& 118 Western Civilization III ........................ 5
- Health and Fitness Distribution ............................ 1
- Quantitative Skills Distribution ........................... 5

**Fall Quarter, Second Year**
- ANTH& 100 Survey of Anthropology ........................ 5
- HIST& 146 U.S. History I .................................... 5
- Natural Science Distribution ............................... 5

**Winter Quarter, Second Year**
- ENGL 260 Non-Western World Literature .................. 5
- HIST& 147 U.S. History II .................................... 5
- Health and Fitness Distribution ............................ 1
- Natural Science Distribution ............................... 5

**Spring Quarter, Second Year**
- HIST& 148 U.S. History III .................................. 5
- POLS& 202 American Government ........................... 5
- Humanities Distribution .................................... 5

These Humanities courses would be particularly valuable: Speech, Art History, and Music of the World.
HOME CARE AIDE

EMPHASIS: Home Care Aide
DEGREE: Certificate of Completion
TOTAL CREDITS: 5
CLASS TYPE: Lecture, Lab

PURPOSE: The Home Care Aide Certificate of Completion is designed for students interested in becoming care givers. Students learn about the role of a Home Care Aide and the skills required to pass the WA State Home Care Aide Written and Skills Exams. A background check is required.

PROGRAM OUTCOMES: Students who successfully complete this program should be able to:
• Describe the role of a Home Care Aide
• Pass the WA State Home Care Aide Written and Skills Exams

**HUMANITIES**

**EMPHASIS:** Humanities  
**DEGREE:** Associate in Arts

**PURPOSE:** The Associate in Arts degree with emphasis in Humanities is designed for those planning to major in English, History, Political Science, or related academic areas after transferring to a four-year college or university.

The study of a foreign language is highly recommended.

Students should consult with their advisor before selecting electives. This will allow coordination of electives with desired career goal.

Natural Science Distribution ................................................5  | 12       |
**PUPPOSE:** The Associate in Arts degree with an emphasis in Mathematics is for students interested in transferring to a four-year college or university to complete a bachelor’s degree in mathematics.

If you are not well prepared in high school math, you should plan, with your advisor, a three-year program to prepare for transfer to a four-year college or university. The emphasis in the first year should be on strengthening your math, basic science, communication, and reading skills.

MECHATRONICS

EMPHASIS: Mechatronics

DEGREE: Associate in Applied Science

TOTAL CREDITS: 91

CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The Mechatronics AAS prepares students for entry level positions involving installation, repair and preventive maintenance as performed by Industrial Maintenance Mechanics or Millwrights. The program includes instruction in Electronics, Robotics, Control Systems and Welding to expose students to the multiple skills necessary to repair, install, adjust, or maintain industrial production or processing machinery.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Safely operate equipment and demonstrate practices that promote workplace safety.
- Work as members of a team in an office or industrial setting and to recognize the need to pursue results which exceed the minimum standards whenever possible.
- Understand and embrace the inevitability of change in technology and pursue opportunities to improve skills with an attitude of "Life Long Learning".
- Diagnose, troubleshoot, maintain and repair electrical components and systems.
- Design, implement and maintain automated systems including Programmable Logic Controllers and industrial sensors.
- Develop skills as an industrial robotics operator. Plan and write robot programs. Optimize industrial robotic work cells and automated operations.
- Understand, diagnose, troubleshoot and repair mechanical, hydraulic and pneumatic components and systems.
- Think independently to analyze system errors and implement solutions.

MEDIA STUDIES

EMPHASIS: Media Studies
DEGREE: Associate in Arts

PURPOSE: The Media Studies program is designed for students interested in transferring to a four-year college or university to complete a bachelor's degree in Electronic Media which includes: Radio, Television, Video Production, Film Broadcast Journalism and Sports Announcing. In some cases this program is equally suited for students interested in a two-year terminal degree prior to entry in the media field.

The Electronic Media facilities at Centralia College are unique among Washington State community colleges. Students learn on professional audio and video equipment and are provided experience in numerous areas of production. KCED-FM, a fully equipped radio station authorized by the Federal Communications Commission, is operated by students in the Media Studies programs. Those students desiring an emphasis in radio broadcasting have ample opportunity for live “on-the-air” experience in broadcasting as well as studio production experience. The Centralia College television studio and production facilities are well equipped and provide experience in taping, directing, editing and producing. Students who transfer to a four-year college should consult their advisors for choice of distribution credit and elective courses.

Suggested Order of Classes

**Fall Quarter, First Year**
- ENGL& 101 English Composition I ................................. 5
- M ST 230 Introduction to Radio Broadcasting* ........ 5
- M ST 260 Introduction to TV & Video Production .......... 5

**Winter Quarter, First Year**
- ENGL& 102 Composition II ........................................ 5

- Social Science Distribution ........................................ 5
- Quantitative Skill Distribution ................................... 5

* Radio Majors
** In cooperation with a professional radio or television company, a student may enroll in MST 190, Cooperative Work Experience. The student may receive up to 12 credits for learning that occurs on the job. Attendance at a Work Experience Seminar is required of Co-op students. You must take the Work Experience Seminar before or in the same quarter as the Co-op course.
MEDI A STUDIES

EM PH ASIS: Film
DEGREE: Associate in Arts

PURPOSE: The Media Studies program is designed for students interested in transferring to a four-year college or university to complete a bachelor’s degree in Electronic Media. In some cases this program is equally suited for students interested in a two-year terminal degree prior to entry in the media field. The Electronic Media facilities at Centralia College are unique among Washington State community colleges.

Students learn on professional audio and video equipment and are provided experience in numerous areas of production.

For students interested primarily in Television and Film the Centralia College television studio and production facilities are well equipped and provide experience in taping, directing, editing and producing.

Classes will help students attain skills in camera work, studio and field production. Lighting, running an audio board, writing, directing, producing and editing short video projects are also covered. The Media Studies program in conjunction with the Drama department also offers students the opportunity to learn some set design and building crafts as well as lighting techniques and skills.

Students in the Television and Film classes will have the opportunity to participate in live productions including broadcast of college basketball games, community forums as well as help in recording the College Musical. Students who transfer to a four-year college should consult their advisors for choice of distribution credit and elective courses.

**MEDIA STUDIES**

**EMPHASIS:** Sports Announcing and Production  
**DEGREE:** Associate in Arts

**PURPOSE:** The Media Studies program is designed for students interested in transferring to a four-year college or university to complete a bachelor’s degree in Electronic Media. In some cases this program is equally suited for students interested in a two-year terminal degree prior to entry in the media field. The Electronic media facilities at Centralia College are unique among Washington State community colleges.

Students learn on professional audio and video equipment and are provided experience in numerous areas of production. Students primarily interested in Sports Announcing have the opportunity to perfect their skills on campus radio station KCED-FM, on live broadcasts over the local cable access channel and in the college's television studio and production rooms. Classes and practical application will help students develop skills sports announcers use to broadcast and report on sporting events.

Students also have the opportunity to host their own sports discussion show on KCED as well as calling the play by play action of college basketball, baseball and local high school football games.

Instruction on vocal techniques, production, conducting and recording interviews, writing and research as well as specific duties of each member of a broadcast booth will be covered. Students who transfer to a four-year college should consult their advisors for choice of distribution credit and elective courses.

**MEDICAL ASSISTANT**

**EMPHASIS:** Medical Assistant  
**DEGREE:** Associate in Applied Science  
**Total Credits:** 91-99  
**CLASS TYPE:** Lecture, Lab, Hybrid

**PROGRAM OUTCOMES:** Students who successfully complete this program will have demonstrated the ability to:

- Perform administrative tasks using computer software to research and organize data for medical information systems.
- Efficiently maintain accurate and well-organized patient medical records.
- Effectively use oral and written communication skills as they relate to a medical office environment.
- Perform within legal and ethical boundaries, including issues of patient confidentiality.
- Recognize the impact of cultural differences in care of patients.
- Use problem-solving and critical thinking to identify proper medical office procedures and processes, including infection control guidelines (Standard Precautions) as determined by the Center for Disease Control and the Occupational Safety and Health Administration.
- Prepare and maintain examination and treatment areas.
- Prepare a patient for and assist with routine and specialty examinations and procedures, including obtaining and documenting vital signs and body measurements.
- Apply knowledge of basic pharmacology and medication administration.
- Apply knowledge of laboratory procedures performed in the medical office laboratory, including venipuncture and capillary puncture.
- Recognize and be able to respond to medical office emergencies within the scope of training.
- Maintain medical office equipment and supplies.

**Prerequisites include:** Demonstrated proficiency in math, reading, English, and basic keyboarding skills.

**NOTE:** MATH 096 is the prerequisite to MA 130 Medical Math.

*Prerequisite to apply for 2nd year with grade of 2.5 or higher.

**Total Credits:** 14

BIOL& 241 and BIOL& 242 may be substituted for BIOL& 170 and BIOL 172.0
**MEDICAL SCRIBE**

**EMPHASIS:** Medical Scribe  
**DEGREE:** Certificate of Proficiency  
**TOTAL CREDITS:** 49  
**CLASS TYPE:** Lecture, Lab

**PURPOSE:** The Medical Office Scribe Certificate program combines general office skills with studies in medical terminology, human biology, medical office procedures, and medical machine transcription. The intended occupational path is that of a scribe assisting a provider in a medical setting such as a clinic or hospital.

**PROGRAM OUTCOMES:** Students who successfully complete this program should be able to:
- Demonstrate the ability to keyboard with speed and accuracy
- Apply rules of grammar, punctuation, and spelling in written and oral communications
- Prepare documents using advanced features in word processing software
- Format basic business letters, memos, reports, tables, and newsletters to office standards
- Solve basic business math problems
- Demonstrate the ability to apply acquired skills in the workplace
- Demonstrate the ability to relate effectively with others in the classroom
- Demonstrate human relations skills and professional behavior necessary for successful job performance
- Use medical terms correctly
- Obtain a first aid certificate
- Demonstrate an understanding of human biology

Prerequisites include: demonstrated proficiency in math, reading, English, keyboarding and basic computer skills.

MUSC

**EMPHASIS:** Music

**DEGREE:** Associate in Music - DTA/MRP

**PURPOSE:** The Associate in Music degree is for students who plan to transfer to a four-year college or university to pursue a bachelor’s degree in with a major in music. This degree provides a solid liberal arts foundation, in addition to the courses required to complete the first two years of a bachelor's degree in music.

Students who complete the Associate in Music degree, who have also met any specific institutional GPA, performance, and audition requirements, will be regarded as having met the minimum preparation for consideration for admission to a baccalaureate Music program. Baccalaureate institutions will apply the 101-104 quarter credits required to the credits required in the bachelor's degree, subject to institutional policy on the transfer of lower division credits.

NATURAL RESOURCES MANAGEMENT

EMPHASIS: Forestry, Fisheries, Wildlife Management

DEGREE: Associate in Arts

PURPOSE: The AA emphasis prepares students for transfer into Natural Resource Management professional programs typically with very specific coursework for a bachelor's degree.

To prepare for a program in forestry, fisheries, or wildlife management students should take at least two quarters of Calculus and one quarter of Introduction to Statistics. Natural Science requirements vary among transfer institutions. Some require only 10 credits of BIOL& 221, 222, 223 while others also require CHEM& 131. Consult your advisor as you plan your curriculum and coordinate your program with the requirements of the institution to which you plan to transfer.

* GEOL& 208 offered every other year.

Select Social Science distribution classes from the following: ECON& 201, POLS& 101, or POLS& 202. Plus 5 additional credits of Social Science.

Select Humanities distribution classes from the following: CMST& 220, PHIL 103. Plus 5 credits of foreign language or other Humanities as needed for transfer program.
NURSING ASSISTANT CERTIFIED

EMPHASIS: Nursing Assistant Certified
DEGREE: Certificate of Completion
TOTAL CREDITS: 18
CLASS TYPE: Lecture, Lab

PURPOSE: The NAC Plus Certificate of Completion is designed for students who are interested in pursuing an entry level career in healthcare. Completion of the certificate components prepares students to work in the specific specialties of Mental Health, Dementia, and Nurse Delegation in addition to regular NAC roles. Upon successful completion of this certificate program students should be prepared to take the NAC State Certification exam and receive three additional industry recognized endorsements.

PROGRAM OUTCOMES: Students who successfully complete this program should be able to:
• Understand the Long-term Care Ethical and Legal Responsibilities and the Uniform Disciplinary Act as it pertains to the Nursing Assistant role.
• Describe the role of a Nursing Assistant
• Exhibit communication and interpersonal skills
• Respect resident’s rights and independence
• Pass the state Nursing Assistant certification exam
• Pass the state Fundamentals of Caregiving exam
• Pass the state Mental Health certification exam
• Pass the state Nurse Delegation & Diabetes exam
• Pass the state Mental Health exam
• Pass the state Dementia exam
• Pass HIV/AIDS certification
• Successfully complete the 45 hour clinical experience

Prerequisites include: demonstrated proficiency in math, reading, English, and basic keyboarding skills.

Offered Every Quarter Credits
HLSV 131 Nursing Assistant Certification ................. 9
HLSV 132 Nurse Delegation, Diabetes ..................... 2
HLSV 133 Mental Health ........................................... 1
HLSV 134 Dementia .................................................. 1
H R 110 Human Relations-Workplace ..................... 5

Prerequisites include: demonstrated proficiency in math, reading, English, and basic keyboarding skills.
The RN nursing program at Centralia College is designed to prepare men and women to give nursing care in a variety of health care settings. Students who complete the RN program are eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN). In addition to preparing a student to compete for employment in the nursing profession, the AAS-T degree provides science and general education courses appropriate for students planning a future transfer directly into selected Bachelor of Science in Nursing (BSN) programs.

A maximum of 24 students are selected each year for the RN program. RN students must apply for admission to the program. Students wishing to enter the RN program must meet all of the prerequisite courses, grade point average requirements, and have Nurse Aide Certification in Washington State. Complete RN admission application materials are available through the Centralia College Office of Admissions & Records. Applications are due in April; course completed through spring quarter will be considered. (Subject to change.)

If you are admitted to the RN program, you must then provide consent forms and immunization records to the Nursing Director and attend a mandatory orientation session. Before beginning clinicals, Nationwide and Washington State specific background checks will be obtained. This includes a criminal records check required by clinical facilities in order to be at those clinical sites. You also must show proof of current Basic Life Support (BLS) for Health Care Providers (HCP).

**PROGRAM OUTCOMES:** Students who successfully complete this program should be able to meet the Program Objectives (identified in the Student Faculty Handbook) associated with Swanson’s Caring Theory:

- **Maintaining Belief** – Provides patient-centered care to facilitate spiritual, mental and physical health with sensitivity and respect for the diversity of the human experience.
- **Knowing** – Uses clinical judgement and evidence-based practice as the basis for decision making in the provision of safe, comprehensive patient-centered care.
- **Being With** – Practices compassionate, competent, holistic, high quality patient-centered care in all situations.
- **Doing For** – Uses critical thinking to promote holistic health while performing technical skills in an efficient, competent manner.
- **Enabling/Informing** – Coordinates, collaborates and communicates with diverse patient populations, families and interdisciplinary health care teams to plan, deliver and evaluate care which promotes quality of life and empowers the patient through education.

**NURSING – REGISTERED**

**MAJOR:** Nursing

**DEGREE:** Associate in Applied Science – Transfer

**PURPOSE:** The RN nursing program at Centralia College is designed to prepare men and women to give nursing care in a variety of health care settings. Students who complete the RN program are eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN). In addition to preparing a student to compete for employment in the nursing profession, the AAS-T degree provides science and general education courses appropriate for students planning a future transfer directly into selected Bachelor of Science in Nursing (BSN) programs.

A maximum of 24 students are selected each year for the RN program. RN students must apply for admission to the program. PHLEBOTOMY

EMPHASIS: Phlebotomy

DEGREE: Certificate of Proficiency

TOTAL CREDITS: 43

CLASS TYPE: Lecture, Lab

PURPOSE: Laboratory procedures and regulation as set forth by federal standards will be the focus of this program. Students will be taught how to perform clinical laboratory testing that is within their scope of practice. Phlebotomy training will be a major emphasis in this program with hands on practice and dexterity for successful and safe venipuncture. Other common lab tests performed in clinical settings will be learned.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

• Competently collect blood via venipuncture, syringe, butterfly and arterial draws as well as other biological specimens and substances.
• Recognize the legal and ethical standards in the laboratory setting.
• Understand factors that can affect procedures and results of specimen testing.
• Know laboratory safety and take appropriate actions on safety.
• Display professionalism and interpersonal skills with patients, laboratory personnel as well as other health care providers.
• Recognize the responsibilities of a phlebotomist in the working laboratory.

NOTE: MATH 096 is the prerequisite to MA 130 Medical Math unless ACCUPLACER Next Generation score places student directly into college level math.

Students must receive a 2.5 GPA or higher in PHLE 132 Advanced Phlebotomy to receive a certificate in the program.

Recommended elective: PSYC& 200
PHLEBOTOMY

EMPHASIS: Phlebotomy for Healthcare Workers  
DEGREE: Certificate of Completion  
TOTAL CREDITS: 13  
CLASS TYPE: Lecture, Lab

PURPOSE: This certificate is for existing healthcare workers desiring certification in Phlebotomy. Laboratory procedures and regulations as set forth by federal standards will be the focus of this course. Students will be taught how to perform clinical laboratory testing that is within their scope of practice. Phlebotomy training will be a major emphasis in this program with hands on practice and dexterity for successful and safe venipuncture. Other common lab tests performed in clinical settings will be learned.

PROGRAM OUTCOMES: Students who successfully complete this program should be able to demonstrate the following:

- Competency in collecting blood via venipuncture, syringe and butterfly draws as well as other biological specimens and other substances.
- Recognize the legal and ethical standards in the laboratory setting.
- Understand factors that can affect procedures and results of specimen testing.
- Know laboratory safety and take appropriate actions on safety.
- Display professionalism and interpersonal skills with patients, laboratory personnel as well as other health care providers.
- Recognize the responsibilities of a phlebotomist in the working laboratory.

Prerequisite: Healthcare provider license, MA, RN, NA-C or instructor permission.

*Students must receive a 2.5 or higher in PHLE 132 Advanced Phlebotomy to receive a certificate in the program.

PHYSICS

EMPHASIS: Physics
DEGREE: Associate in Science

PURPOSE: The Associate in Science, Track 2, with an emphasis in physics is designed for students transferring to a four-year college or university to complete a degree in physics.

If you are not well prepared in high school mathematics and science, you should plan, with your advisor, a three-year program at Centralia College in preparation for transfer to a four-year college or university.

The emphasis in the first year at Centralia should be on strengthening skills in mathematics, basic sciences, communications, and reading.

Suggested Order of Classes

A minimum of 15 credits in Humanities and Social Science are required. See Associate in Science Degree description.
PRE-CHIROPRACTIC

PRE-PHYSICAL THERAPY

EMPHASIS: Pre-Chiropractic, Pre-Physical Therapy

DEGREE: Associate in Science

PURPOSE: The Pre-Chiropractic, Pre-Physical Therapy program is intended for persons who plan to pursue a professional career in chiropractic or physical therapy.

The plan of study presents a challenging blend of natural and physical sciences and can be tailored to meet individual needs. If you complete the courses recommended, you are reasonably assured of being able to transfer with junior standing to most colleges and universities in Washington State. Students interested in physical therapy should be aware that a master's degree is required for entry into professional practice. You are urged to consult with your advisor as you plan your curriculum and select electives. This will allow your advisor to coordinate your program with the requirements of the institution to which you expect to transfer.

- PHYS& 221, 222, 223 Engineering Physics I-III
PRE-DENTAL HYGIENE

Degree: Associate in Arts

Purpose: The Pre-Dental Hygiene program provides appropriate science and general education courses for persons transferring to either a two- or four-year dental hygiene program. You may prepare for the program by completing high school chemistry, biology, and algebra or BIOL& 100 and MATH 098. Since there may be differences in prerequisites or curricula for dental hygiene programs at various colleges, you need to contact your advisor or the institution to which you will apply for specific details.

You may also be required to complete the Dental Hygiene Aptitude Test. Your advisor will help you set an educational plan to complete this program of study.

Suggested Order of Classes

Fall Quarter, First Year Credits
CHEM& 121 Introduction to Chemistry ................. 5
ENGL& 101 English Composition I ..................... 5
MATH& 107 Math in Society ............................. 5
MATH& 146 Introduction to Statistics ............... OR 15

BIOL& 260 Microbiology .................................. 5
HLTH 145 Safety & Fitness .............................. 3
Diversity Elective ........................................ 5
Elective .................................................. 3-5

16-18

It is strongly recommended that students confer with an advisor at their potential transfer institution to determine the courses that best support or may be prerequisites for their program.

Not all transfer institutions require an AA degree. Students should check their transfer institutions to determine their specific program requirements.

BIOL 243, although not required, is strongly recommended.
**PURPOSE:** The Pre-Medicine, Pre-Dentistry program is intended for persons who wish to prepare for a career in a medical profession. Medical schools do not give higher priority to a given major field of study when selecting candidates.

You are therefore encouraged to formulate a program of study which is scholastically challenging and which can be the basis for a future career or for graduate study in the event you are not admitted to a medical school. The program outlined below provides a solid foundation in the natural and physical sciences. If you complete this program of study, you are reasonably assured of being able to transfer with junior standing to most four-year colleges and universities in Washington State.

Consult with an advisor as you plan your curriculum and select electives. This will allow you to coordinate your program with the requirements of your intended major at the institution to which you expect to transfer.

### Science electives:

- BIOL& 221, 222, 223 Majors;
- BIOL& 241, 242, 243 Human A & P w/Lab I-III;
- BIOL& 260 Microbiology;
- CHEM& 261, 262, 263 Organic Chemistry w/Lab I-III;
- PHYS& 221, 222, 223 Engineering Physics I-III

* Some baccalaureate institutions require physics with calculus. Biology majors should select Organic Chemistry or Physics for second year sequence.
PRE-NURSING

EMPHASIS: Pre-Nursing
DEGREE: Associate in Pre-Nursing – DTA/MRP

PURPOSE: The Associate in Arts degree with Pre-Nursing emphasis is designed for students who intend to pursue a Bachelor of Science in Nursing (BSN) degree from a baccalaureate institution. The educational plan provides courses identified by both public and private colleges and universities to prepare students for further study in the field of nursing. Admission to all nursing programs in Washington State is highly competitive. Completing this program of study will prepare students to transfer with junior standing to most four-year colleges and universities in Washington State but does NOT guarantee admission to the Nursing program.

Students are urged to consult an advisor and refer to admission requirements for individual baccalaureate institutions for specific requirements and admission criteria.

PSYCHOLOGY

EMPHASIS: Psychology
DEGREE: Associate in Arts

PURPOSE: The Associate in Arts with an emphasis in psychology is for students interested in transferring to a four-year institution. This educational plan addresses issues of human behavior and thought, provides the opportunity to gain fuller understanding of one's self and others, and develops skills in human relations, communication, research, and analysis.

Emphasis in psychology provides preparation for a variety of careers, and will benefit students majoring in education, nursing, physical and occupational therapy, business, law, medicine, or other disciplines which deal with people. Consult with psychology faculty for additional information.

Psychology majors are encouraged to develop a broad base in the social sciences.
PURPOSE: The AA degree with Sociology emphasis provides a better understanding of what makes people behave the way they do. The focus is on the kinds of groups that people create and on specific interactions that take place as part of the basic social processes. How group activities influence individual members are also analyzed.

By following this sociology program, students gain an adequate foundation to transfer to a four-year college or university. See the sociology faculty advisor for details.

WELDING

EMPHASIS: Welding Technology
DEGREE: Associate in Applied Science
TOTAL CREDITS: 104
CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The Welding Technology program prepares students to compete for employment as an entry-level welder in building trades, ship building, structural fabrication, automatic and semiautomatic welding, and in maintenance welding.

The Welding Technology AAS program prepares students for advanced welding skills in FCAW (Flux Cored Arc), GTAW (TIG), GMAW (MIG), and SMAW (stick) welding. Students will have the opportunity to gain WABO Welding Certification.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Follow industry safety practices and recognize the effects of welding on health.
- Set-up and adjust SMAW, GMAW, FCAW, GTAW, and oxy-fuel equipment and accessories.
- Apply principles and welding design practices to welding fabrication and inspection.
- Identify and make repairs to finished welds.
- Interpret information on welding blueprints.
- Apply principles of Metallurgy to welding fabrication and inspection.
- Develop basic computer aided drafting skills.
- Perform 3-G and 4-G AWS - WABO welding code qualification tests.

Suggested Order of Classes

Fall Quarter, First Year  Credits
IT  117  Introduction to Windows OS ..................3
WELD 161  SMAW Welding ..................................12
WELD 167  Metallurgy for Welders ..........................3
Pre-college Math ............................................(if needed) 18

NOTE: GPA of 2.0 or higher is required in any previous WELD classes to continue enrollment each quarter.

Winter Quarter, First Year  Credits
CAD 115  CAD for Industry ..................................3
TMath 116  Industrial Math .................................5
WELD 164  GMAW Welding ..................................12
  20

Spring Quarter, First Year  Credits
DET 166  Shop Skills .........................................3
WELD 159  Oxyfuel & GTAW .............................12
WRT 105  Writing in the Workplace .......................5
  20

Fall Quarter, Second Year  Credits
WELD 265  Advanced Arc Welding .....................12
WELD 271  Blueprint Reading ...........................3
  15

Winter Quarter, Second Year  Credits
WELD 267  Advanced Gas Shielded Arc Welding ....12
HR 110  Human Relations-Workplace .................5
  17

Spring Quarter, Second Year  Credits
HLTH 145  Safety & Fitness .............................3
WELD 269  Advanced Fabrication .......................11
  14
WELDING

EMPHASIS: Welding Technology (4-quarter program)

DEGREE: Certificate of Proficiency

TOTAL CREDITS: 78

CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The Welding Certificate of Proficiency program prepares students for advanced welding skills in FCAW (Flux Cored Arc), GTAW (TIG), GMAW (MIG) and SMAW (stick) welding. Students will have the opportunity to gain WABO Welding Certification.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:

- Follow industry safety practices and recognize the effects of welding on health.
- Set-up and adjust SMAW, GMAW, FCAW, GTAW, and oxy-fuel equipment and accessories.
- Apply principles and welding design practices to welding fabrication and inspection.
- Identify and make repairs on finished welds.
- Interpret information on welding blueprints.
- Apply the principles of Metallurgy to welding fabrication and inspection.
- Develop basic computer aided drafting skills.
- Perform 3-G and 4-G AWS –WABO welding code qualification tests.

WELDING

EMPHASIS: Welding (Evening)
DEGREE: Certificate of Completion
TOTAL CREDITS: 20
CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: Students who complete the following 20 credits will be awarded a certificate of completion in Welding Fundamentals (this certificate can be completed entirely in the evening). These courses will be offered in the evening every fall, winter, and spring quarters.

PROGRAM OUTCOMES: Students who successfully complete this program will have demonstrated the ability to:
• Follow industry safety practices and recognize the effects of welding on health.
• Set-up and adjust SMAW, GMAW, FCAW, GTAW, and oxy-fuel equipment and accessories.
• Identify and make repairs to finished welds.
• Perform 3-G and 4-G AWS-WABO welding code qualification tests.

Fall Quarter, First Year (choose one of the following)  Credits
WELD 180  Oxyfuel & GTAW ...........................................5
WELD 181  Shielded Metal Arc Welding ............................5
WELD 182  Gas Metal Arc Welding .................................5
WELD 285  Arc Welding Certification ..................5

Winter Quarter (choose one of the following)
WELD 180  Oxyfuel & GTAW ...........................................5
WELD 181  Shielded Metal Arc Welding ............................5
WELD 182  Gas Metal Arc Welding .................................5
WELD 285  Arc Welding Certification ..................5

Spring Quarter (choose one of the following)
WELD 180  Oxyacetylene and GTAW .......................5
WELD 181  Shielded Metal Arc Welding ............................5
WELD 182  Gas Metal Arc Welding .................................5
WELD 285  Arc Welding Certification ..................5

Summer Quarter (choose one of the following)
WELD 180  Oxyacetylene and GTAW .......................5
WELD 181  Shielded Metal Arc Welding ............................5
WELD 182  Gas Metal Arc Welding .................................5
WELD 285  Arc Welding Certification ..................5

When students complete WELD 180, 181, 182, 285 for a total of 20 credits, they will receive a certificate of completion.
WHAT IS A BACHELOR OF APPLIED SCIENCE (BAS) DEGREE?
A traditional bachelor degree requires general education classes from many disciplines and is designed to provide students a wide base of knowledge, allowing them to concentrate their education in the third or fourth year of their education. A BAS degree gives students the chance to focus their education on their specific educational and career goals early within your education and incorporates more practical and concentrated hands-on learning in a specific industry or the career of their choice.

- The Bachelor of Applied Science in Applied Management (BAS-AM)
- The Bachelor of Applied Science in Diesel Technology (BAS-DT)
- The Bachelor of Applied Science in Information Technology: Applications Development (BAS-IT: AD)
- The Bachelor of Applied Science in Teacher Education (BAS-TE)

STEPS TO APPLY TO A BACHELOR OF APPLIED SCIENCE PROGRAM
1. Review the entrance requirements for the desired program. Refer to https://www.centralia.edu/academics/bachelors/default.aspx website for a complete list of entrance requirements.
2. Complete and submit the application materials for the desired program within the date for priority registration.

ADVISING
Students accepted into a bachelor program will receive quarterly advising from the faculty advisor.

REGISTRATION
Students accepted into a BAS Program will be provided registration information quarterly by the faculty advisor. In most cases, registration for 300 and 400 level courses is restricted to students accepted into a BAS Program.

TUITION

FINANCIAL AID & SCHOLARSHIPS
Please see page 14-15 of the catalog for information on applying for financial aid and scholarships.

MINIMUM CENTRALIA COLLEGE CONTENT
To be eligible for the awarding of a degree, BAS students must complete a minimum of 30 credits of BAS coursework at Centralia College and that coursework must include any of the BAS capstone courses.
MINIMUM GRADE
The student must achieve a grade of 2.0 or better in each of the upper division courses that comprise the BAS program. No credit is given for any grade lower than 2.0, and if the course is a prerequisite for another BAS course, that prerequisite is not met. A student who earns a grade lower than 2.0 in a BAS course may repeat that course only once. A student who earns grades lower than 2.0 in two or more courses is subject to removal from the program. The Dean of the BAS Program in consultation with the VP Instruction will determine the feasibility of a student repeating more than one BAS course due to a grade less than 2.0.

BAS COURSE ENROLLMENT BY NON-MATRICULATED STUDENTS
The BAS programs are designed for student cohorts who are committed to the attainment of the Bachelor of Applied Science degree. Non-matriculated students may be enrolled in specific courses on a space available basis at the discretion of the respective faculty member and with the concurrence of the BAS Program. Non-matriculated students must meet all of the normal BAS entrance requirements with the exception of the requirement to have an associate degree. Centralia College will consider non-matriculated students for enrollment in 300/400 level courses including:

- Community members employed in the occupation who could benefit from the specific course as an educational or skills upgrade.
- Students with deferred admission status.
- Students seeking future admission interested in trying an upper division course before applying to the program.
- Students in related lower division programs who use the 300 or 400 level courses as electives or substitutes for required courses in the associate degree.

The Bachelor of Applied Science in Applied Management (BAS-AM) degree is designed to provide a rigorous educational experience that fulfills the program's mission.

The mission is to ensure that graduates of the Centralia College Bachelor of Applied Science in Applied Management degree program will have the qualifications for entry into or promotion into management positions in a wide range of business or industries. Graduates will acquire skills to improve the success of small business or entrepreneurial ventures.

Centralia College's Bachelor of Applied Science in Applied Management (BAS-AM) builds on an existing Associate in Arts, Associate in Applied Science, or Associate in Applied Science-Transfer adding upper division coursework to complete a four-year degree. Applicants are accepted for the fall quarter of each year. The BAS-AM operates as a cohort-based program with all students starting in fall quarter and completing the program in two years (six quarters).

The BAS-AM degree program is designed to meet employment needs of the Centralia College service area and to provide program graduates the knowledge and skills needed to move into or advance in management and supervisory positions as well as to become entrepreneurs.

Evening classes are conducted using the hybrid modality with each class meeting on campus for one two-hour period. Classes are on Tuesdays from 5-7 p.m., 7-9 p.m. and Thursdays from 6-8 p.m. The balance of the work is online. Day classes are conducted in the traditional face-to-face modality with each class meeting on campus for five one-hour periods. Classes are Monday through Friday from 9-9:50 a.m., 10-10:50 a.m. and 11-11:50 a.m. There may be an online component to the classes.

Admission into the BAS-AM program is competitive and merit based. Meeting the minimum entrance requirements does not guarantee admission as the number of qualified applicants may exceed the number of available enrollment spaces. In order to be placed into the admissions pool, applicants must complete or submit the following:

- All BAS application materials
- An earned associate or higher degree from a regionally accredited college or university with a minimum cumulative GPA of 2.5.

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two-year degree or be completed during the bachelor's program in addition to the required courses. Students who have completed the requirements at the time of application will receive preferred entrance consideration.

- English 101 – English Composition (5 credits).
- English 102 - Composition II (5 credits) or English 235 Technical Writing (5 credits)
- College-level math course for which intermediate algebra is a prerequisite (5 credits).
- Natural Science course (5 credits).
- Five additional general education requirements.
- ACCT& 201, 202 – Principles of Accounting I & II (prerequisites for ACCT 301, 302, 401, 402, 403)
GENERAL EDUCATION REQUIREMENTS:
Foundation Coursework from Associate Degree
• ENGL& 101 English Composition
• Social Science course
• College-Level Math with prerequisite of intermediate algebra
• Physical, biological or earth science (lab course)
• Five additional credits in general education in one of the above distribution areas is required for admission

BAS-AM GENERAL EDUCATION COURSEWORK
• CMST 330 Professional & Organizational Communication
• HUM 315 Ethics
• MGMT 325 Legal Issues
• PSYC 320 Leadership and Organizational Behavior
• ECON 305 Managerial Economics
• MATH 350 Managerial Statistics
• ENVS 440 Environmental Issues

MANAGEMENT CORE COURSEWORK
• MGMT 300 Foundations of Management
• MGMT 340 Applied Financial Management
• MGMT 370 Practicum in Management
• MGMT 420 Management of Human Resources
• MGMT 470 Management Internship
• MGMT 490 Strategic Management

BAS ELECTIVES (MUST TAKE 5)
• ACCT 310 Accounting Principles for Managers
• ACCT 401 Governmental Accounting*
• MGMT 380 Marketing for Managers
• ACCT 402 Audit & Fraud*
• MGMT 360 Business Principles, Planning & Strategies
• ACCT 301 Intermediate Accounting I*
• MGMT 410 Project Management Application
• ACCT 302 Intermediate Accounting II*
• MGMT 435 Operations Management
• ACCT 403 Federal Taxation Issues*

* Prerequisite ACCT& 201 and 202.
APPLIED MANAGEMENT (BAS-AM) PROGRAM
OF STUDY

**Emphasis:** Applied Management  
**DEGREE:** Bachelor of Applied Science  
**TOTAL CREDITS:** 90  
**CLASS TYPE:** Lecture, Lab, Hybrid

**PURPOSE:** The program is designed to provide a rigorous educational experience to graduate individuals who are well-grounded in management knowledge and ethical values, who possess the requisite skills in communications, teamwork, and business fundamentals, and who are ready to provide leadership and effective decision-making to both existing and startup organizations.

**PROGRAM OUTCOMES:** Students who successfully complete the Bachelor of Applied Science Applied Management Program will have demonstrated the ability to accomplish the following:

**COMMUNICATION SKILLS**  
Recognize communications issues and be able to employ effective oral, written, and analytical communication appropriate to organizational settings including personnel situations and in large and small group discussions.

**DECISION-MAKING**  
Understand the differences in decision-making strategies and when to use various approaches. This includes the application of analytical tools, quality information systems. Design evaluation strategies that foster continuous improvement.

**DIVERSITY**  
Be able to articulate the key laws, ethical aspects, regulations and benefits associated with diverse populations. Analyze workplace scenarios and understand how the move from accommodation, to inclusion, to aggressive recruitment can create competitive advantages.

**FINANCE AND ANALYSIS**  
Design statistical models and apply data analysis techniques to the decision-making process. Utilize financial information, recognizing the reliability and accuracy of various sources, and managerial accountings tools to develop and analyze capital and operating budgets and understand various financing options to best meet organizational needs.

**GLOBAL PERSPECTIVES**  
Be able to apply a global perspective to recognize and understand what is required to mitigate and manage the impacts of global currency differences and fluctuations as related to the purchase of raw materials and commodities or the sale of products to offshore customers. Understand the implications of doing business across legal and cultural boundaries.

**LEADERSHIP AND MANAGEMENT**  
Understand the difference between management and leadership, the variety of styles and roles and when they are best used as well as knowing how to work collaboratively in a team setting and how to create and manage productive teams. Recognize the value of diversity and community in business ventures.

**LEGAL ISSUES AND ETHICS**  
Understand the difference between the law and ethics which includes articulating a personal ethical philosophy and the application to the workplace, especially with regard to human resource issues. Evaluate the impact of state and federal laws on organizational practices and management scenarios.

**OPERATIONS MANAGEMENT**  
Know how to apply marketing principles and current technologies, including the development of marketing plans, to deliver goods and services with increasing levels of quality, efficiency and customer satisfaction to maximize the return from operations management.

**STRATEGIC MANAGEMENT**  
Be able to move from the theoretical understanding of how market, local, national and global issues impact strategic management of an organization which includes the ability to develop an actionable strategic plan with appropriate contingencies for an organization. Apply project management concepts to develop, manage and track a project.

**TAX AND AUDIT**  
Know how to report financial performance in accordance with accounting principles required in tax, commercial, or government conceptual frameworks. Be able to apply audit procedures necessary in creating reasonable assurance as it pertains to financial performance presentation.
The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two year degree or be completed during the bachelor’s program in addition to the required courses. Students who have completed the requirements at the time of application will receive preferred entrance consideration.

* Course has a prerequisite

** Must meet GUR’s (General University Requirements / Distribution Requirements) as listed under the Associate in Arts Degree (DTA).

*** The accounting concentration includes the following electives:

- ACCT 301 Intermediate Accounting I
- ACCT 302 Intermediate Accounting II
- ACCT 401 Governmental Accounting
- ACCT 402 Audit & Fraud
- ACCT 403 Federal Taxation Issues

Students should work with their advisor to determine the appropriate electives to meet their career goals.
BACHELOR OF APPLIED SCIENCE IN DIESEL TECHNOLOGY (BAS-DT)

Admission into the BAS-DT program is merit-based. Meeting the minimum entrance requirements does not guarantee admission as the number of qualified applicants may exceed the number of available enrollment spaces. In order to be placed into the admissions pool, applicants must complete or submit the following:

- BAS application materials and
- Proof of an earned associate degree in diesel technology, diesel mechanics, OR equivalent degree and transcripts approved by BAS administration from a regionally accredited college or university with a minimum cumulative GPA of 2.5

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two-year degree or be completed during the bachelor’s program in addition to the required courses.

GENERAL EDUCATION REQUIREMENTS

Communications (10 credits)
- Elective

Humanities (10 credits)
- CMST& 30 Professional & Organizational Communication
- HUM 315 Ethics

Social Science (10 credits)
- Elective

Mathematics (5 credits)
- MATH college-level math with prerequisite of intermediate algebra

Natural Science (10 credits)
- Elective
- DET 325 Material Science of Fluids

Distribution Electives (C)(H)(SS)(M)(NS) (15 credits)
- Elective
- Elective
- Elective

Foundation Coursework from Associate Degree Diesel Core Coursework
- DET 300 Applied Management
- DET 320 Emissions Control
- DET 335 Regulatory Issues
- DET 345 Metalwork and Fabrication
- DET 355 Hybrid Drives Electric/Hydraulic
- DET 365 Internship
- DET 415 Electrical III
- DET 430 Shop/Fleet Management
- DET 435 Hydraulics II
- DET 445 Combustion Engine Fuels
- DET 455 Applied Failure Analysis
- DET 465 Power Generation Systems
The Bachelor of Applied Science in Diesel Technology (BAS-DT) program is designed to provide a rigorous educational experience to graduate individuals who are trained in advanced diesel technologies, and are well-grounded in management knowledge, who possess the requisite skills in leadership, communication, teamwork, and ethical values to progress to senior technological positions or to enter their employer’s management development programs.

PROGRAM OUTCOMES: Students who successfully complete the Bachelor of Applied Science Diesel Technology Program will have demonstrated the ability to:

Technical
- **Analysis and devaluation of data** – Analyze and evaluate data collected from component failures, hydraulic systems, and complex electrical circuits.
- **Professional interactions** – Interact appropriately and professionally with customers and employees.
- **Complex system operations** – Explain the operation of complex systems including: computerized engine and transmission controls used for fuel efficiency and emissions control; regenerative hybrid technologies used to capture energy; multi-fuel technologies to save fuel costs.
- **Theory application** – Apply theories and skills taught in the classroom in a shop environment.
- **Shop procedures** – Create shop procedures that reflect industry standards and maintain compliance with regulations set by governing agencies.
- **Fluids analysis** – Apply the principles of tribology in the analysis of engine efficiency, life, and maintenance costs.
- **Analysis of failure modes** – Analyze test results from oil, coolant, fuel, or emissions analysis systems.

Managerial
- **Policies and Practices** – Implement the practices, policies, and leadership to efficiently operate a fleet or repair facility.
- **HR management and ethical principles** – Apply fundamental principles of human resource management and ethics.
- **Communications** – Employ effective oral, written, and analytical communication appropriate to organizational settings including personnel situations and in large group discussions.
- **Leadership styles** – Distinguish between management and leadership, and differentiate among the varieties of styles and roles of management and be able to identify the most roles of management and be able to identify the most appropriate in a given situation.
- **Use of teams** – Create, manage, and participate effectively in teams.

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two year degree or be completed during the bachelor’s program in addition to the required courses. Students who have completed the requirements at the time of application will receive preferred entrance consideration.

* Course has a prerequisite.
** Must meet GUR’s (General University Requirements/Distribution Requirements) as listed under the Associate in Arts Degree (DTA).
Admission into the BAS-IT: AD program is merit-based. Meeting the minimum entrance requirements does not guarantee admission as the number of qualified applicants may exceed the number of available enrollment spaces. In order to be placed into the admissions pool, applicants must complete or submit the following:

- All BAS application materials
- Proof of an earned associate degree in computer science or information technology, OR an equivalent degree and transcripts approved by BAS administration from a regionally accredited college or university with a minimum cumulative grade point average (GPA) of 2.5
- Proof of completing 10 or more lower division credits in current programming languages.

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two-year degree or be completed during the bachelor’s program in addition to the required courses.

GENERAL EDUCATION REQUIREMENTS:

**Communications (10 credits)**

- Elective ............................................................... 5
- Elective ............................................................... 5

**Humanities (10 credits)**

- CMST 330 Professional & Organizational Communication ........................................... 5
- HUM 315 Ethics .................................................. 5

**Social Science (10 credits)**

- Social Science Elective ........................................ 5
- Social Science Elective ........................................ 5

**Mathematics (15 credits)**

- MATH& 141 Pre-Calculus I ....................................... 5
- MATH& 146 Introduction to Statistics ........................ 5
- MATH 228 Discrete Mathematics ............................ 5

**Natural Science (10 credits)**

- Natural Science Elective w/Lab ............................. 5
- Natural Science Elective ......................................... 5

**Distribution Elective (C)(H)(SS)(M)(NS) (5 credits)**

- Elective ............................................................... 5

Five additional general education credits in one of the above areas

**Foundation Coursework from Associate Degree IT: Application Development Core Coursework**

- IT 310 Advanced Web Applications
- IT 320 Development Methodologies
- IT 330 Software Engineering I
- IT 340 Software Engineering II
- IT 350 Advanced Databases
- IT 410 Advanced Data Access Techniques
- IT 420 Business Intelligence Application
- IT 430 Information Security for Developers
- IT 440 Internship 1
- IT 450 Internship 2
- IT 460 BAS-IT: AD Capstone
INFORMATION TECHNOLOGY:
APPLICATION DEVELOPMENT
PROGRAM OF STUDY

MAJOR: Application Development
DEGREE: Bachelor of Applied Science
TOTAL CREDITS: 90
CLASS TYPE: Lecture, Lab, Hybrid

PURPOSE: The Bachelor of Applied Science Information Technology: Application Development (BAS-IT:AD) program is designed to ensure graduates have a strong technical foundation in application and software development and will be prepared to work in teams, manage IT projects, and prepare software documentation.

PROGRAM OUTCOMES:
- Develop efficient code following best practices in data design and software development
- Communicate effectively with stakeholders
- Demonstrated ability to troubleshoot and problem-solve defect from identification to resolution
- Write and present technical documentation
- Project management skills, such as estimating work effort, assessing risk, analyzing data, and defining project scope
- Perform software assurance activities

Admission into the BAS-IT: AD program is merit based. Meeting the minimum entrance requirements does not guarantee admission as the number of qualified applicants may exceed the number of amiable enrollment spaces. In order to be placed into the admissions pool, applicants must complete or submit the following:

Completion of the BAS application materials; proof of an earned associate’s or higher degree from a regionally accredited college or university with a minimum cumulative GPA of 2.5; and proof of completing 10 or more lower division credits in programming languages with a minimum 2.0 grade in each course.

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two year degree or be completed during the bachelor’s program in addition to the required courses.

REQUIRED COURSE SCHEDULE

Junior Year, Fall Quarter
- CMST 330 Professional & Organizational Communication ** (H)* .................................................. 5
- IT 301 App dev Fundamentals .................................................. 5
- Elective .................................................................................. 5

Junior Year, Winter Quarter
- IT 330 Software Engineering I ............................................. 5
- IT 350 Advanced Databases .................................................. 5
- MATH& 146 Introduction to Statistics** (M) .......................... 5

- Elective .................................................................................. 5

* Course has a prerequisite.
** Must meet GUR’s (General University Requirements/ Distribution Requirements) as listed under the Associate in Arts Degree (DTA).
BACHELOR OF APPLIED SCIENCE IN TEACHER EDUCATION (BAS-TE)

MAJOR: Teacher Education Elementary Education  
DEGREE: Bachelor of Applied Science  
TOTAL CREDITS: 113  
CLASS TYPE: Lecture, Lab, Hybrid, Online

PURPOSE: The Bachelor of Applied Science Teacher Education (BAS-TE) program is designed to graduate individuals who are well-grounded in education and training and are prepared to obtain initial teaching certification (K-8) in the state of Washington with a primary endorsements in special education and elementary education.

PROGRAM OUTCOMES:
• Communicate and collaborate effectively with children, parents/guardians, peers, administrators and the community
• Ensure cultural competence in teaching through adapting learner centered curricula that engage students in a variety of culturally responsive strategies.
• Recognize individual difference and learning styles and modify curricula and to meet the learners needs
• Design, facilitate, and evaluate age and developmental appropriate learning exercises for students in K-8 and special education.
• Develop standards-driven curricula and monitor student progress towards targets.
• Utilize the use of formal and informal assessment strategies to strengthen instruction and promote learning.
• Competently design and execute lessons rich in literacy, science, math, social studies and the arts.
• Generate strategies from multiple instructional approaches and differentiated instruction for all students.
• Foster positive, inclusive, learning settings in cognitive, behavior, language, physical and social domains to create a safe and productive learning environment.
• Integrate and model the use of technology in the classroom
• Utilize feedback and reflection to constantly improve teaching practices.

Admission into the BAS-TE program is merit based. Meeting the minimum entrance requirements does not guarantee admission as the number of qualified applicants may exceed the number of available enrollment spaces. In order to be placed into the admissions pool, applicants must complete and submit the following:
• All BAS application materials
• Evidence of an earned associate's degree or junior level status and transcripts approved by BAS administration from a regionally accredited college or university with a minimum cumulative GPA of 2.5.

Prerequisite courses include:
• ENGL& 101
• A college level math (5 credits – recommend MATH& 131)
• Three EDUC or ECED courses

The following courses must be completed prior to bachelor degree obtainment. The courses can be included in the two year degree or be completed during the bachelor's program. Students who have completed the requirements at the time of application will receive preferred entrance consideration. Some courses may not be eligible for Financial Aid in which case a student may apply for a scholarship or make a payment plan.

ENGL& 101 – English Composition I (5 credits)

Social Science – any 100 level or above course that carries Social Science (SS) distribution

Natural Science – any 100 level or above course that carries Natural Science (NS) distribution w/Lab

MATH& 141 – Pre-Calculus I (5 credits) OR MATH 118 Linear Algebra (5 credits) OR Math 128 Discrete Structures (5 credits)

Five additional credits in general education requirements.

ACCOUNTING

ACCT 110
Practical Accounting I (3)
Emphasizes fundamental principles of double-entry accounting as applied to bookkeeping systems. The course focuses on the development of the accounting cycle for small businesses and professional organizations.

ACCT 120
Practical Accounting II (3)
Accounting theory as applied to bookkeeping systems of small businesses and professional organizations. Focuses on accounting for payroll, merchandise sales and purchases, cash receipts and payments, preparation of the worksheet and annual financial statements. Prerequisite: ACCT 110.

ACCT 130
Basic Computer Accounting (3)
Accounting experience on a personal computer using QuickBooks Pro software. Reinforces procedures learned in ACCT 110 and 120 or ACCT & 201. Students use QuickBooks Pro software to record transactions, prepare financial statements, and payroll. Prerequisite: ACCT & 201 or ACCT 110 and 120.

ACCT 200
Financial Reporting (5)
This course emphasizes the fundamentals of double-entry accounting and the preparation of financial statements for business entities. Topics include, but are not limited to, accounting for assets, liabilities, equity, revenue and expenses. Prerequisite: compass minimum score of MATH 096 or evidenced score entrance equivalent.

ACCT & 201
Principles of Accounting I (AE) (5)
This course emphasizes fundamental principles of double-entry accounting and the preparation of financial statements for sole proprietorships. Prerequisite: MATH 098 or equivalent or instructor permission.

ACCT & 202
Principles of Accounting II (AE) (5)
This course emphasizes accounting for partnerships and corporations. Topics include, but are not limited to, accounting for fixed and intangible asset, payroll, stock, bonds, the statement of cash flows, and financial statement analysis. Prerequisite: ACCT & 201.

ACCT & 203
Principles of Accounting III (AE) (5)
This course emphasizes accounting for departments and branches, cost accounting in a manufacturing environment cost-volume-profit analysis, budget preparation and analysis, standard costs, segment reporting, differential costs and revenues, and capital budgeting decisions. Prerequisites: ACCT & 201 and 202 or ACCT 200.

ACCT 210
Introduction to Audit (5)
An introduction to the audit environment as it applies to the professional spectrum of financial accounting and reporting. Prerequisite: ACCT & 203.

ACCT 220
Acctg Info Systems (5)
The application of accounting information systems used in the computing environment. It is intended for the public bookkeeper managing transactional disposition of all accounts, developing financial statements, and maintaining external schedules. Prerequisite: ACCT 201 or instructor permission.

ACCT 240
Business Entity Tax (5)
This course focuses on the determination and disposition of taxation as it applies to business entities, as well as introducing elements of tax planning and research. Prerequisite: ACCT & 203.

ACCT 260
Individual Income Taxes (5)
Introductory course in taxation emphasizing the preparation of individual federal income tax returns. Course focuses on history, economics, social aspects, equity, and structure of the federal income tax laws of the United States. Prerequisite: ACCT 201.

ACCT 270
Payroll Accounting (3)
ACCT 270 is an introductory course covering aspects of the Fair Labor Standards Act, the Social Security Act, Federal Income Tax withholding laws, and other laws affecting payroll operations and employment practices. Prerequisite: ACCT & 201.

ACCT 285
Bookkeeper Cert. Course (5)
This is the capstone course for accounting students participating in the Associate of Technical Arts (ATA) program and culminating in the student candidacy of either the Certified Bookkeeper (CB), Registered Tax Return Preparer (RTRP), or both. Prerequisite: ACCT & 203, ACCT 240.

ACCT 301
Intermediate Accounting I (5)
The first installment of a two-part course designed to teach a professional level understanding of financial accounting and reporting as it applies to business entities both publicly traded and privately held. Prerequisite: ACCT & 202 or permission.

ACCT 302
Intermediate Acctg II (5)
The second installment of a two-part course designed to teach a professional level understanding of financial accounting and reporting as it applies to business entities both publicly traded and privately held. Prerequisite: ACCT 301 or permission.
ACCT 310
Accounting Principles for Mgrs (5)
Foundation course in accounting principles from a management perspective. Analyze the interrelationships of financial statements and cost behavior to measure and control the performance of a business entity, and make decisions based on this information.

ACCT 401
Governmental Accounting (5)
An accounting course as it applies to government and not-for-profit entities. The topics include fund management, budget preparation, presentation of both fund and government-wide financial statements, and not-for-profit entity financial performance. Prerequisite: ACCT& 202 or permission.

ACCT 402
Audit & Fraud (5)
This course is designed to teach the audit environment of professional financial accounting and reporting as it applies to fraud and internal controls. Prerequisite: ACCT& 202 or permission.

ACCT 403
Federal Taxation Issues (5)
The application of tax law and internal revenue code used to complete tax returns associated with not-for-profit entities, estates, and trusts. Prerequisite: ACCT& 202 or permission.

ADULT BASIC EDUCATION

ABE 018
ABE Integrated Level 1 (1-15)
Designed for students to learn and/or review beginning grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for passing of the GED exam. Prerequisite: CASAS appraisal score 200 and below.

ABE 020
Adult Basic Education Orientation (1-1)
Includes individual goal setting, an introduction to educational programs offered at CC, placement testing, advising, and educational planning. Prerequisite for all new students to the ABE/ESL programs.

ABE 021
Adult Basic Education Level II Reading (1-5)
Students will complete Level 2A reading competencies mandated by the Washington State Basic Skills Competency Indicators and CASAS assessment in lab, lecture/lab setting. Prerequisite: CASAS score of 200-210.

ABE 022
Adult Basic Education Level II Writing (1-5)
Class participants will build writing skills as a preparation for GED testing, more advanced writing classes, or family and work related goals. Emphasis is placed on identifying personal goals in writing, composing a variety of sentences and paragraphs, and applying these skills to life situations. Prerequisite: CASAS and/or TABE testing.

ABE 023
Adult Basic Education Level II Math (1-5)
Class participants will build basic math skills as a preparation for GED testing, more advanced math classes, or family and work related goals. Emphasis is placed on place value, estimating and averaging, and whole number operations in addition, subtraction, multiplication, and division. Application of operations in real-life word problems will be used to demonstrate competence. Prerequisite: CASAS and/or TABE testing.

ABE 028
ABE Integrated Level 2 (1-15)
Designed for students to learn and/or review beginning grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for passing of the GED exam. Prerequisite: CASAS appraisal score 201 to 210.

ABE 030
Life and Work Strategies (1-5)
A life and work skills overview for ABE students. Emphasis is placed on developing skills in learning to learn, communication, thinking, personal management, group effectiveness and leadership. Prerequisite: 2.0 or above on TABE Reading test.

ABE 031
Adult Basic Education Level III Reading (1-5)
Students will study Level 3 reading competencies mandated by the Washington State Basic Skills Competency Indicators and CASAS assessment in lab, lecture, or lecture/lab setting. Prerequisite: CASAS score of 211-220.

ABE 032
Adult Basic Education Level III Writing (1-5)
Class participants will build basic writing skills as a preparation for GED testing, more advanced writing classes, or family and work related goals. Emphasis is placed on identifying personal goals in writing, composing a variety of sentences and paragraphs, and applying these skills to life situations. Prerequisite: CASAS and/or TABE testing.

ABE 033
Adult Basic Education Level III Math (1-5)
Class participants will build basic math skills as a preparation for GED testing, more advanced math classes, or family and work related goals. Emphasis is placed on concepts and procedures to make an estimate, solve a problem, and/or carry out a task involving decimals and fractions. Prerequisite: CASAS and/or TABE testing.

ABE 036
ABE II Level 2 Writing (1)
This course is designed to meet the needs of adults whose English skills are between the fourth and seventh grade level. Assessment will determine each student’s starting level. This course is not designed to be completed within one quarter’s time span. Students will work only in those areas where they need assistance. Washington State Core Competencies including practical living applications will be emphasized. Prerequisite: successful completion of ABE 022 or placement score between 4.0 and 6.9 on TABE.
ABE 038
**ABE Integrated Level 3 (1-15)**
Designed for students to learn and/or review intermediate grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for passing of the GED exam. Prerequisite: CASAS appraisal score 211 to 220.

ABE 039
**Job Readiness (1-3)**
Students compare aptitudes, interests and skills against current job market. Emphasis is placed on resume development, job applications and the interview process. Prerequisite: 2.0 or above on the TABE reading test.

ABE 041
**Adult Basic Education Level IV Reading (1-5)**
Students will study Level 4 reading competencies mandated by the Washington State Basic Skills Competency Indicators and CASAS assessment in lab, lecture, or lecture/lab setting. Prerequisite: CASAS score of 221-235.

ABE 042
**Adult Basic Education Level IV Writing (1-5)**
Class participants will build basic math skills as a preparation for GED testing, more advanced writing classes, or family and work related goals. Emphasis is placed on writing narrative descriptions, short essays, and a variety of formal letters with consistent use of basic punctuation. Prerequisite: CASAS and/or TABE testing.

ABE 043
**Adult Basic Education Level IV Math (1-5)**
Class participants will build basic math skills as a preparation for GED testing, more advanced math classes, or family and work related goals. Emphasis is placed on mathematical concepts and procedures to make estimates, solve problems, and/or carry out tasks involving percent, ratio and proportion, simple formulas measurements, and tables and graphs. Prerequisite: CASAS and/or TABE testing.

ABE 046
**Written and Oral Communication (1-5)**
Class participants enhance written and oral communication skills through the introduction of basic skill development and introductory communication skills for the workplace. Prerequisite: CASAS testing with a minimum score of 210.

ABE 048
**ABE Integrated Level 4 (1-15)**
Designed for students to learn and/or review advanced grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for the GED exam. Prerequisite: CASAS appraisal score 221 to 235.

ABE 051
**Adult Basic Education Level V Reading (1-5)**
Students will study Level 5 reading competencies mandated by the Washington State Basic Skills Competency Indicators and CASAS assessment in lab, lecture, or lecture/lab setting. Prerequisite: CASAS score of 236-245.

ABE 052
**Adult Basic Education Level V Writing (1-5)**
Class participants will build writing skills as a preparation for GED testing. Emphasis is placed on advanced writing skills. Prerequisite: CASAS and/or TABE testing.

ABE 053
**Adult Basic Education Level V Math (1-5)**
Class participants use basic math skills as a preparation for GED testing. The use of computational skills to solve problems in a GED context is emphasized. Students are expected to have the ability to manipulate whole numbers, decimals and fractions. Basic algebra and geometry are introduced. Prerequisite: CASAS and/or TABE testing.

ABE 055
**GED Fast-Track Lab 1 (GHEC) (1-12)**
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within a short time frame based on DOC earliest release dates.

ABE 056
**GED Fast-Track Lab 2 (GHEC) (1-12)**
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within a short time frame based on DOC earliest release dates.

ABE 057
**GED Fast-Track Lab 3 (GHEC) (1-12)**
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within a short time frame based on DOC earliest release dates.

ABE 058
**ABE Integrated Level 5 (1-15)**
Designed for students to learn and/or review advanced grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for the GED exam. Prerequisite: CASAS appraisal score 236 to 245.

ABE 060
**Key Skills for Success (1-10)**
This course will provide students with targeted skills in areas that will ease their transition into academic and vocational courses or into employment and training. Targeted skills include coursework that addresses personal management, interpersonal communication, career information, college resources, computer basics and help for success within vocational content areas. The instruction in these areas is pre-academic or pre-vocational with the purpose of creating a bridge for students to traditional college courses and services. Prerequisite: CASAS testing.

ABE 061
**Adult Basic Education Level VI Reading (1-5)**
Students will study Level 6 reading competencies mandated by the Washington State Basic Skills Competency Indicators and CASAS assessment in lab, lecture, or lecture/lab setting. Prerequisite: CASAS score of 246+.
ABE 062
Adult Basic Education Level VI Writing (1-5)
Class participants will build writing skills as a preparation for GED testing. Emphasis is placed on advanced writing skills. Prerequisite: successful completion of any two GED tests.

ABE 063
Adult Basic Education Level VI Math (1-5)
Class participants use basic math skills as a preparation for GED testing. The use of computational skills to solve problems in a GED context is emphasized. Students are expected to have the ability to manipulate whole numbers, decimals and fractions. Basic algebra and geometry are introduced. Prerequisite: successful completion of any two GED tests.

ABE 065
GED On-Track Lab 1 (GHEC) (1-12)
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within no more than six months (maximum time to earliest release date). Prerequisite: CASAS pre-test score of 225 or higher.

ABE 066
GED On-Track Lab 2 (1-12)
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within no more than six months (maximum time to earliest release date). Prerequisite: CASAS pre-test score of 235 or higher.

ABE 067
GED On-Track Lab 3 (1-12)
Designed to maximize the opportunity for DOC inmates to pass some or all GED tests within no more than six months (maximum time to earliest release date). Prerequisite: one CASAS pre-test score of 245 or higher.

ABE 068
ABE Integrated Level 6 (1-15)
Designed for students to learn and/or review advanced grammar, punctuation, spelling, sentence structure, paragraph development, reading comprehension and math skills in preparation for the GED exam. Prerequisite: ABE 058, completion of 3 GED tests or CASAS 246-255.

ABE 071
Aural/Written Lang 3 (1-9)
In this Level 3 Aural/Written Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or valid CASAS score of 236-245.

ABE 074
Language Comprehension 3 (1-9)
In this Level 3 Language Comprehension course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or valid CASAS score of 236-245.

ABE 076
Language Comprehension 4 (1-9)
In this Level 4 Language Comprehension course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or valid CASAS score of 246-255.

ABE 085
Contemporary World Problems (1-5)
Designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking within the context of contemporary world problems.

ABE 086
Pacific NW History (1-5)
Designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking within the context of the U.S. and Northwest history.

ABE 087
US Government & Civics (1-5)
Designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking within the context of U.S. Civics.

ABE 088
US History (1-5)
Designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking within the context of U.S. and Northwest history.

ABE 089
Health and Nutrition (1-5)
A review of nutrition and a healthy diet to enhance one's overall health.

ABE 090
Health and Exercise (1-5)
A review of nutrition and exercise to enhance one's overall health.

ABE 092
Critical Reading/Writing (1-5)
Course is designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking.

ABE 093
Fine Arts (1-5)
Course is designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking through exploration of the arts.

ABE 094
Science Literacy (1-5)
Course is designed to improve analysis, synthesis, evaluation, and application of text reading, writing, and thinking through exploration of the general fields in science.
ABE 095  
**Occupational Education (1-5)**  
Course is designed to improve analysis, synthesis, evaluation, and application of text in reading, writing, and thinking through exploration and implementation of career choices.

ABE 096  
**Science Lit Laboratory (1-5)**  
Course is designed to improve analysis, synthesis, evaluation, and application of scientific material/procedure through reading, writing, and exploration—using scientific methodology and evaluation of data.

**ALLIED HEALTH CARE**

AHC 104  
**Patient Diversity: Cultural Competency in Health (3)**  
Help students understand and provide for the needs and beliefs of culturally diverse patients. Students address their own biases, beliefs, and assumptions; expectations of culturally diverse patients; and appropriate healthcare approaches for diverse patient populations.

AHC 107  
**Electronic Medical Records (3)**  
Provides an overview of medical records as legal documents. Topics include the make-up of an electronic medical record, charting methods, and retention and storage of records. Course includes computerized medical record work. Prerequisite: keyboarding skill, medical terminology.

AHC 152  
**Skill Development for Patient Education (3)**  
Build essential communication knowledge and skills with an added emphasis on situational changes. Prerequisite: AHC 151

AHC 153  
**Practicum in Patient Education Reproductive Systems (3)**  
Utilize client-centered patient education skills. Maintain a professional journal and be observed and evaluated in a professional setting. Prerequisite: AHC 152

AHC 160  
**Records Confidentiality - HIPAA (1)**  
Overview of general confidentiality considerations and specific rules of the 1966 HIPAA law for healthcare/mental health professions. Explains and illustrates the law, with extensive review of security/privacy of patient information and records.

AHC 161  
**HIV/AIDS Awareness (1)**  
Course includes epidemiology pathophysiology, risk behaviors, opportunistic diseases, and diagnostic tests. Transmission, prevention, and current treatment modalities are discussed.

**AMERICAN SIGN LANGUAGE**

ASL& 121  
**American Sign Language I (AE) (5)**  
An introductory course in American Sign Language (ASL). Topics covered include visual awareness, vocabulary, basic grammatical principles, comprehension skills, and the historical overview of the deaf community and its language.

ASL& 122  
**American Sign Language II (AE) (5)**  
Enables students to better use and comprehend ASL by building vocabulary, improving skills of signing, reading of signs, and understanding of the deaf community. Prerequisite: ASL& 121 or instructor permission.

ASL& 123  
**American Sign Language III (AE) (5)**  
An in-depth study of American Sign Language applications including conversation regulators, classifiers and locatives, directional verbs and cultural information. Prerequisite: ASL& 122.

ASL& 221  
**American Sign Language IV (5)**  
Express yourself using not only hands, but the whole body. Emphasizes the beauty of the language of signs; increasing flexibility, reducing inhibitions, and accuracy or expression of the concept as distinct from the words. Prerequisite: ASL& 123 or instructor permission.

**ANTHROPOLOGY**

ANTH& 100  
**Survey of Anthropology (D) (SS) (5)**  
Participate in a four-field approach to the study of the diversity of humans and human cultures. Explore subfields of anthropology: social/cultural anthropology, physical/biological anthropology, archaeology, and anthropological linguistics.

ANTH& 204  
**Archaeology (SS) (5)**  
An introductory course into the study of humankind and societies past as revealed through material culture remains. Archaeological theory, analysis, dating, excavation and lab techniques, as well as ethical guidelines are explored in detail.

ANTH& 205  
**Biological Anthropology (NS) (5)**  
Exploration of human biology, evolution, paleontology, taxonomy, primatology, genetics and human variation. A student cannot receive credit for both ANTH& 205 and ANTH& 215.

ANTH& 206  
**Cultural Anthropology (D) (SS) (5)**  
Explore the whole of the human social and cultural world by means of investigating other people’s beliefs and behaviors. Through a cross-cultural perspective we attempt to understand others in order to better learn about ourselves.
**ANTH& 210**
**Indians of North America (D) (SS) (5)**
Investigate cultural systems of beliefs, behaviors and technology practiced by native North American peoples. Learn about subsistence patterns, exchange and trading relationships, marriage and the family, political organization, the life cycle, religion, belief and knowledge.

**ANTH& 215**
**Bioanthropology w/Lab (NS) (5)**
Exploration of human biology, evolution, paleontology, taxonomy, primatology, genetics and human variation. A student cannot receive credit for both ANTH& 205 and ANTH& 215.

**ANTH 225**
**Cultural & Ethnic Pluralism (D) (SS) (5)**
Examine ethnicity, ethnic identity, and cultural characteristics of ethnic and social groups in North America and around the world. Understand the relationship between social organization and forms of social, economic, and political domination and subordination.

**ANTH 235**
**Myth, Ritual, and Magic (D) (SS) (5)**
An ethnographical overview of the supernatural beliefs of peoples and cultures. Attention is paid to various Anthropological and Sociological theories concerning the nature, cause(s), and source(s) of supernatural belief in world societies and cultures.

**ANTH& 236**
**Introduction to Forensic Anthropology (NS) (5)**
Students will explore forensic anthropology method and theory, forensic taphonomy theory and practice, research methods, and the processing, analysis, and identification of human remains.

**ANTH 260**
**Latin America Field Trip I (D) (5)**
Explore the culture(s) and language(s) of a specific region of Latin American through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

**ANTH 261**
**Latin America Field Trip II (D) (5)**
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

**ANTH 262**
**Latin America Field Trip III (D) (5)**
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

**ANTH 263**
**Latin America Field Trip IV (D) (5)**
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

**ART**

**ART& 100**
**Art Appreciation (H) (D) (5)**
Examine the nature of visual art, its role in society, and methods of creative expression. Provides an overview of art history, surveys contemporary artists, and introduces studio methods in a variety of media.

**ART 102**
**Drawing I (H) (5)**
An introduction to the fundamentals of drawing. Emphasis placed on exploration of materials, observational study and technique development. Lectures on historical and contemporary artists provide cultural context for student work. No prior drawing experience necessary.

**ART 103**
**Drawing II (5)**
Intermediate level study of the fundamentals of drawing: composition, technique and manipulation of materials, exploration of subject matter. Lectures on contemporary and historical artists support drawing labs. Prerequisite: ART 102 or instructor permission.

**ART 104**
**Drawing III (5)**
Advanced level study of the fundamentals of drawing: composition, technique and manipulation of materials, exploration of subject matter. Lectures on contemporary and historical artists support drawing labs. Prerequisite: ART 102, 103 or instructor permission.

**ART 106**
**Printmaking I (H) (5)**
An introduction into the studio methods of printmaking as well as its historical significance and contemporary applications. Create multiples of using various matrices including screen prints, etchings and relief prints.

**ART 110**
**2D Design (H) (5)**
Learn and utilize the principles of two-dimensional design and its application on a two-dimensional plane through lecture and studio practice.
ART 111  
Sculpture (AE) (4)  
An introduction to the fundamentals of three-dimensional design. Assignments include a variety of subject matter and materials. All are welcome.

ART 130  
Computer Graphics (H) (5)  
An overview of computer programs used to create images for print and screen, still and moving. Gain basic skills in design and programs by creating digital art work in a series of assignments.

ART 135  
Graphic Design Layout (H) (5)  
Problem solving in basic type and graphic design. A sequence of studio projects demonstrate students’ ability to create, design and prepare art for reproduction. Prerequisite: ART 130 or instructor permission.

ART 136  
Graphic Design II (5)  
Continued problem solving in basic graphic design. A sequence of studio projects demonstrates student’s ability to create, design and prepare art for reproduction. Lectures explore graphic design as an art form and as a business. Prerequisite: ART 135 or instructor permission.

ART 151  
Typography (5)  
This course covers the history of type, designing with type, reproduction of type. Type is the foundation for graphic design. Students will apply knowledge gained in a series of studio projects. Prerequisite: ART 110 or permission of instructor.

ART 160  
Introduction to Fibers (H) (5)  
An introduction to fiber art history and techniques with an emphasis on traditional, hand-manipulated processes such as basketry, felting, dyeing and simple loom work.

ART 174  
Digital Photography (H) (5)  
An introduction to digital photography as an expressive art form. Students will explore the creative and technical requirements of digital imaging, as well as examine the contributions of contemporary fine artists working in this medium. Prerequisite: basic computer experience required.

ART 190  
Cooperative Work Experience (1-12)  
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Attainment of learning objectives and development of positive work habits are emphasized. Prerequisite: instructor permission.

ART 200  
Art History: Ancient (D) (H) (5)  
A survey of the development of art in Europe, the Near East and Asia from prehistoric times through the 14th century CE. The course will explore developments in architecture, painting, sculpture and other art forms.

ART 201  
Art History: 15th-17th C (D) (H) (5)  
A survey of the development of art in Pre-Columbian America, Africa and 15th-17th century Europe. The course will explore developments in architecture, sculpture, painting and other art forms.

ART 202  
Art History: 18th-20th C (D) (H) (5)  
A survey of the history of art in 15th-20th century Asia and 18th-20th century Europe. Historical developments in architecture, sculpture, painting and other art forms will be examined.

ART 203  
History of American Art (H) (5)  
A survey of American painting, sculpture, and architecture from colonial times to the present.

ART 210  
Painting (AE) (4)  
A painting course which uses the nude human form as a point of departure for creating art. Students will experiment with a variety of materials and techniques.

ART 211  
Painting (AE) (4)  
A continuation of ART 210 with increased emphasis on development of individual styles.

ART 220  
3D Modeling & Animation (H) (5)  
An introduction to 3D modeling, sculpting, motion-graphics, material, rendering and animation. Provides students with knowledge and insights about animation and 3D processes. Prerequisite: ART 130 with 2.0 or higher or instructor permission.

ART 269  
Portfolio (3)  
Development and presentation of an individual portfolio which meets professional standards of excellence for job potential. Open to art and photography students. Prerequisite: Permission of instructor.

ASTRONOMY

ASTR 125  
The Solar System (NS) (3)  
Brief overview of the history and scope of astronomy, followed by a study of our own solar system including its sun, planets, moons, asteroids, and comets, and its origin. Some writing and computation is expected. Prerequisite: completion of MATH 098 with a 2.0 or above.
ASTR 126
Stars and Galaxies (NS) (3)
Introduction to the astronomy of stars and galaxies including nuclear processes, spectroscopy, stellar evolution, black holes, quasars, and an introduction to cosmology. Some writing and computation are expected.

ASTR 127
The Solar System & the Universe (NS) (5)
Brief overview of the history and scope of astronomy, followed by a systematic study of the solar system, stars, galaxies, and the universe. Prerequisite: one year HS algebra or MATH 098.

ASTR 128
Observational Astronomy (NS) (2)
Introduces the night sky as seen with the naked eye and a telescope. Lectures, labs, and observations provide astronomical concepts and hands on applications of these concepts. Transportation to Onalaska's Observatory is the student's responsibility.

BACHELOR APPLIED SCIENCE

MGMT 320
Leadership & Organizational Behavior (5)
Relate theory and research to organizational problems by reviewing advanced concepts in motivation, perception, leadership, decision-making, communication and influence, group behavior, diversity, conflict and cooperation, politics, corporate culture, organizational structure, and environmental influences.

MGMT 325
Legal Issues (5)
A core course concerning the impact of laws, regulations and legal responsibilities on management behavior with a focus on the application of this learning to real life situations for organizations both large and small.

MGMT 340
Applied Financial Mgmt (5)
Managerial finance. Case studies are used to explore topics including: financial statement analysis, long-term financial planning, capital budget decision making, financial leverage, capital structure policy, and dividend payout policy. Prerequisite: admittance into BAS program or administrator approval; ACCT 310 or accounting elective with a 2.0 or higher.

MGMT 360
Business Principles, Planning & Strategy (5)
Core course in strategy and planning. Topics include: establishing organizational mission, formal planning, strategy formulation, and implementation. Identify strengths, weaknesses, opportunities, and threats facing organizations.

MGMT 370
Practicum in Management (5)
This course will explore and build student comprehension of the application of management functions covered in BAS-AM courses via direct interaction between students and local managers and entrepreneurs from private, public and non-profit sectors.

MGMT 380
Marketing for Managers (5)
A core course designed to develop the marketing knowledge and skills necessary for the successful manager of a profit or non-profit organization. Students will develop and present a comprehensive marketing plan.

MGMT 410
Project Mgmt Application (5)
The theory and practice of project management as it relates to managers. Planning, organizing, securing and managing the human, financial, and physical inputs required to meet project objectives will be covered.

MGMT 420
Mgmt of Human Resources (5)
Core course in the responsibilities and role of human resource management in today's workplace. Material will concentrate on both regulatory and strategic responsibilities of HR. Topics include recruitment, interviewing, compensation and current HR issues.

MGMT 435
Operations Management (5)
Introduction to the key ideas and techniques used to plan, analyze, measure and improve an organization's production of goods and services. Topics explored include process-system modeling, product design/quality, inputs, processes, supply-chains, inventory, and people management. Prerequisite: enrollment in BAS-AM or instructor permission.

MGMT 470
Management Internship (5)
BAS-AM program outcomes in an internship with specific outcomes as agreed to by the student, internship provider and instructor. Classes will focus on sharing progress, issues or barriers from the internships. Prerequisite: completion of BAS-AM foundation courses and 30 additional BAS-AM core credits with a 2.0 minimum GPA.

MGMT 490
Strategic Management (5)
A capstone course which focuses on the key aspects that must be addressed for sustained organizational success, effective problem solving, and the capture of opportunities from the perspective of the general manager or the entrepreneur. Prerequisite: BAS 460 or instructor permission.
BASIC EDUCATION FOR ADULTS

**BEDA 032**
**L3-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 211-220

**BEDA 034**
**L3-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 211-220

**BEDA 035**
**L3-CWP/Fine Arts/Science (1-15)**
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, re-settlement, and migration. Will also examine technological, environmental, and innovational issues. Prerequisite: CASAS score: 211-220

**BEDA 042**
**L4-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 221-235

**BEDA 044**
**L4-US Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of United States history: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within America. Prerequisite: CASAS score: 221-235

**BEDA 045**
**L4-CWP/Fine Arts/Science (1-15)**
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, colonization, re-settlement, and migration. Will also examine technological, environmental, and innovational issues. Prerequisite: CASAS score: 221-235

**BEDA 046**
**HSE/SPAN/LA 2 (1-5)**
Second of two Language Arts courses. Bilingual English/ Spanish language instruction in Language Arts for students who wish to obtain a high school equivalency certificate. (Prerequisite: Valid CASAS pre-or post-test scores of <235.)

**BEDA 052**
**L5-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 236-245

**BEDA 054**
**L5-US Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of United States history: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within America. Prerequisite: CASAS score: 236-245

**BEDA 055**
**L5-CWP/Fine Arts/Science (1-15)**
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, colonization, re-settlement, and migration. Will also examine technological, environmental, and innovational issues. Prerequisite: CASAS score: 236-245

**BEDA 056**
**HSE/SPAN/LA 2 (1-5)**
Second of two Language Arts courses. Bilingual English/ Spanish language instruction in Language Arts for students who wish to obtain a high school equivalency certificate. (Prerequisite: Valid CASAS pre-or post-test scores between 236 and 245.)

**BEDA 062**
**L6-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 246-255

**BEDA 064**
**L6-US Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of United States history: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within America. Prerequisite: CASAS score: 246-255.
BEDA 065
L6-CWP/Fine Arts/Science (1-15)
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, colonization, re-settlement, and migration. Will also examine technological, environmental, and innovative issues. Prerequisite: CASAS score: 246-255

BEDA 066
HSE/SPAN/LA 2 (1-5)
Second of two Language Arts courses. Bilingual English/Spanish language instruction in Language Arts for students who wish to obtain a high school equivalency certificate. (Prerequisite: Valid CASAS pre-or post-test scores between 246 and 255.)

BIOLOGY

BIOL& 160
General Biology w/Lab (NS) (5)
Surveys the structures and functions of cells and organisms. Explores basic genetic and evolutionary processes. Outlines the characteristics of life, its history, and biodiversity.

BIOL& 170
Human Biology (NS) (5)
Presents the structure, organization, and life functions of the human; cells, tissues, and organ systems; development from embryo to adult; aging and disease; human evolution and ecology.

BIOL 172
Human Biology Lab (AE) (1)
Investigate the structure and function of the integumentary, skeletal, muscular, nervous, sensory, endocrine, cardiovascular, immune, respiratory, digestive, urinary, and reproductive systems. Prerequisite: BIOL& 170.

BIOL 180
Regional Biodiversity (AE) (5)
Explore the biological diversity of a region. Identify the dominant organisms, describe their interactions with their physical, chemical, and biological environments. Focus on field trips. Prerequisite: instructor permission.

BIOL 190
Cooperative Work Experience (1-5)
Allows students to apply classroom learning to on-the-job settings. Credit for new and continued learning in the work environment. 60-360 hours on-on-job per quarter. Prerequisite: Work Experience Seminar (BTEC 191-194) is required of Co-op students. Instructor's permission required.

BIOL& 221
Majors Ecology/Evolution (NS) (5)
Ecology, evolution, taxonomy and phylogeny, diversity of life forms. First course in a three-quarter series (BIOL& 221, 222, 223). Prerequisite: HS biology or BIOL& 160 and MATH 098 or equivalent.

BIOL& 222
Majors Cell/Molecular (NS) (5)
Metabolism and energetics, structure and function of biomolecules and cells, Mendelian and molecular genetics, gene regulation and biotechnology. Second course in a three-quarter series (BIOL& 221, 222 and 223). Prerequisites: high school biology and chemistry or BIOL& 160; CHEM 121 or CHEM& 161 recommended.

BIOL& 223
Majors Organismal Physiology (NS) (5)
Plant and animal comparative anatomy and physiology. Final course in a three-quarter series (BIOL& 221, 222, and 223). Prerequisite: BIOL& 221 or 222 or instructor permission.

BIOL& 241
Human A & P 1 (NS) (5)
Investigate interactions between structures and functions essential for human health. Levels include macromolecules, membranes and the cell, tissues, integument, skeleton and articulations, skeletal muscles, nerves, and central nervous systems. First quarter of a two-quarter sequence. Prerequisite: HS biology and chemistry or BIOL& 160 or BIOL& 170 and CHEM& 121.

BIOL& 242
Human A & P 2 (NS) (5)
Investigate the interactions between structure (anatomy) function (physiology) essential for human health. Investigate organization and function of the sensory, endocrine, cardiovascular, immune, respiratory, digestive, urinary, and reproductive systems. Prerequisite: BIOL& 241 or instructor permission.

BIOL 243
Adv Topics Human A & P (NS) (5)
Investigate the inheritance of human characteristics and the regulation of gene expression. Trace the development of major organ systems in utero and fetal development. Trace the physiological and anatomical transformations in older individuals. Prerequisite: BIOL& 242 or instructor permission.

BIOL 250
Introduction to Marine Biology (NS) (5)
Introduction to physical and chemical factors affecting marine organisms: the various marine habitats, the animals and plants which inhabit them, and human exploitation of marine resources. Field trips to local marine habitats.

BIOL& 260
Microbiology (NS) (5)
Understand the morphology, physiology, metabolism, genetics, and evolution of microbes. Explore the interactions of pathogenic microbes and human health. Review processes that inhibit microbial disease. Develop skills of culturing, identifying, and manipulating microbes. Prerequisite: one college chemistry course.
BIOL 270
Research in Biology (AE) (1-12)
Design a research project, set up experiments, collect data in the lab or in the field, and/or analyze data. Each credit hour requires 33 hours of activity per quarter. Prerequisite: instructor permission.

BIOL 360
Life Science Concepts (NS) (5)
Fundamentals of structure and function from subcellular to organismal levels. Sources of variation in traits and inheritance. Ecological and ecosystem dynamics. Evolution, natural selection, and adaptation. BAS-TE students will develop grade-appropriate lesson plans/activities. Prerequisite: Five credits of lower division Natural Science.

BOTANY
BOTA 110
Survey of Botany (NS) (5)
Introduction to plants for non-majors, with emphasis on growth, function, and reproduction. Human uses and modifications of plants for food and medicine will be explored. Students will conduct plant growth experiments in the greenhouse.

BOTA 113
Plant Identification & Classification (NS) (5)
Identification and classification of vascular plants of western Washington with emphasis on important plant families, conservation, and native plant uses. Field trips during labs to observe native plants in local habitats.

BOTA 150
Dendrology (NS) (5)
Introduction to biology through trees, from cells and evolution through tree ecology and urban trees. Identification of trees will be featured, including both Pacific Northwest natives and common street trees.

BUILDING TECHNOLOGY
TECH 160
Drywall Install (CCC) (3)
This course is designed to teach students basic safety procedures, techniques, framing skills, and drywall installation that may be used in the construction industry. This class also prepares students for TECH 161, Drywall Finishing.

TECH 161
Drywall Finishing (CCC) (4)
This course is designed to teach students light commercial and residential drywall finishing techniques such as taping, mudding, and sanding that can be used in the construction industry.

TECH 165
Roofing Installation (CCC) (7)
This course will teach students safety techniques and basic commercial and residential roofing installation techniques, including preparation and installation that may be used in the construction trade.

TECH 166
Siding Installation (CCC) (7)
Teaches commercial and residential siding installation techniques, such as: removing existing materials, selecting tools for the job, and math skills needed to measure and cut materials that may be used in the construction industry.

BUSINESS ADMINISTRATION
BUS& 101
Intro to Business (AE) (5)
Introduction to the world of business. Emphasis will include functions of business, management, types of business ownership, human resources, production, marketing, ethics, and the role of accounting.

BUS 121
Business Math (5)
Surveys the commercial application of mathematics designed to assess and analyze business activities and their effect on cost, profitability and overall performance. Prerequisite: MATH 096 or equivalent test score.

BUS 190
Cooperative Work Experience (1-12)
Students apply classroom learning to on-the-job settings. Credit earned for new and continued learning taking place in the work environment. Co-requisite: BTEC 191

BUS& 201
Business Law (AE) (5)
Introduction to state and federal constitution, laws and procedures including international trade, crimes, torts, contracts, sales, property, bankruptcy, securities, consumer protection, employment, and debtor-creditor relationships. The relationship between ethics and law will be discussed.

BUS 203
Human Resource Mgmt (5)
Introduction to fundamental concepts of human relations management. This course will focus on recruiting, employee selection and training, employee performance and compensation, and employee laws and labor. Prerequisite: BUS& 101, college level reading and writing.

BUS 215
Principles of Finance (5)
A broad survey of the field of finance. Topics include: interest rate theory, financial statement analysis, time value of money, and building stock and bond portfolios. Managerial finance is also studied. Prerequisite: ACCT& 201 or ACCT or permission.

BUS 220
Marketing (5)
A broad overview of the market structure and marketing philosophies currently being used in business. Includes a description, analysis, and evaluation of the marketing system. Each student will conduct a marketing research project.
BUS 225
Money and Banking (5)
An introduction to the core principles of money and banking. Topics to be discussed include interest rates, financial instruments, financial markets, financial institutions, central banks, monetary policy, financial stability, and modern monetary economics. Prerequisite: ACCT& 201, 202.

BUS 230
Data Dashboards (5)
Turn data into dashboards and reports focused on identifying business goals, trends and patterns that guide business decisions. Create interactive dashboards using Excel tools such as pivot tables, pivot charts, slicers and advanced formulas. Prerequisite: BTEC 214

BUS 232
Entrepreneurship (5)
Experience the challenge and reward of planning a new business. Topics include: development of a business plan, failure factors in small businesses, capital, accounting, financial statements, marketing, human resource management, legal/ regulatory issues and management principles. Prerequisite: BUS& 101 and ACCT 200, or instructor permission.

BUS 250
Project Management (5)
Explore the concept of projects and the unique administrative approach needed to successfully complete a project on time and within budget. Identify the components of projects and the tools available to track project progression.

BUS 275
Principles of Management (5)
Management styles and effective management of personnel from the manager’s side of business. The course is built around the five traditional functions of management and exploring management problems and practices. Real-life case problems used.

BUSINESS OFFICE TECHNOLOGY

BTEC 101
Keyboarding for Business (3)
For students without keyboarding skills. Develop speed to 25 WPM by touch. Develop speed, accuracy, and basic word processing techniques for letters, reports, and tables.

BTEC 102
Keyboard Skillbuilding I (3)
Individualized program for improving keyboarding techniques and increasing speed and accuracy. Upon course completion, students should be able to type at a minimum of 35 wpm with one error per minute. Prerequisite: BTEC 101 & typing speed of 25 wpm or instructor permission.

BTEC 107
Electronic Medical Records (4)
Provides an overview of medical records as legal documents. Topics include the make-up of an electronic medical record, charting methods, patient scheduling, privacy, and administrative management.

BTEC 110
Business English (5)
This course is intended to provide a basis for producing office documents. Topics include editing skills including grammar, punctuation, proofreading, and spelling. Business English is a basis for medical documentation, business communications, and office procedures. Prerequisite: ENGL 098 with 2.0 or higher; placement of ENGL 099 or higher.

BTEC 120
Applied Business Math (5)
Fundamental arithmetic skills applied to a wide range of business activities. Topics include; banking, discounts, payroll, simple interest, markups and markdowns and promissory notes.

BTEC 190
Cooperative Work Experience (1–12)
This course allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Prerequisite: current or prior enrollment in BTEC 191 or instructor signature.

BTEC 191
Work Experience Seminar (1)
Discussion topics include professional image, business etiquette, sexual harassment, resolving conflict, and diversity in the workplace. Must be taken prior to or concurrently with Cooperative Work Experience.

BTEC 203
Keyboard Skillbuilding II (3)
Individualized advanced skillbuilding program for students who have taken BTEC 102. Upon completion of this course, students should be able to type at a minimum of 50 wpm with one error per minute. Prerequisite BTEC 102.

BTEC 205
Outlook (1)
This course covers assorted tasks in Microsoft Outlook. Students will use their college email address to create and send email messages, schedule meetings, maintain calendars, and manage tasks. Prerequisite: IT 117, typing speed of 35 WPM or instructor’s permission.

BTEC 210
Word I (5)
Course covers Microsoft Word in depth: document preparation, formatting, graphics, WordArt, SmartArt, tabs, columns, sorting, mail merge, styles, Quick Parts, headers/ footers, references. Students will format documents to business standards. Prerequisite: IT 117, typing speed of 35 wpm, instructor’s permission.
**BTEC 212**

**Access (5)**

An introduction to Microsoft Access. Students will learn basic concepts of database software and be able to integrate Access with Word and Excel. Prerequisite: keyboard speed of 30 wpm, BTEC 210, BTEC 214, OR Instructor permission.

**BTEC 214**

**Excel 1 (5)**

This course is a hands-on approach for beginning through intermediate level applications of Excel spreadsheet using a variety of business applications. Students will learn formulas, charts, formatting, and management of Excel files. Prerequisite: IT 117, typing speed of 35 wpm, instructor permission.

**BTEC 218**

**Desktop Publishing (4)**

This course covers terminology, concepts, and tasks related to desktop publishing. Students will plan, create, and design publications for business and personal use. Prerequisite: IT 117, BTEC 210, typing speed of 35 wpm or instructor permission.

**BTEC 219**

**Word 2 (5)**

This course covers advanced Microsoft Word features such as: linked textbooks, outlines, multilevel lists, sections, translator, AutoCorrect, Building Blocks, Quick Parts, macros, bibliographies, citations, footnotes, endnotes, formal reports, table of contents, indexes, and fill-in forms. Prerequisite: BTEC 210 Word I

**BTEC 220**

**Ten-Key Calculator (1)**

Touch control of the 10-key calculator with emphasis on speed and accuracy. Complete business calculations using the function keys. Business Math recommend first. Prerequisite: Business Math suggested.

**BTEC 221**

**Business Communications (5)**

Applying principles of effective written and oral business communications. Upon completion, students should be able to produce effective digital media pieces, positive, negative, and persuasive messages, informal reports, and a resume and cover letter. Prerequisite: BTEC 110 or ENGL& 101 or WRT 105.

**BTEC 222**

**Microsoft Office-PowerPoint Module (1)**

Class covers PowerPoint in depth: presentations, formatting, graphics, charts, design, and appropriate visual elements for professional presentations. Prerequisite: IT 117, typing speed of 35 WPM or instructors permission.

**BTEC 224**

**General Office Procedures (5)**

Topics include professional image, employer expectations, human relations, receptionist techniques, telephone procedures, mail processing, business ethics, job safety, office equipment and supplies, travel and meeting arrangements, financial activities, and composing and preparing professional documents. Prerequisite: BTEC 110, BTEC 210, BTEC 233, BTEC 214

**BTEC 233**

**Records Management (3)**

Principles and procedures of records management and storage. Practice in indexing, coding, and filing for alphabetic, numeric, subject, and geographic systems. Introduction to forms design and Access database usage.

**BTEC 255**

**Insurance and Billing (5)**

Introduction to major insurance program information and federal healthcare legislation. Exploration of health insurance guidelines and the knowledge and skills required for billing. Prerequisite: BTEC 260

**BTEC 260**

**Medical Terminology (4)**

Development of a medical vocabulary with emphasis on definition and spelling. Upon completion of this course students should be able to recognize spoken medical terms, analyze word parts for meaning, and understand basic medical terminology.

**BTEC 261**

**Medical Office Procedures (5)**

Culminating course for Medical Office students. Topics cover the expected skills for successful employment in a medical setting, such as professional image, medical ethics and law, appointment scheduling, office finances, and telephone procedures. Prerequisite: BTEC 107, BTEC 110, BTEC 233, BTEC 260

**BTEC 263**

**Medical Documentation (4)**

Medical documentation prepared through the transcription of chart notes, procedure notes, letters, and other medical documents using transcription or speech recognition files. Prerequisite: BTEC 260, BTEC 210, BTEC 110

**BTEC 266**

**Medical Law and Ethics (3)**

Overview of medical law/ethics for healthcare professionals in various settings: billing/coding, transcription, phlebotomy, etc. Designed to explain ethical/legal obligations to the patient, employer, and health worker and clarify confidentiality requirements regarding patient records and history.

---

**CHEMICAL DEPENDENCY**

**CDP 100**

**Chemical Dependency Intro (5)**

Introduction to the field of chemical dependency counseling. Topics include theories surrounding the etiology of addiction, basic psychopharmacology, Federal and State regulations, introduction to prevention, intervention, assessment, treatment planning and case management.
**CDP 101**  
**Drug & Alcohol Responses (5)**  
Physical, psychological, and behavioral response to alcohol, drugs, and compulsive behaviors. Topics include drug classification, the neurochemistry of addiction, and an overview of basic drug kinetics to include absorption, distribution, metabolism, excretion and physiology. Prerequisite: completion of CDP 100 with 2.0 or higher or instructor permission.

**CDP 110**  
**CDP Counseling Theory (4)**  
Overview of communication skills, theories, and techniques used in developing a common understanding of addictive behavior. Comprehensive review of behaviors and an introduction to counseling methods to facilitate change in chemically dependent clients. Prerequisite: CDP 100 and PSYC& 200.

**CDP 111**  
**CDP Counseling Techniques (4)**  
An overview of techniques and theoretical approaches to chemical dependency counseling. Practical training designed to develop interviewing and chemical dependency counseling skills when working with diverse populations within all levels of care. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 120**  
**CDP Law and Ethics (4)**  
Contemporary legal and ethical issues in chemical dependency counseling including professional and peer relationships, boundaries, NAADAC code of ethics, multiple relationships and values in the counseling relationship and laws surrounding counseling including confidentiality and HIPAA. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 130**  
**Assess & Treatment Plans (5)**  
Course introduces students to the current standard used in assessing, diagnosing, and treating those with substance use and co-occurring disorders. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 140**  
**Counseling Adolescents (3)**  
An overview course covering the Bio-Psycho-Social factors associated with adolescent substance use, misuse, and dependency. Topics: Adolescent brain development; cultural implications in adolescent substance use; screening, assessment, and diagnosis. Prerequisite: CDP 100 and PSYC& 200 or instructor permission.

**CDP 210**  
**Treatment in Groups (4)**  
An introduction to group dynamics and group process, as applied to chemical dependency counseling. Topics include group formation, ethical considerations made in group counseling, diversity, group developmental stages, documentation, and group counseling approaches/techniques. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 220**  
**Chemical Dependency & Family (4)**  
An examination of substance use, abuse, and dependency within the family system. Course emphasis is on the integration of Family System and Chemical Dependency approaches when working with chemically dependent families. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 230**  
**CDP Cultural Diversity (3)**  
Designed to explore self-awareness and improve knowledge and skills of chemical dependency professionals while working with clients from diverse cultural backgrounds. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 240**  
**Relapse Prevention (2)**  
An overview of the recovery process with an emphasis on Relapse Prevention. Topics include identifying warning signs of relapse, Post-Acute Withdrawal Syndrome, and developing effective relapse prevention strategies and techniques with the client. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 250**  
**Community Prevention (3)**  
An overview of child and adolescent alcohol and drug abuse prevention. Focus is on the history of prevention, research, community needs assessments and best/promising prevention practices. Students will design and evaluate an effective prevention program. Prerequisite: CDP 100 with 2.0 or higher.

**CDP 280**  
**CDP Supervised Practicum (5)**  
Allows the student to bridge their classroom education and training in a supervised practicum in a pre-arranged faculty approved facility for 150 supervised hours that includes a minimum of 50 face-to-face hours under direct supervision. Prerequisite: CDPT certification and practicum placement, 2.0 or higher in core classes.

**CHEMISTRY**

**CHEM& 121**  
**Introduction to Chemistry (NS) (5)**  
Survey of chemistry with applications in everyday life: atoms, bonds, reactions, and calculations. Prerequisite: one year HS algebra or MATH 098.

**CHEM& 131**  
**Introduction to Organic/Biochemistry (NS) (5)**  
Study of major organic functional groups and their properties and major biochemical compounds including carbohydrates, lipids, proteins, and major cellular energy pathways. Targeted for allied health programs.
CHEM 159
Problem Solving in Chemistry (1)
This course is designed to provide instruction and practice in quantitative problem solving, critical thinking, and the mathematics and study skills that are required to be successful in CHEM& 161. Corequisite: CHEM& 161.

CHEM& 161
General Chemistry w/lab I (NS) (6)
First of a three-quarter sequence for science and engineering majors. Includes matter, measurements, equations, stoichiometry, solution chemistry, gasses, thermochemistry, quantum theory, and electronic structure. Problem solving and critical thinking are stressed. Includes lab. Prerequisite: CHEM& 121 (minimum 2.0) and MATH 099 or equiv., or instructor permission.

CHEM& 162
General Chemistry w/lab II (NS) (6)
Second of a three-quarter sequence. Includes periodic trends, chemical bonding and structure, valence bond/molecular orbital theory, intermolecular forces, liquids and solids, solutions, and kinetics. Lab emphasizes data analysis and interpretation. Prerequisite: CHEM& 161 with a 2.0 or better or instructor permission.

CHEM& 163
General Chemistry III w/Lab (NS) (6)
Third of a three-quarter sequence. Includes equilibrium, acids and base and solubility equilibria, thermodynamics, electrochemistry, and an introduction to organic and nuclear chemistry. May include polymers, transition metal, and/or coordination chemistry. Prerequisite: CHEM& 162 with a 2.0 or better or instructor permission.

CHEM& 261
Organic Chemistry I (NS) (6)
First course in a three-quarter sequence for science and pre-professional majors. Topics covered include structure, nomenclature, reactions and properties of hydrocarbons, and alkyl halides. Includes mechanisms and stereochemistry. Lab focuses on laboratory techniques. Prerequisite: CHEM& 163 with 2.0 or greater or instructor permission.

CHEM& 262
Organic Chemistry w/lab II (NS) (6)
Second course in the sequence. Topics covered include structure, nomenclature, reactions and properties of alkenes, alkydes, alcohols, ethers, and conjugated and aromatic systems. Spectroscopy topics include IR, NMR, and MS analysis, including structure elucidation. Prerequisite: CHEM& 261 with 2.0 or greater or instructor permission.

CHEM& 263
Organic Chemistry w/lab III (NS) (6)
Final course in the sequence. Topics covered include structure, nomenclature, reactions and properties of aromatics, aldehydes, ketones, carboxylic acids and their derivatives, and amines. Enol/enolate chemistry and radical reactions will also be covered. Prerequisite: CHEM& 262 with 2.0 or greater or instructor permission.

CHEM 270
Research in Chemistry (AE) (1-12)
Design a research project, set up experiments, collect data in the lab or in the field, and/or analyze data. Each credit hour requires 33 hours of activity per quarter. Prerequisite: instructor permission.

CHINESE

CHIN& 121
Chinese I (D) (H) (5)
Learn the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture.

CHIN& 122
Chinese II (H) (5)
Continued study of the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture. Prerequisite: CHIN& 121 or instructor permission.

CHIN& 123
Chinese III (H) (5)
Continued study of the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture. Prerequisite: CHIN& 122 or instructor permission.

CHIN& 221
Chinese IV (H) (5)
Continued study of the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture. Prerequisite: CHIN& 123 or instructor permission.

CHIN& 222
Chinese V (H) (5)
Continued study of the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture. Prerequisite: CHIN& 221 or instructor permission.

CHIN& 223
Chinese VI (H) (5)
Continued study of the fundamental skills of listening comprehension, speaking, reading and writing the Mandarin Chinese language. Develop an understanding and appreciation of the Chinese people and culture. Prerequisite: CHIN& 222 or instructor permission.
CIVICS

CIV 011
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests of 190 and under.

CIV 021
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests of 191 to 200.

CIV 022
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests of 191 to 200.

CIV 023
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests of 191 to 200.

CIV 024
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests of 191 to 200.

CIV 031
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 201 to 210.

CIV 032
Civics (1-3)
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 201 to 210.

CIV 033
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 201 to 210.

CIV 034
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 201 to 210.

CIV 041
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests between 211 and 220.

CIV 042
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests between 211 and 220.

CIV 043
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests between 211 and 220.

CIV 044
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests between 211 and 220.

CIV 051
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 221-235.

CIV 052
Civics (1-3)
Students develop reading and comprehension skills focused on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 221-235.
CIV 053  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 221-235.

CIV 054  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 221-235.

CIV 061  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 221-235.

CIV 062  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 236 to 245.

CIV 063  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 236 to 245.

CIV 064  
**Civics (1-3)**  
Students develop reading and comprehension skills focusing on topics that will aid them in becoming better members of the community. Placement is based on CASAS reading scores. Prerequisite: valid scaled scores from CASAS pre- or post-tests from 236 to 245.

**COMMUNICATION STUDIES**

CMST& 102  
**Intro to Mass Media (H) (5)**  
A survey of the mass media in America: newspapers, magazines, books, recorded music, radio, television, motion pictures, the World Wide Web: with emphasis on structure, function, audience, content, effect and social responsibility.

CMST 104  
**Racism, Sexism and the Media (D) (H) (3)**  
Examine issues of race and gender in the media from both an historical and a current perspective.

CMST 130  
**Debate I (H) (5)**  
Students will learn to analyze, construct and deliver arguments on controversial topics using supportive evidence to respond to opposing viewpoints.

CMST& 220  
**Public Speaking (H) (5)**  
Apply methods for managing speech anxiety, holding attention and making points in a variety of public speaking situations, including techniques for being credible and ethical. Communication theories and interpersonal skills also studied.

CMST 240  
**Advanced Public Speaking (H) (5)**  
Build upon the skills learned in an introductory public speaking course. Become prepared to present in professional settings and lead effective business meetings as an audience-centered communicator. Prerequisite: CMST& 220 or instructor permission.

CMST 250  
**Intercultural Communication (D) (H) (5)**  
Students will explore the dynamics of intercultural communication; how variables such as perceptions, language usage, nonverbal style, gender, class, and values influence face-to-face communication among individuals of different cultures; and strengthen communication skills.

CMST 330  
**Professional & Organizational Communication (H) (5)**  
Foundation course designed to develop effective written and verbal communication skills in organizational settings. Students will gain an appreciation for the crucial role communication plays in organizations and how to improve their employability. Prerequisite: Five credits of lower division Humanities

**COMMUNICATIONS**

COMM 100  
**Dragon NaturallySpeaking (2)**  
Designed to assist students in the development of computer and English composition skills while using Dragon NaturallySpeaking (voice recognition) and text to speech software.
COMPUTER AIDED DRAFTING

CAD 110
CAD for Electronics (3)
Introduces students to the art and science of reading and creating electrical schematics from a Computer Aided Drafting perspective in the AutoCAD environment. Knowledge of component identification is required. Prerequisite: ERA 101.

CAD 112
Computer Aided Drafting I (5)
AutoCAD drafting, drawing, editing, dimensioning, drawing aids, layer control, and plotting.

CAD 113
Computer Aided Drafting II (5)
Advanced AutoCAD commands, blocks, symbols library, including assigning and extracting block attributes, creating attribute reports, incorporating and managing external references, isometric drawings, creating dimension styles, use of multiple viewports, and introduction to 3-D wireframe models and 3D solid. Prerequisite: minimum 2.0 grade in CAD 112 or instructor permission.

CAD 114
Computer Aided Drafting III (5)
Develop sound computer-aided drafting. Emphasis is placed on importing survey points, defining parcels, creating 3D terrain models, calculating cut and fill volumes, and creating contours with labels. Prerequisite: minimum 2.0 grade in CAD 113 or instructor permission.

CAD 115
CAD for Industry (3)
AutoCAD drawings, editing, dimensioning, drawing aids, layer control designed to develop basic computer-aided drafting skills that may be used in industry. Emphasis on creating basic drawings, blocks and plotting. Basic computer skills required.

COOPERATIVE WORK EXPERIENCE

COOP 190
Cooperative Work Experience (1-12)
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Reaching set learning objectives and development of positive work habits are emphasized. The Cooperative Education Faculty Coordinator, the student employee, and the worksite supervisor identify the learning objectives. 30-360 hours on-the-job per quarter. Instructor’s permission is required. Corequisite: Enrollment in a Work Experience Seminar is required of Co-op students. You may take the Work Experience Seminar before or in the same quarter as the Co-op course.
## CRIMINAL JUSTICE

### CJ & 101
**Intro to Criminal Justice (AE) (5)**  
Examines local, state and Federal law enforcement agencies and the judicial and correctional systems. Career opportunities and qualifying requirements are studied.

### CJ 103
**Constitutional Case Law (5)**  
Examines the Constitution and Bill of Rights in relation to law enforcement, the judiciary, and corrections. Defines guilt-laden facts, reasonable suspicion, and probable cause.

### CJ 104
**Intro to Law Enforcement (AE) (5)**  
A broad survey of the theories, procedures and methods of police operations studied. Also examines police discretionary powers, career opportunities, and trends in law enforcement. Pre/corequisite: CJ & 101 or instructor permission.

### CJ & 105
**Intro to Corrections (AE) (5)**  
A broad survey of the history and evolution of adult and juvenile correctional models in America. All forms of incarceration and restrictive custody are studied. Pre/corequisite: CJ & 101 or instructor permission.

### CJ & 106
**Juvenile Justice (AE) (5)**  
Juvenile deviance and theories of criminality are studied. Economic, social, and psychological impact of juvenile delinquency trends examined. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 107
**Criminal Procedures (5)**  
Examines state and federal laws of arrest, search and seizure, civil and criminal liability. The rules of evidence and courtroom proceedings are studied. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 109
**Community Policing (5)**  
Focus on resolving community issues and concerns via Community Oriented Policing and Problem Solving (COPPS) skills and strategies. Pre/corequisite: CJ & 101 or instructor permission.

### CJ & 110
**Criminal Law (AE) (5)**  
A broad survey of the common criminal laws and statutes of Washington and the other 49 United States. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 111
**Criminal Justice Ethics (5)**  
Presents an in-depth examination and analysis of the practical, theoretical, ethical and moral considerations found in the criminal justice system. Pre/corequisite: CJ & 101 or instructor permission.

### CJ & 112
**Criminology (AE) (5)**  
Examines social components of crime, deviance, criminality, and societal reactions to crime. Includes discussion of causes and impacts of crime on society, classifications and theoretical interpretations of crime and the criminal justice system.

### CJ 114
**Critical & Current Issues (5)**  
Examines current issues, topics and trends in the criminal justice system. Explores the issues of racism and bigotry as related to criminal justice practitioners. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 116
**Community Corrections (5)**  
Community corrections, alternative sentencing, probation and diversion concepts studied. Explores technology innovations pertaining to community supervision. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 126
**Homicide Investigation (5)**  
Tactics, procedures, and forensic techniques of homicide investigation are examined. Various tools and processes systematically employed to identify, arrest, and convict perpetrators are studied. Pre/corequisite: CJ & 101 or instructor permission.

### CJ 129
**Intro to Victimology (5)**  
Introductory course examines violent crime and victimology in American society. Factors leading to acquaintance and stranger violence, proactive and reactive strategies to crime, legal issues and self-defense measures studied and discussed.

### CJ 130
**Domestic Violence & Abuse (5)**  
This course examines physical and sexual domestic violence in our society. This includes spouse/partner abuse and child abuse. Contemporary investigation and intervention strategies and techniques are studied including evidence discovery, collection, and preservation.

### CJ 190
**Cooperative Work Experience (1-10)**  
Cooperative Work Experience provides criminal justice students with opportunities and forums to apply classroom learning to real-world scenarios in career related environments. Credit is awarded for learning that occurs at municipal, state or federal law enforcement, correctional or social science agencies or institutions. Student achievement of predetermined learning objectives emphasized.
CJ 204
Reports, Forms & Affidavits (5)
Investigative report writing including narratives, police reports, common forms, affidavits, and search warrants.

CJ 223
Criminal Investigation (5)
Covers contemporary issues surrounding criminal investigation addressing the crime scene, investigative process of crimes against persons, property, vice crimes, and prosecution. It is designed to help students develop a working knowledge of criminal investigation.

CJ 224
Criminal Interviews & Interrogations (5)
Basic and intermediate skills required for criminal and forensic interviews and interrogations. Study, practice, role-play, and evaluate the techniques used to elicit factual information from victims, witnesses and suspects in the course of criminal investigations.

CJ 225
Crime Scene Technology (5)
Students learn techniques to collect and preserve common evidentiary items located at crime scenes for future laboratory analysis and judicial proceedings while ensuring proper chain of custody. Aspects of arson investigation are also studied.

CJ 228
Crime Scene Photography (5)
Practical application of basic crime scene photography methods and techniques for criminal investigations studied. Skills designed to capture the details of automobile accidents, misdemeanor, and felony crime scenes are discussed and practiced.

CJ& 240
Intro Forensic Science (AE) (5)
Introductory course in forensic science examines physical evidence and laboratory analysis in criminal investigations. Skills and procedures required for collection, preservation, and identification of physical evidence are studied. Diagramming of crime scenes is practiced.

DIESEL EQUIPMENT TECHNOLOGY

DET 100
Shop Skills (7)
Theory and application of basic tools and practices as used in heavy equipment repair facilities. Prerequisite: Placement for TMATH 116 or MATH 095 with 2.0 or higher.

DET 102
Forklift Certification (1)
A comprehensive classroom training with practical, and hands-on instruction on forklift operation and safety. Course covers state and federal regulations. For successful completion student must be 18 and pass both practical and hands on exams.

DET 110
Mobile Electrical Systems I (7)
The exploration and application of fundamental principles of direct current electrical systems found on mobile equipment. Prerequisite: DET 100 or instructor permission; Corequisite DET 130

DET 120
Internal Combustion Engines I (7)
This course covers the operating principles of internal combustion engines. A variety of diesel engines will be disassembled and reassembled with the use of service manuals. Prerequisite: DET 110 or instructor permission.

DET 125
Power Transmission (7)
The theory and application of mechanical power transmitting devices and associated components as used in diesel powered equipment.

DET 130
Mobile Hydraulic Systems (7)
Students will be introduced to terminology, physical properties, and principles relating to mobile hydraulic equipment. Students will engage in practical exercises that will aid in the understanding of basic hydraulic systems. Prerequisite: DET 110 or instructor permission. Prerequisite: DET 100 or Instructor Permission. Co-requisite: DET 110

DET 166
Shop Skills for Welders (3)
Develop practical work skills and work habits in the student. Includes safety procedures and practices, proper use and maintenance of common shop equipment and common processes and materials of metal products fabrication and manufacturing.

DET 190
Cooperative Work Experience (1-15)
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Positive work habits are emphasized. Prerequisite/corequisite: Cooperative Work Experience Seminar.

DET 200
Mobile Electrical Systems II (7)
Students will examine electrical components and electronic systems. This course will cover electronic control modules and advanced direct current troubleshooting. Prerequisite: DET 110 or instructor permission.

DET 210
Power Transmission II (7)
The study of power shift and automatic transmissions as used in diesel powered equipment. Prerequisite: DET 125.
DET 220
Internal Combustion Engines II (7)
This course will cover diesel engine analysis and testing for optimal performance and longevity. Students will perform live engine testing, troubleshooting, and repairs. Prerequisite: DET 110 or instructor permission.

DET 225
Heavy-Duty Chassis Systems (7)
The study and application of heavy duty chassis systems used in diesel powered equipment. Prerequisite: completion of 1st year diesel classes.

DET 230
Practical Shop Applications (7)
The discussion and implementation of proper shop practices and repair procedures.

DET 235
Mobile HVAC Systems (7)
The theory and application of basic principles used in Heating Ventilation and Air Conditioning (HVAC) systems of diesel powered equipment.

DET 300
Applied Management (5)
Introduces the principles and concepts of effective management including human resource management, quality control, social responsibility, decision-making, communication, conflict resolution, and customer service. Prerequisite: enrollment in BAS-DT or instructor permission.

DET 320
Emissions Control (5)
Course content will focus on the theory and application of diesel exhaust emissions reduction technology. Prerequisite: enrollment in BAS-DT or by permission.

DET 325
Material Science of Fluids (5)
Covers: oil, fuel, and coolant properties and functions. Students will perform field sampling and laboratory testing of fluids. Results of testing will be interpreted and explained at a customer level. Prerequisite: Enrollment in BAS-DT or by permission.

DET 335
Regulatory Issues (5)
Studies the requirements set forth by governing agencies, such as: DOE/EPA, MSHA, OSHA, and Labor and Industries relating to diesel fueled automotive and industrial equipment. Prerequisite: enrollment in BAS-DT or instructor permission.

DET 345
Metalwork & Fabrication (5)
Apply layout, blueprint, weld symbol interpretation, dimension conversations, welding, machine set-ups and fabrication skills to safely complete metal fabrication projects correctly. Prerequisite: enrollment in BAS-DT or instructor permission.
DRAMA

DRMA 100
Applied Drama (3)
Provides credit for participation in either the artistic or technical aspects of the college's quarterly play productions. This course may be repeated for credit.

DRMA& 101
Introduction to Theater (H) (5)
Overview of theatre as an art form with emphasis on the play in production and the roles of various theatre artists. Students are expected to attend two plays during the quarter at their own expense.

DRMA 103
Set Design (AE) (3)
Introduction to the basics of scenic design for the theatre; drafting and model building. Students will work on the concurrent Centralia College Drama production. Prior enrollment in DRMA 106 is preferred.

DRMA 105
Theater History (H) (3)
Survey of the major periods in Western drama through study of major representative plays and development of the physical theater of those periods.

DRMA 106
Introduction to Stagecraft (AE) (3)
Introduction to basic tools, materials, equipment, techniques used in the design and implementation of sets, lighting and sound for the theatre. Students will participate in the design, construction and lighting of the concurrent drama production.

DRMA 107
Beginning Acting (H) (5)
Introduction with emphasis on concentration, imagination, movement, and characterization via vocal, physical, emotional exercises, improvisation, and scene work. Students will be expected to attend two plays during the quarter at their own expense.

DRMA 108
Intermediate Acting (H) (5)
Continuation of acting fundamentals with an emphasis on improvisational techniques and exercises, and advanced monologue and scene work. Students will be expected to attend two plays during the quarter at their own expense. Prerequisite: DRMA 107 or instructor permission.

DRMA 110
Stage Makeup (AE) (3)
Introduction to the types of theatrical makeup and the techniques of application.

DRMA 111
Stage Lighting (AE) (3)
Introduction to the basic principles of stage lighting as an integral part of theatrical productions. The course will deal with theories and equipment commonly used in theatre lighting. Students will participate in the drama production.

DRMA 115
Dramatic Performance (H) (5)
For students involved in the creative/performance aspects of a play production, from audition through research/preparation for their portrayal and evaluation of their performance. The student must successfully audition and be cast in a college production. Prerequisite: audition selection for quarterly play production.

DRMA 118
Musical Theatre (H) (5)
The study of musical theatre, its major works, its significance in theatre history, and role in American culture with an emphasis on production elements and the play in performance.

DRMA 120
Introduction to Playwriting (H) (5)
Study the art and craft of writing for the stage. Students will be required to complete and oversee the production of a short play. Final performances of student works will be presented to the public.

DRMA 130
Directing (H) (5)
An introduction to the theories, methods, and processes of directing a theatrical production. The course will culminate in the performance of a short play, which will be shown to the public. Prerequisite: DRMA& 101, DRMA 107, DRMA 108.

DRMA 141
Theater Speech (AE) (3)
The training of the human voice to develop control. The emphasis is on voice projection, quality and accuracy of sound and articulation of the English language.

DRMA 148
Introduction to Dance (AE) (1)
Study the fundamentals of Ballet, Modern, and Jazz dance. Prior dance experience is not necessary. The student will be required to wear casual, comfortable clothing. Students may participate barefoot. Dance shoes are optional.

DRMA 149
Introduction to Movement for Theatre (AE) (1)
Introduction to dance for Musical Theatre. Prior dance experience is not necessary. The student will be required to wear casual, loose fitting clothing. Students may participate barefoot. Dance shoes are optional.
DRMA 150
Introduction to Modern Dance (AE) (1)
Study basic Modern Dance, Latin, and Swing movements.
Prior dance experience is not necessary. The student will be
required to wear comfortable, loose fitting clothing. Students
may participate barefoot. Dance shoes are optional.

DRMA 155
Technical Production I (2)
This course is an introduction to the technical aspects
and procedures specific to setting up and running live
entertainment.

DRMA 201
Advanced Acting (H) (5)
Continued study of acting; character analysis, scene
interpretation and classical styles. Students will be expected to
attend two plays at their own expense and will be responsible
for the presentation of a children's theatre production.
Prerequisite: DRMA 108 or instructor permission.

DRMA 205
Contemporary World Theatre (AE) (3)
Introduces contemporary world theatre using the theatrical
productions of the Pacific NW regional theatres and the
Broadway theatres of NY City. Travel to and study these
productions. Visits to additional cultural events/locales will be
included.

DRMA 210
Multicultural Theatre (D) (H) (5)
An introduction to the dramatic literature and contemporary
theatre practices of people of color; the study of the
intersections of cultures in American society as portrayed in
American theatre and performance.

ECONOMICS
ECON& 201
Microeconomics (SS) (5)
Microeconomics is the study of households and firms and how
they interact in markets under varying degrees of competition.

ECON& 202
Macroeconomics (SS) (5)
Macroeconomics is the study of how any system allocates
limited resources to meet unlimited wants. Major concerns of
macroeconomic policy are: inflation, full employment, national
income accounting, fiscal policy, the money supply and trade.

ECON 305
Managerial Economics (SS) (5)
This class applies the principles of microeconomics to
management decisions. Topics include consumer theory,
supply & demand, efficiency, elasticity along with how firms
contend with costs and competition.

EDUCATION
EDUC& 115
Child Development (AE) (5)
Build foundation for explaining how children develop in all
domains, conception through early adolescence. Explore
various developmental theories, methods for documenting
growth, and impact of brain development. Prerequisite: co-
enrollment or previous enrollment in an ECED/EDUC course.

EDUC& 130
Guiding Behavior (3)
Examine the principles and theories promoting social
competence in young children and creating safe learning
environments. Develop skills promoting effective interactions
while providing positive individual guidance and enhancing
group experiences.

EDUC& 136
School Age Care (3)
Develop skills to provide developmentally appropriate and
culturally relevant activities/care for children ages 5-12 in a
variety of settings.

EDUC& 150
Child/Family/Community (3)
Integrate the family and community contexts in which a child
develops. Explore cultures and demographics of families
in society, community resources, strategies for involving
families in the education of their child, and tools for effective
communication.

EDUC 190
Cooperative Work Experience (1-12)
Cooperative Work Experience allows students to apply
classroom learning to on-the-job settings. Credit is
earned for new and continued learning taking place in
the work environment. Reaching set learning objectives
and development of positive work habits are emphasized.
Prerequisite: instructor permission.

EDUC& 201
Intro to Education (AE) (3)
Explore the role of education in our society and investigate
teaching as a career. Both the historical perspective and
current trends in education will be discussed.

EDUC& 203
Exceptional Child (3)
Explains the role of Special Education in education systems.
Provides techniques to work with the exceptional child in
the classroom. Topics include exceptionality in all areas of
development, diagnosis, communication, and working with
family structures.

EDUC& 205
Intro to Ed w/Field Experience (5)
An overview of education in America including history,
purpose, philosophies, characteristics, social aspects and
current issues. Exploration of teaching as a profession in the
K-12 system. Includes 30 hours in K-12 classroom.
EDUC 300  
Intro to Special Ed (3)  
Provides an overview of the philosophical, historical and social implications of exceptional characteristics of students with disabilities, gifted and talented and English language learners.

EDUC 330  
Teaching and Technology (5)  
This course focuses on various educational technologies, ranging from classroom equipment to online learning management systems, with a particular focus on students’ physical and emotional safety.

EDUC 345  
Teaching Language Arts & Development (5)  
Examine the methods for teaching writing, reading, listening, and speaking strategies and skills, including vocabulary, grammar, usage, and language development. Topics will include curriculum, methods, materials, and research. Prerequisite: admittance to BAS-TE or administrator approval.

EDUC 350  
Diversity in Students (3)  
Using theory, research and practice, students will understand and recognize issues of diversity. Behavioral supports will be assessed relative to vulnerable, special, and minority populations. Topics will include race, ethnicity, gender, class, sexuality, disability, and age. Prerequisite: admittance to BAS-TE / instructor permission.

EDUC 351  
Issues of Abuse (2)  
Develop skills for working with children from abusive and/or neglectful home environments, including potential behavioral consequences of abuse or neglect and corresponding intervention strategies.

EDUC 355  
Teaching Reading (3)  
Explores reading, comprehension, and literacy as it pertains to beginning readers. Emphasis placed on developing strategy lessons that encompass the major components of reading to use with students. Prerequisite: admittance to BAS-TE or administrator approval.

EDUC 360  
Assessment and Evaluation (5)  
Participants will explore principles of sound assessment using grade level expectations, teaching frameworks, and individual education plans as tools. Participants will design assessment strategies for individual needs of students in classrooms. Prerequisite: admission to BAS-TE / instructor permission.

EDUC 370  
Support: Child & Family (3)  
Study techniques for communicating with families and professionals about characteristics and needs of individuals with differing abilities. Strategies for collaborating with families, recognizing and respecting family, cultural, and societal diversity. Identify local resources. Prerequisite: admittance to BAS-TE or administrator approval.

EDUC 380  
Dev of Differently-Abled (5)  
Examine typical and atypical development. Identify characteristics of differing abilities, including physical or medical needs and effects disabilities have on educational implications and individual and family lives.

EDUC 385  
Special topics (3)  
Investigating and responding to current issues and trends in Special Education in order to understand and meet the needs of students.

EDUC 400  
Education and the Law (3)  
Examine educational law emphasizing rights and responsibilities of students and teachers, and current issues of education and special education. Explore current legislation, issues and trends related to schools and special education.

EDUC 410  
Exceptional Learners (5)  
This course will identify effective, research-based instructional strategies and accommodations and adaptations for learners with diverse academic and behavioral needs; and demonstrate how to make data-based decisions. Prerequisite: admittance to BAS-TE or administrative permission.

EDUC 420  
Curriculum & Instruction (5)  
Explore a variety of evidence-based instructional strategies for successful education of students with differing social and cultural backgrounds, and learning styles. Plan and implement class activities that involve students in an active learning environment.

EDUC 421  
Classroom Management (5)  
Students will examine current theory, research, and best practices related to classroom management. Instruction to include employing techniques and strategies for managing individual and group behavior in a variety of instructional settings.

EDUC 425  
Integrated Methods (5)  
Students explore integrated methods, strategies, and materials for teaching science, math, and social studies in K-8 classrooms. Students will apply standards and design inquiry-based lessons with cooperative learning strategies infusing literacy, creative arts, and technology.

EDUC 481  
Practicum 1 (2)  
Provides students with a foundation for understanding and articulating issues related to content in curriculum and instruction, diversity in students and special education. Students participate in 30 hours K-8 classroom experience.
EDUC 482
Practicum 2 (2)
This course allows students to apply the content and strategies learned in Classroom Management as they participate in 33 hours of classroom activities in the elementary classroom. Corequisite: EDUC 421 Classroom Management.

EDUC 483
Practicum 3 (2)
This course allows students to apply the content and strategies learned in Teaching Language Arts Development as they participate in 33 hours of classroom activities in the elementary classroom. Corequisite: EDUC 385 Teaching Language Arts & Development.

EDUC 484
Practicum 4 (2)
This course allows students to integrate into schools and participate in the beginning of the year classroom set-up, teacher in-service, and first days of school for the classroom in which they will be student teaching.

EDUC 490
Student Teaching Sp. Ed. (10)
Supervised instructional experience to develop, implement, practice, and evaluate theory and methods learned. Students will meet one on one or in small groups with supervising faculty. Prerequisite: EDUC 497 with a 2.0 or higher.

EDUC 497
Student Teaching Elem 1 (10)
Supervised instructional experience to develop, implement, practice, and evaluate theory and methods learned. Prerequisite: ENGL& 102, 2.0 or higher in EDUC 300, 330, 345, 350, 355, 370, 400, 410, 420, and 421.

EDUC 498
Student Teaching Elem 2 (10)
Supervised instructional experience to develop, implement, practice, and evaluate theory and methods learned. Students will meet one on one or in small groups with supervising faculty. Prerequisite: 2.0 or higher in EDUC 497.

EDUCATION- EARLY CHILDHOOD

ECED& 100
Child Care Basics (3)
Designed to meet licensing requirements for early learning lead teachers and family home child care providers, STARS 30 hour basics course recognized in the MERIT system.

ECED& 105
Intro Early Child Ed (AE) (5)
Explore the foundations of early childhood education. Examine theories defining the field, issues and trends, best practices, and program models. Observe children, professionals and programs in action.

ECED& 107
Health/Safety/Nutrition (5)
Introduction to implementation of equitable health, safety and nutrition standards for the growing child in group care. Develop skills necessary to keep children healthy, safe, report abuse and neglect, and connect families to community resources.

ECED& 120
Practicum-Nurturing Relations (2)
Students gain experience engaging in nurturing relationships with children, keeping children safe and promoting children's growth and development.

ECED& 132
Infants/Toddlers Care (3)
Examine the unique developmental needs of infants and toddlers. Study the role of the caregiver, relationships with families, developmentally appropriate practices, nurturing environments for infants and toddlers, and culturally relevant care.

ECED& 134
Family Child Care (3)
Learn how to manage a family childcare program. Topics include: licensing requirements, record-keeping, relationship building, communication strategies, guiding behavior, and promoting growth and development.

ECED& 139
Administration of ECE (3)
Develop administrative skills required to develop, operate, manage and improve early childhood education and care programs. Acquire basic business management skills. Explore resources and supports for meeting Washington State licensing and professional NAEYC standards.

ECED& 160
Curriculum Development (5)
Investigate learning theory, program planning, tools and methods for curriculum development promoting language, fine/gross motor, social-emotional, cognitive and creative skills and growth in children birth through age 8 utilizing developmentally appropriate and culturally responsive practice.

ECED& 170
Environments-Young Child (3)
This class focuses on the adult's role in designing, evaluating, and improving indoor and outdoor environments that ensure quality learning, nurturing experiences, and optimize the development of young children.

ECED& 180
Lang/Literacy Develop (3)
Teaching strategies for language acquisition and literacy skill development are examined at each developmental stage (birth-age 8) through the four interrelated areas of speaking, listening, writing, and reading.
**ECED 181**
Language/Literacy (5)
Create teaching strategies for language acquisition and literacy skills at each developmental stage (birth-8) through the four interrelated areas of listening, speaking, writing, and reading.

**ECED& 190**
Observation/Assessment (3)
Collection and documentation of observation and assessment data in order to plan for and support the child, the family, the group and the community. Practice reflection techniques, summarizing conclusions and communicating findings.

**ECED 233**
ECED Practicum 2 (5)
Develop a professional understanding of teaching methods and practices with an opportunity to evaluate teaching skills and learning environment. Must have completed at least 30 credits in ECED or have instructor permission.

**ELECTRONICS/ROBOTICS/AUTOMATION**

*See MECHATRONICS heading*

**ENERGY TECHNOLOGY**

**PPO 100**
Intro to Energy Industry (5)
Provides a broad background in fields related to power generation.

**PPO 102**
Power Generation (5)
Focus will be on environmental issues surrounding power plants. Introduction to boilers including design and ancillary equipment. Prerequisite: PPO 100

**PPO 103**
Electric Utility Distribution System (5)
Continuing coverage of power systems, boilers and prime movers. Prerequisite: PPO 102

**PPO 105**
Inside Wireman Section A (7)
Provides introductory instruction in electrical theory, design, installation, and maintenance of electrical systems providing power, light heat, air conditioning, refrigeration, control, communication, monitoring, and automation to residential, commercial, and industrial markets.

**PPO 106**
Inside Wireman Section B (7)
This course is designed to instruct the student in electrical theory, design, installation, and maintenance of electrical systems providing power. Section B provides further mastery of knowledge, skills, and abilities to apply the principles of basic electricity, National electrical codes, engineering drawing, reading and sketching.

**PPO 107**
Inside Wireman C - Substation (7)
Students will be able to demonstrate mastery of principles of electronic devices, National Electrical Codes, engineering drawing, reading, sketching, and industry mathematics.

**PPO 108**
Inside Wireman D - Substation (7)
Students will be able to demonstrate mastery of knowledge, skills and abilities in motor controls, electronics and industrial electronics.

**PPO 120**
Blueprint Reading (5)
An in-depth study of construction blueprints for residential, commercial, and industrial facilities emphasizing interpretation as it applies to the energy and HVAC industries, and electrical distribution systems.

**PPO 130**
Industrial Safety (5)
Industrial safety practices, procedures, and equipment as found in modern power plants. Also included will be basic first aid and CPR, and basic firefighting equipment and procedures. Basic Rigging will be taught stressing safety. Prerequisite: PPO 102

**PPO 150**
Energy Efficiency (5)
A study of Energy Efficiency concepts related to the efficient and effective use of electricity in home and industry. Subjects covered will include electrical terms, green alternative energy sources, transportation, solar, wind, biomass, and insulation.

**PPO 191**
Power Plant Job Preparation (4)
Introduces students to local power generation facilities through touring potential job sites, performing market research and preparing for the POSS test which is required for entry level employment or apprenticeship.

**PPO 201**
Plant Systems Boilers (5)
Provides a background in power boilers, boiler systems & equipment, an introduction to the safe operation, maintenance & control of boilers. Prerequisite: PPO 102
PPO 202
Power Plant Prime Movers (5)
Provides a basic background in Prime Movers, focusing on construction, operation, and maintenance of steam turbine, gas turbine, diesel engine, and pump operation and maintenance. Prerequisite: PPO 201

PPO 203
Plant Operations Refrigeration & HVAC (5)
Provides a background in power plant operations and controls. Prerequisite: PPO 202.

PPO 205
Power System Operator I (5)
Provides a background in operating the American electrical grid system and required NERC (North American Electrical Reliability Corporation) standards. The first class in a series of two classes. Prerequisite: Minimum 2.8 grade in PPO 201

PPO 206
Power System Operator II (5)
PPO 206 is a continuation of PPO 205, providing the student with a background in operating the American electrical grid system and required NERC (North American Electrical Reliability Corporation) standards. Prerequisite: Minimum grade 1.9 in PPO 205.

PPO 208
Hydroelectric Power (5)
Provides a broad background in the field of electric power generation from hydroelectric dams. Basics of producing electricity including turbines, hydro project regulations, fish passageway, and water quality, and tribal rights. Prerequisite: PPO 103

ENGINEERING

ENGR 100
Introduction to Engineering (2)
Introduction to the various fields and careers of engineering. Topics will include: educational planning and transfer issues; problem solving, engineering design, teamwork, and communication skills.

ENGR& 111
Engineering Graphics I (AE) (2)
Introduces the basic concepts of engineering graphics through freehand sketching and computer-aided drafting. Includes orthographic projection, section and auxiliary views, dimensioning and text.

ENGR& 112
Engineering Graphics II (AE) (3)
Continuation of ENGR& 111. Emphasizes basic concepts of engineering graphics in CAD-based descriptive geometry applications. The latter part of the course covers a variety of 3-D modeling techniques and solid mass properties extraction. AUTOCAD software is used as the primary CAD-tool. Prerequisites: ENGR& 111 or equivalent, MATH 111, or permission of instructor.

ENGR 203
Applied Numerical Methods (AE) (5)
Numerical solutions to engineering and science problems using modern scientific computing tools. Application of mathematical judgment in selecting computational algorithms and communicating results. Introduction to MATLAB programming for numerical computation. Prerequisite: MATH& 152 (MATH 118 recommended) or instructor permission.

ENGR& 204
Electrical Circuits (AE) (5)
An introduction to basic electrical circuits and systems. Topics include: basic analysis techniques; nodal and mesh analysis; Thevenin and Norton equivalent circuits; operational amplifiers; step, natural and steady state circuit response. Concurrent enrollment in MATH 212 is recommended. Prerequisite: MATH& 152 and PHYS& 222.

ENGR& 214
Statics (AE) (5)
First of a three-course sequence. The basic principles of vector statics; friction, analytical and graphical methods of solving force systems including frames, trusses, and other simple mechanisms; centroids and moments of inertia; chains and cables. Co-requisite: MATH& 151.

ENGR& 215
Dynamics (AE) (5)
Second of a three-course sequence includes the study of kinematics and kinetics of a particle, work-energy, impulse-momentum, relative motion, and rigid-body mechanics. Vector methods will be stressed throughout. Prerequisite: MATH& 152.

ENGR& 225
Mechanics of Materials (AE) (5)
The last of a three-course sequence. Includes the study of stress, strain, deflection in beams, columns, machine and structural members. Includes bending moments, shear, torsion, deformation, unsymmetrical bending, and eccentric loading. Prerequisite: ENGR& 214.

ENGR 270
Research in Engineering (AE) (12)
Design a research project, set up experiments, collect data in the lab or in the field, and/or analyze data. Each credit hour requires 33 hours of activity per quarter. Prerequisite: instructor permission.

ENGLISH

ENGL 093
Independent Study (1-5)
Individualized instruction for the student whose needs are not currently being met by the available course offerings. Specialized curriculum and instruction are developed to meet each students needs. Permission of instructor only.
ENGL 094
Spelling (1-5)
Topics covered in this course include basic spelling patterns, commonly confused words, apostrophe use, capitalization, plural formation, and how pronunciation helps to improve spelling. Students utilize materials according to pretesting information.

ENGL 095
Vocabulary Development I (1-5)
Builds a base of words used in everyday communication, provides systematic study, increases proficiency in oral and written communication, and reading comprehension. Students are given a placement test and assigned materials at an appropriate level.

ENGL 096
Vocabulary Development II (1-5)
Builds a base of words used in everyday communication, provides systematic study, increases proficiency in oral and written communication and reading comprehension. Students are given a placement test and assigned materials at an appropriate level.

ENGL 097
Vocabulary Development III (1-5)
Course provides a systematic study of college level academic words and their roots, prefixes, and suffixes to increase proficiency in oral and written communication.

ENGL 098
Writing & Grammar Review (1-5)
Study proper word usage, sentence structure, and punctuation. Writing includes personal essays and summaries. Emphasis is on improving grammar and writing skills for personal needs and preparation for technical coursework. Prerequisite: students must meet mandatory placement requirements to enroll.

ENGL 099
Fundamentals of English (1-5)
Prepares students for college composition. Students analyze texts, review sentence structure and punctuation, and write several short essays and other writing. Students must meet mandatory placement requirements to enroll.

ENGL 101
English Composition I (C) (5)
An expository writing course encouraging students to think and write clarity and conciseness; to organize and develop their ideas; and to express themselves sharply, economically, and grammatically. Students must meet mandatory placements to enroll. Prerequisite: Placement into ENGL& 101 or 5 credits of ENGL 099 or WRT 105 with 2.0+ or BTEC 221.

ENGL 102
Composition II (C) (5)
A course in argumentative and persuasive writing, methods of research, development and preparation of original source-based papers and projects. Prerequisite: completion of ENGL& 101 with a minimum grade of 2.0.

ENGL 103
Writing for College (AE) (1)
Lab hours in the Writing Center will support skill development and confidence in specific aspects of college writing, to be defined in an Individual Learning Plan (ILP) with instructor.

ENGL& 111
Intro to Literature (H) (5)
Introduces the major genres, techniques and themes of literature by examining the work of a variety of classic and contemporary authors.

ENGL& 113
Intro to Poetry (H) (5)
Introduction to modern poetry (mid-19th c. to present) through the study of major English language poets: their lives, influences, and works. Prerequisite: ENGL 101.

ENGL& 114
Intro to Dramatic Lit (H) (5)
Survey of dramatic literature from classical Greek to modern plays, emphasizing basic elements of plot, character, language, and the traditional genres of tragedy and comedy. Students will attend two plays at their own expense.

ENGL 160
Women's Literature (D) (H) (5)
Examines literature written by women to understand how gender, class and race shape their experience and their writing. Genres will include poetry, short stories, non-fiction, fiction and drama. College-level reading and writing skills expected.

ENGL 180
Short Fiction (H) (5)
Survey of short story as representational vehicle in romanticism, realism, modernism, horror, satire, science fiction, magical realism. Primarily American in focus; includes cross-cultural comparisons. College-level reading, writing skills expected. Creative writing options. Prerequisite: college level reading and writing skills.

ENGL 204
Introduction to Shakespeare (H) (5)
Learn about the life, times and works of William Shakespeare, how Elizabethans' likes and dislikes, superstitions, and social order influenced this golden age of the theatre by studying six of the Bard's 37 plays.

ENGL 208
Intro to Creative Writing (H) (5)
Writers will move beyond the traditional "academic essay" into an exploration of literary genres to include poetry, creative nonfiction, short fiction, and drama. Prerequisite: college-level writing: test into ENGL& 101.
**ENGL 209**

**The Hero's Quest: Survey of English Literature 7th Cent (H)** (5)
Surveys how medieval and early Renaissance English writers explored issues like the relationship between rulers and subjects, God and free will, and the war between the sexes. Covers the Beowulf poet, Chaucer, Shakespeare, and more.

**ENGL 210**

**The Crisis of Faith: Survey English Literature 1616 (H) (5)**

**ENGL 211**

**Survey of English Literature: 1798 - Present (H) (5)**
This survey studies how, amid political, technological, religious, and artistic ferment, English literature was transformed by the Romantic poets, the rise of the Victorian novel, and the innovations of modern fiction, drama, and poetry.

**ENGL 220**

**American Drama (H) (3)**
Presents six classic American plays which deal with society and family expectations. Students will view, analyze, discuss, and write on the literary components and substance of these plays.

**ENGL 233**

**Literature for Children and Adolescents (H) (5)**
Introduction to historical framework of this genre of literature and the authors and illustrators of children's books from pre-school to adolescence. Classics as well as contemporary publications included. Reading to children at day-care included.

**ENGL& 235**

**Technical Writing (C) (5)**
An alternative to ENGL& 102 for science and engineering majors, focused on writing with clarity, objectivity, audience awareness, proper formats as well as research techniques, problem-solving, critical thinking and development of source-based writing. Prerequisite: completion of ENGL& 101 with a minimum grade of 2.0.

**ENGL& 244**

**American Literature I (H) (5)**
Surveys three American literary movements: Puritans, Colonialists, and American Renaissance/Transcendentalism. Examines rise of a distinctly American literature, focusing on themes of faith, work, self-government, race and gender. Prerequisite: ENGL& 101 with 2.0 or better or instructor permission.

**ENGL& 245**

**American Literature II (D) (H) (5)**
American literature from Civil War to World War I: Gilded Age of industry/capital, labor movement, postwar race relations, westward expansion, gender issues/suffrage, shift from romanticism to realism/naturalism in prose and poetry. Prerequisite: ENGL& 101 w/2.0 or better or instructor's permission.

**ENGL& 246**

**American Literature III (D) (H) (5)**
Surveys development and diversification of American literature from Roaring 20s to the present, including modernist innovations in poetry/prose, the Beats, Harlem Renaissance, Latino/a, Asian American, Native American, feminist, environmental, science, and dystopian fictions. Prerequisite: ENGL 101 w/2.0 or better or instructor's permission.

**ENGL 249**

**The Great American Novel (H) (5)**
Explore development of the American novel, its major themes and stylistic techniques, focusing on classics by writers like Hawthorne, Melville, Twain, Chopin, Hemingway, Faulkner, Morrison, as well as evaluating contemporary works. Prerequisite: ENGL& 101 with 2.0 or better or instructor permission.

**ENGL 250**

**Literary Themes (AE) (1-5)**
A major theme is followed through important works of fiction, poetry, and drama. Themes vary depending on the instructor and the quarter in which it is offered.

**ENGL 251**

**Science Fiction (H) (5)**
Surveys rise and development of science fiction, focusing on short stories; students may address novels in course projects. Explores common themes; science fiction as social commentary; technology; war; relationships; race; gender; defining “human.” Creative writing options. Prerequisite: ENGL& 101.

**ENGL 260**

**Non-Western World Literature (H) (D) (5)**
Literature of the non-western world, ancient times to the present: Middle East, India, Africa, China, Japan, Americas focusing on how literature expresses these cultures' spiritual traditions, political values, gender issues, environmental beliefs. Prerequisite: ENGL& 101 with 2.0 or better or instructor permission.

**ENGL 271**

**Intermediate Creative Writing (AE) (3)**
Students will hone their creative writing, workshopping, and revising skills while working on an individual project. Prerequisite: ENGL 208 and instructor permission.
ENGL 272
Advanced Creative Writing (AE) (3)
For serious students who wish to prepare a manuscript for publication and/or writing program admission. Emphasis on workshopping, and revising of an individual project. Prerequisite: ENGL 271 and instructor permission.

WRT 105
Writing in the Workplace (5)
Study a variety of workplace communications, along with proper use of grammar, sentence structure, mechanics and vocabulary within those communications. Prerequisite: 5 credits of ENGL 098 with 2.0+ or placement into ENGL 099/WRT 105.

ENGLISH LANGUAGE ACQUISITION

ELA 011
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests lower than 190)

ELA 012
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests lower than 190)

ELA 013
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests lower than 190)

ELA 014
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests lower than 190)

ELA 021
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 191-200)

ELA 022
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 191-200)

ELA 023
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 191-200)

ELA 024
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 191-200)

ELA 031
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 201-210)

ELA 032
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 201-210)
ELA 033
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 201-210)

ELA 034
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 201-210)

ELA 041
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 211-220)

ELA 042
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 211-220)

ELA 043
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 211-220)

ELA 044
English for Work (1-15)
Introduces beginning non-native speakers of English to career pathways in Business, Health, Academic Transfer and Industry. Students learn listening, speaking, reading, writing and math skills through the use of contextualized instruction and technology. (Prerequisite: valid scaled scores from CASAS pre-or post-tests 211-220)

ELA 071
Aural/Written Lang 1 (1-9)
In this Level 1 Aural/Written Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or CASAS score of 211-220.

ELA 072
Lang Comprehension 2 (1-9)
In this Level 2 Language Comprehension course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or valid CASAS score of 221-235.

ELA 081
Aural/Written Lang 2 (1-9)
In this Level 2 Aural/Written Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test or CASAS score of 221-235.

ENVIRONMENTAL SCIENCE

ENVS 100
Survey of Environmental Science Lab (S) (1)
Field experience in environmental science. Visit local environments, both natural and human-dominated, ranging from old growth forests to floodplain restoration sites to recycling, forestry and organic farming operations. Includes two Saturday field trips.

ENVS& 100
Survey of Env Science (NS) (5)
An interdisciplinary course for both non-science majors and beginning science students. Topics include biodiversity, climate, pollution, energy, and food. Students cannot receive credit for both ENVS& 100 and ENVS& 101.

ENVS& 101
Intro to Env Science w/lab (NS) (5)
An interdisciplinary course for non-science majors and beginning science students. Topics include biodiversity, climate, pollution, energy and food. Independent laboratories and field trips included. Students cannot receive credit for Both ENVS& 100 and ENVS& 101.

ENVS 170
Natural Resources Mgmt (NS) (5)
What are Pacific Northwest forests, fishes and wildlife? Learn some common species, historical human uses, what policies drive their management, how to conserve them for future use, and how to plan for a career in the field.
ENVS 440  
Environmental Issues (NS) (5)  
An exploration of environmental issues and their effect on business, communities and consumers. Case studies are used to examine basic concepts of ecology and environmental science as they relate to permitting and other business decisions. Prerequisite: lower division natural science course.

FRENCH

FRCH& 121  
French I (H) (5)  
An introduction to the French language, including the major axes of reading, writing, listening, and speaking. While building competence in French language, students will also study francophone cultures from around the world, including but not limited to France.

FRCH& 122  
French II (H) (5)  
Second class in sequence. An introduction to the French language, including the major axes of reading, writing, listening, and speaking. While building competence in French language, students will also study francophone cultures from around the world, including but not limited to France. Prerequisite: FRCH& 121, or instructor permission.

FRCH& 123  
French III (H) (5)  
Third class in sequence. An introduction to the French language, including the major axes of reading, writing, listening, and speaking. While building competence in French language, students will also study francophone cultures from around the world, including but not limited to France. Prerequisite: FRCH& 122, or instructor permission.

FRCH& 221  
French IV (AE) (5)  
Reviews and expands essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. French is used almost exclusively in the classroom. Prerequisite: FRCH& 123 or permission of instructor.

FRCH& 222  
French V (AE) (5)  
Reviews and expands essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. French is used almost exclusively in the classroom. Prerequisite: FRCH& 221 or permission of instructor.

FRCH& 223  
French VI (AE) (5)  
Reviews and expands essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. French is used almost exclusively in the classroom. Prerequisite: FRCH& 222 or permission of instructor.

GEOGRAPHY

GEOG& 200  
Human Geography (D) (SS) (5)  
Introduction to basic geographical concepts, with an emphasis on interrelationships of people and their physical and cultural environments. Course will satisfy requirements for elementary education majors and meet state-mandated Essential Academic Learning Requirements for geography.

GEOL 100  
Geology for Engineering & Environmental Studies (NS) (3)  
Explore minerals and rocks, geological processes, and geological investigation techniques that relate to geotechnical and environmental concerns.

GEOL& 101  
Intro Physical Geology (NS) (5)  
Explore and recognize earth materials, processes and structures within a plate tectonics framework; origin and structure of the Earth, rocks and minerals, geologic time, earthquakes and volcanoes, ocean basins, formation of landscapes, special topics.

GEOL 102  
Physical Geology II (NS) (5)  
Introduces the processes that shape the landscape. Includes the study of mass wasting, river dynamics, groundwater sources, glacial landforms, deserts, and coastal processes. One or more field trips may be required. Includes lab. Prerequisite: MATH 098.

GEOL& 103  
Historical Geology w/Lab (NS) (5)  
Evolution of Earth and life as interpreted through the fossil and rock record. Includes fossils, relative and numerical-age dating, stratigraphic principles, global change, and the geologic history of the North American continent. Includes lab.

GEOL 108  
Natural Hazards and Catastrophes (NS) (5)  
An examination of earth materials and processes through the study of earthquakes, volcanoes, landslides, floods, tsunamis, hurricanes, tornadoes, wildfires, and meteorite impacts. Examination of causes and effects on human populations and the environment; preparedness, prediction and forecasting; mitigation of risks, and case studies.
GEOL 180
Cascade and Plateau Geology (NS) (3)
Students will explore the geology of a selected area of interest, for example, Hawaii, Grand Canyon, Rocky Mountains, Cascades, Yellowstone, Tetons, Southwest Deserts, etc.

GEOL& 208
Geology of Pacific NW (NS) (5)
Examines the geology and geologic history of the Pacific Northwest and geologic processes important to its evolution. Topics include volcanoes, earthquakes, plate tectonics, rock and minerals, faults and folds, mountain building, landforms, glaciation, and surface processes.

GEOL 270
Research in Geology (AE) (1-12)
Design a research project, set up experiments, collect data in the lab or in the field, and/or analyze data. Each credit hour requires 33 hours of activity per quarter. Prerequisite: instructor permission.

GERMAN

GERM& 121
German I (H) (5)
A multimedia course that combines video, audio, and print. Emphasis is on communicative proficiency, self-expression and cultural insight. Resources include CDs, videos, and the World Wide Web.

GERM& 122
German II (H) (5)
A multimedia course that combines video, audio, and print. Emphasis is on communicative proficiency, self-expression and cultural insight. Resources include computer study modules, recorded tapes, videos, laser disks, and the World Wide Web. Prerequisite: GERM& 121 or permission by the instructor.

GERM& 123
German III (H) (5)
A multimedia courses that combines video, audio, and print. Emphasis is on communicative proficiency, self-expression and cultural insight. Resources include CD’s, videos, and the World Wide Web. Prerequisite: GERM& 122 or permission by the instructor.

GERM& 221
German IV (5)
Reviews and expands essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. German is used almost exclusively in the classroom. Prerequisite: GERM& 123 or permission of instructor.

GERM& 222
German V (5)
Reviews and expands essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. German is used almost exclusively in the classroom. Prerequisite: GERM& 221 or permission of instructor.

GERM& 223
German VI (5)
Reviews and expands the essential points of grammar. Students will develop reading skills, build their vocabulary, and increase their listening and speaking skills in a variety of topics. German is used almost exclusively in the classroom. Prerequisite: GERM& 222 or permission of instructor.

HEALTH

HLTH 120
Women’s Health Issues (D) (HF) (3)
An opportunity to examine current women’s health and well-being issues.

HLTH 125
Exploring Healthcare Professions (3)
An opportunity for investigating the many career opportunities in the health sciences.

HLTH 130
Health & Wellness (HF) (3)
An exploration of current personal health issues and a presentation of contemporary approaches to obtaining and maintaining a high level of wellness.

HLTH 135
Healthy Weight Control (HF) (2)
An introduction to healthy eating that focuses on a balance of foods, including a variety of lifestyle change strategies that will enhance the maintenance of a healthy weight.

HLTH 140
Exercise & Nutrition (HF) (3)
The two core components of a healthy lifestyle—-a healthy diet and a safe exercise program—will be explored and developed. Students will be expected to exercise on their own.

HLTH 141
Global Health Issues (D) (HF) (3)
Introduction to global health issues, with a current events focus. Explore factors impacting the health of people around the world, including biological, socio-economic and environmental factors. Examine issues of water, disease, nutrition, and maternal-child health.

HLTH 143
Stress Management (HF) (2)
Understand how stress can impact quality of life. Learn methods for identifying stressors and strategies to effectively manage them. Construct a personalized stress management program.

HLTH 144
Technology Health/Fitness (HF) (2)
Explore current uses of technology for adherence, motivation and monitoring of health and fitness behaviors. Areas covered will be digital coaching, fitness monitors and trackers, downloadable applications and peer to peer or social apps.
HLTH 145
Safety and Fitness (HF) (3)
The course emphasizes the importance of safety, first aid, and exercise as they relate to an individual's level of health and fitness. The course includes the American Heart Association Heartsaver First Aid/CPR and AED certification.

HLTH 154
Community First Aid and CPR (1)
Basic First Aid/CPR/AED class covering critical skills needed to respond to and manage first aid, choking or sudden cardiac arrest emergencies in the first few minutes until emergency medical services (EMS) arrives.

HLTH 159
Anatomy & Terminology for EMT's (1)
Provide EMT students with a basic understanding of basic anatomy, functions of the human body, and medical terminology. Topics include: anatomic definitions, initial medical terminology, skeletal system, circulatory system, respiratory system, and the nervous system.

HIGH SCHOOL EQUIVALENT

HSE 001
Portfolio & English L5 (1-10)
SBCTC High School 21 Degree class demonstrating English competency through student self-evaluation of prior education, previous and current employment, and life experiences—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 002
CWP, Env Sci, English L5 (1-10)
SBCTC High School 21 Degree integrated reading writing class demonstrating English competency through the study of CWP’s and Environmental Science—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 003
Life Science & ENGL L5 (1-10)
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of Life Science and scientific thinking—in fulfillment of one’s high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 004
Occupational Ed & ENGL L5 (1-10)
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through studying communication, occupational skills and work opportunities—in fulfillment of one's high school degree competencies or GED. CASAS score 236-245.

HSE 005
US Hist, GOV, FA, ENGL L5 (1-10)
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of US History, Government and Fine Arts—fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 006
WA State Hist, English L5 (1-10)
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of Washington State History—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 007
Health, Fitness and English L5 (1-10)
SBCTC High School 21 degree class introducing emotional, physical, and mental components of health to develop an individual health and fitness program—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 008
Algebra 1 - L5 (1-5)
SBCTC High School 21 degree for Algebra 1—fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 009
Algebra 2 - L5 (1-5)
SBCTC High School 21 degree for Algebra 2—fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 010
Geometry - L5 (1-5)
SBCTC High School 21 degree for Geometry—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 236-245.

HSE 011
Portfolio & English L6 (1-10)
SBCTC High School 21 degree class demonstrating English competency through student self-evaluation of prior education, previous and current employment, and life experiences—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246- or higher (ASE 2).

HSE 012
CWP, Env Sci, English L6 h (1-10)
SBCTC High school 21 degree integrated reading writing class demonstrating English competency through the study of CWP’s and Environmental Science—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher.
HSE 013
**Life Science & English L6 (1-10)**
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of Life Science and scientific thinking—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher (ASE 2).

HSE 014
**Occupational Ed & ENGL L6 (1-10)**
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through studying communication, occupational skills and work opportunities—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher (ASE 2).

HSE 015
**US Hist, GOV, FA, ENGL L6 (1-10)**
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of US History, Government and Fine Arts—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher.

HSE 016
**WA State Hist, English L6 (1-10)**
SBCTC High School 21 degree integrated reading writing class demonstrating English competency through the study of Washington State History—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher.

HSE 017
**Health, Fitness, English L6 (1-10)**
SBCTC High School 21 degree class introducing emotional, physical, and mental components of health to develop an individual health and fitness program—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher.

HSE 018
**Algebra 1 - L6 (1-5)**
SBCTC High School 21 degree for Algebra 1-in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher (ASE 2).

HSE 019
**Algebra 2 - L6 (1-5)**
SBCTC High School 21 degree for Algebra 2-in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher (ASE 2).

HSE 020
**Geometry - L6 (1-5)**
SBCTC High School 21 degree for Geometry—in fulfillment of one's high school degree competencies or GED. Prerequisite: CASAS score 246 or higher (ASE 2).

HSE 052
**L5-WA Hist/Fine Arts/Scie (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 236-245

HSE 054
**L5-US Hist/Fine Arts/Scie (1-15)**
Integration of language arts and thinking skills through exploration of United States history: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine technological and innovational advancements within America. Prerequisite: CASAS score: 236-245

HSE 055
**L5-CWP/Fine Arts/Science (1-15)**
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, colonization, re-settlement, and migration. Will also examine technological, environmental, and innovational issues. Prerequisite: CASAS score: 236-245

HSE 062
**L6-WA Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of Washington State: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within the state. Prerequisite: CASAS score: 246-255

HSE 064
**L6-US Hist/Fine Arts/Sci (1-15)**
Integration of language arts and thinking skills through exploration of United States history: civics, economics, art, literature, music, history, industry, geography, settlement, and migration. Will also examine unique technological and innovational advancements within America. Prerequisite: CASAS score: 246-255

HSE 065
**L6-CWP/Fine Arts/Science (1-15)**
Integration of language arts and thinking skills through exploration of contemporary world problems; politics, economics, art, literature, music, history, industry, geography, colonization, re-settlement, and migration. Will also examine technological, environmental, and innovational issues. Prerequisite: CASAS score: 246-255
HISTORY

HIST 110
History of Intolerance (SS) (D) (3)
An examination and analysis, through reading and film, of intolerance in America's history. Particular attention will be paid to historical events which demonstrate intolerance based on: religion, ethnicity, race, gender, sexual orientation and age.

HIST& 116
Western Civilization I (SS) (5)
Analysis of the development of major political, economic, social and cultural characteristics of Antiquity and Medieval Europe.

HIST& 117
Western Civilization II (SS) (5)
Analysis of the modern state with emphasis on the Renaissance, the Reformation, Absolutism, Scientific and Political Revolutions.

HIST& 118
Western Civilization III (SS) (5)
Analysis of the late 19th and 20th centuries with special attention paid to the development of political, social and economic trends and events.

HIST& 126
World Civilization I (SS) (D) (5)
Focuses on the origins, development, and features of societies in the ancient and classical world. This course examines the political, social, and cultural contours of societies and the interactions and relationships among different historical cultures. (SS)(D)

HIST& 127
World Civilization II (SS) (D) (5)
Examines the progression of world history in pre-modern and early modern period. Topics include the development of mercantile capitalism, the Columbian exchange, revolutions in science, philosophy and politics, and the impact of colonialism and slavery. (SS)(D)

HIST& 128
World Civilization III (SS) (D) (5)
Examines the issues of modern world history including role of warfare, empire, diplomacy, and revolution in shaping international events and interactions taking place when cultural values, ideas, and technologies of multiple societies interact over time. (SS)(D)

HIST& 146
US History I (SS) (5)
Analysis of American history from the pre-invasion to the Antebellum Era. Emphasis will be on the political, social, and economic changes.

HIST& 147
US History II (SS) (5)
Analysis of American history from Antebellum Era to the Progressive Era. Emphasis will be on the political, social, and economic changes.

HIST& 148
US History III (SS) (5)
Analysis of American history from World War One to the present. Emphasis will be on the political, social, and economic changes.

HIST& 210
Introduction to Pacific Asian History (SS) (D) (5)
Description and analysis of emergence of modern nations of Pacific Asia. Gain understanding of historical and geographical context of the political and economic development of the region.

HIST& 214
Pacific NW History (SS) (5)
Study of the early exploration and settlement of the Pacific Northwest. Emphasis will be on the economic, political and social developments. The course is designed to meet state certification requirements for teachers.

HIST& 215
Women in U.S. History (SS) (5)
Exploration of female experiences in the 18th, 19th, 20th and 21st centuries by looking at class, race and ethnicity and study women in the context of the major historical developments in their time.

HIST& 220
African American History (SS) (D) (5)
Examines the history of the continent from the pre-colonial era to the present. Topics include pre-colonial lineage, patterns of ethnic identity, colonialism and tribal identity, urbanization and its impact, and apartheid.

HIST 275
America in Vietnam (AE) (5)
Overview of the Vietnam Conflict, including the Vietnamese culture, and history; U.S. foreign policy; roots of the war; effects on world politics media conduct during and after the war; and impacts on American society.

HIST 280
History of American Foreign Relations (SS) (5)
Survey of American foreign relations from the 17th to the 21st centuries focusing on such issues as national security, economic needs, capitalism democracy and imperialism.

HONORS PROJECT

HON 160
Honors Project (3)
Honors students will work with one faculty mentor to develop, complete, and publicly present a three-credit project or paper that requires original research and development. It is expected that the project will involve 60 to 90 hours of work, including initial and progress meetings with the faculty mentor.
HON 170
Honors Project (3)
Honors students will work with one faculty mentor to develop, complete, and publicly present a three-credit project or paper that requires original research and development. It is expected that the project will involve 60 to 90 hours of work, including initial and progress meetings with the faculty mentor.

HON 250
Honors Colloquium (5)
Honors students will explore the annual Phi Theta Kappa (International Honors society of the Two-Year College). Honors Study Topic in a colloquium setting, using texts, films, Internet, and other resources.

HORTICULTURE

HORT 101
Horticulture Science (3)
Overview of horticulture, landscape and botany. Classroom and lab. Prerequisite: GED.

HORT 102
Plant Pest Management (4)
Learn to detect, identify, and control weeds and diseases. Classroom and lab. Prerequisite: HORT 101.

HORT 103
Plant Propagation (3)
Learn multiple methods of reproducing plants primarily in a greenhouse setting. Prerequisite: HORT 103.

HORT 104
Pruning Principles & Practices (4)
Students learn basic methods of pruning different types of plants. Classroom and lab.

HORT 105
Landscape Equip Operation (3)
Landscape development and maintenance. Focus on power equipment. Classroom and lab. Prerequisite: HORT 104.

HORT 106
Landscape Maintenance (3)
Learn tree and lawn care, primarily using hand tools. Classroom and lab. Prerequisite: HORT 105.

HUMAN RELATIONS

HR 110
Human Relations-Workplace (5)
Study of behavior, personality, self-management, self-development, and elementary business psychology in the workplace. Focus on understanding and demonstrating skills imperative to workplace success including communications, personal attitude, motivation, and workplace etiquette.

HUMANITIES

HUM 110
Ethics and Cultural Values (H) (D) (5)
An interdisciplinary study of philosophy, literature, history and religion within Western and Oriental ethical systems of thought. It focuses on the importance of cultural values through a study of virtue, duty, utility, and rights.

HUM& 116
Humanities I (H) (5)
A survey of the major movements in art, architecture, music, philosophy and literature in a historical context, from pre-history to 1400 C.E.

HUM& 117
Humanities II (H) (5)
A survey of the major movements in art, architecture, music, philosophy, and literature in a historical context, from 1300 C.E. to 1800 C.E.

HUM& 118
Humanities III (H) (5)
A survey of the major movements in art, architecture, music, philosophy, and literature in a historical context, from 1800 C.E. to the present.

HUM 270
Survey of Film Studies (H) (5)
An examination of the social, historical, technical, and artistic aspects of film through viewing, study and discussion of notable motion pictures.

HUM 281-286
Lyceum I – VI (AE) (1)
The Lyceum offers a variety of lectures on topics of current interest across a wide variety of disciplines. The theme may vary from quarter to quarter.

HUM 315
Ethics (H) (5)
Foundation course in ethics as applied to businesses and organizations related to management issues. Students will explore theoretical concepts in business ethics and apply them to real-world situations based on challenges managers face.

INDIVIDUALIZED CERTIFICATE

ICP 101
Individualized Certificate Program Seminar (1)
Primary focus on the workplace environment. Emphasis on topics including: finding employment; job performance and advancement; customer relations, co-worker, bosses, workplace ethics; team work; and entrepreneurship. Provides practical information for immediate and future use.
ICP 201
Individualized Certificate Program (1-12)
A series of continuing, on-the-job training experiences. A minimum of 12 credits is required for each program. Students work in businesses, agencies, organization, or at the college, gaining employment experience in applicable field. Co-requisite: ICP 101

INFORMATION TECHNOLOGY

CS& 131
Computer Science I C++ (5)
Intended as an introduction to programming. Emphasis is on the features of the “C” programming language with an introduction to C++ object oriented programming and good programming style.

CS& 141
Computer Science I Java (5)
A study of rapid application development (RAD) JAVA. Development of GUIs using Swing Technology. Object Oriented Programming as it is implemented in JAVA. Introduction to graphics, animation, and multi-threading. Prerequisite: MATH 099 or equivalent.

IT 101
Intro to Programming (5)
This course provides an introduction to programming using Microsoft Visual Studio. Course focus is on building basic graphical applications using the Python programming language.

IT 117
Intro to Windows OS (3)
An introduction to Windows Operating System. Course will cover such things as the taskbar, Start menu, recycle bin, windows views, Window Explorer, storage devices, printing, saving, control panels, etc.

IT 119
Web Scripting 1 (5)
Designed for new web designers who want to develop, modify and design standards compliant web pages and sites using the HTML and CSS Languages. Students will be publishing their work on a web server.

IT 121
Web Scripting 2 (4)
A second course in Web Development. Focus is on modern, responsive, and accessible web design using the latest web specifications. Students will be publishing their work on a web server. Prerequisite: IT 119 or CST 119.

IT 123
PC Operating Systems (5)
This course is based on the CompTIA A+ certification materials. Material covered includes operating system basics, operating system administration, security, network services, cloud computing, virtualization and troubleshooting theory.

IT 124
Computer Hardware (5)
This course is based on the CompTIA A+ certification materials. Material covered includes typical desktop computer components, storage devices, peripherals, expansion cards, display devices, custom configurations, computer networking. Prerequisite: IT 123 or IT 125.

IT 125
Linux Operating Systems (5)
This course is based on the CompTIA Linux+ certification materials. Material covered includes Linux operating system basics, operating system administration, security, network configuration, virtualization and troubleshooting theory.

IT 130
IT Apps Internship (2)
Students will get hands on, full life cycle software development experience working on projects for the department and college. Projects will include web and database application design, development, maintenance and support. Prerequisite: IT 101 and IT 119 or CST 101 and CST 119.

IT 140
IT Support Internship (2)
This course is designed to provide students with an introduction to and experience in Help Desk operations. Students will learn the fundamentals of Tier 1 call taking and customer service. Prerequisite: IT 123 and IT 124 or CNT 123 and CNT 124.

IT 144
Microsoft Office for IT (5)
This course provides an introduction to Microsoft Office from the perspective of a support technician. Coverage includes installation, configuration, formatting, document structure, templates, forms, security and troubleshooting. Prerequisite: IT 123 and IT 124 or CNT 123 and CNT 124.

IT 150
Relational Databases (5)
Students learn the tools and processes for data modeling in Relational Database Management Systems. Topics include Structured Query Language (SQL), functional dependencies, normalization, database design methodologies and entity relationship modeling.

IT 201
Network Technology 1 (5)
This is the first course based on CompTIA Network+ certification materials. Material covered includes fundamental concepts, implementation and terminology relating to LANs, WANs, Internet-working, VLANs, Routing Basics and Wireless Networking. Prerequisite: MATH 098
**IT 202**
**Advanced Networking (5)**
This second networking course is based on CompTIA Network+ certification materials. Material covered includes advanced concepts, implementation and terminology relating to LANs, WANs, VLANs, Routing and Wireless Networking. Prerequisite: IT 201

**IT 203**
**Network Security (5)**
Course concentrates on materials commonly associated with Security+ certification. Coverage includes risk identification, intrusion detection, encrypted communication, firewalls and basic forensics. Prerequisite: IT 201 and IT 202 or CNT 201, 202.

**IT 205**
**PHP/SQL (4)**
An introduction to web application development using PHP and SQL. Coverage includes an introduction into server side programming using PHP, SQL database design, querying, and use from PHP. Prerequisite: IT 121 or CST 121.

**IT 218**
**Server OS 1 (5)**
This is a first course on server installation, configuration and management. Coverage includes Active Directory fundamentals, DHCP, DNS, and the basics of setting up and managing a web server. Prerequisite: IT 123.

**IT 219**
**Server OS 2 (4)**
This is the second course on server installation, configuration and management. Coverage includes server content management systems, PHP, Microsoft Exchange and Office 365. Prerequisite: IT 218 or CNT 218.

**IT 220**
**Server OS 3 (5)**
This is the third course on server installation, configuration and management. Coverage includes MS SQL, Lync, Hyper-V and an introduction to cloud computing. Prerequisite: IT 219 or CNT 219.

**IT 224**
**JAVA 1 (5)**
Introduction to Java programming. Concepts including procedural programming (methods, parameters, and primitive variables), control structures and logic (if/else, for and while loops), arrays, and an introduction to object oriented programming. Prior computer knowledge recommended.

**IT 228**
**JAVA 2 (5)**
Second course in the introduction to JAVA programming sequence. These topics include: abstract data structures, lists, stacks, queues, linked lists, maps, recursion, interfaces, encapsulation, serialization, file access, sorting and computational complexity. Prerequisite: IT 224 or CST 224.

**IT 230**
**JAVA 3 (5)**
Third and final course in the introduction to Java programming sequence. This course covers recursion, exception handling and recovery, remote file access, event driven programming, binary search trees, and priority queues. Prerequisite: IT 224 and IT 228 or CST 224 and CST 228.

**IT 235**
**CISCO Networking (5)**
Utilizing CISCO equipment and operating systems, students will gain the ability to install, operate and troubleshoot network environments. This course is based upon the skills needed to achieve a CISCO Certified Entry Networking Technician certification. Prerequisite: IT 201 and IT 202.

**IT 240**
**Mobile Device OS (3)**
This is an introductory course on mobile device operating system use and management. Course will include coverage of operating systems for currently popular devices such as Android Tablets and iPads. Prerequisite: IT 123 or CNT 123.

**IT 245**
**Object-Oriented Programming (4)**
An intermediate level course in object-oriented programming. Course covers creating classes from requirement documents, modeling using diagrams, object-relationship analysis, object reuse and good software design. Experience with one or more computer programming languages recommended.

**IT 250**
**Discrete Structures (4)**
A programming-based course in discrete structures. Logic, set theory, counting, algorithmic efficiency, graphs and trees are presented. This course uses programming algorithms to demonstrate and explore the discrete math topics commonly used in computer programming.

**IT 255**
**Design Patterns (4)**
This course builds upon object-oriented design methodologies and introduces the concept of design patterns to solve software problems. The well-known “Gang of Four (GOF)” patterns are explored.

**IT 260**
**Advanced Web Development (5)**
Students will learn to develop applications that use three-tier architecture, allowing for rich client side user interfaces, sophisticated functionality, and advanced database interactions. This course builds on previous experience in web development.

**IT 265**
**Mobile Applications (5)**
Students will learn how to design and implement software in a mobile environment, using the device’s sensors, distribution models, location awareness, and other interactive elements present in the mobile device.
**IT 270**  
**Dreamweaver (4)**  
Learn the Adobe Dreamweaver CC software from several perspectives, including tool usage, and use as a development environment for web and mobile applications.

**IT 275**  
**CSS Frameworks & Grids (4)**  
This course leads to the mastery of HTML and CSS in comprehensive and responsive design. Creation of grids, Syntactically Awesome Style Sheets (SASS) and responsive frameworks are covered.

**IT 280**  
**Advanced CSS & HTML (4)**  
This course expands beyond the current World Wide Web Consortium (W3C) standards of HTML and CSS into future territories. The course explores the latest in HTML and CSS and compares them with today’s techniques.

**IT 285**  
**WordPress Skinning (5)**  
WordPress is among the most popular content management systems/bloggings systems in the world. Students learn how to ‘skin’ a WordPress Site, providing the functionality of WordPress, but with the look and feel a customer wants.

**IT 310**  
**Adv Web Applications (5)**  
An advanced course in web development. This course covers the full web development stack including client side (HTML, CSS, JavaScript), server side (ASP.NET), database layer (MSSQL), using frameworks (MVC). Prerequisite: BAS-IT: AD admission or approval.

**IT 320**  
**Development Methodologies (5)**  
Students are introduced to formal software engineering methodologies. Various well known methodologies are covered through examination of case studies and in project work. Team development practices are emphasized. Prerequisite: BAS-IT: AD admission or approval.

**IT 330**  
**Software Engineering I (5)**  
An introduction course in software engineering. Software modeling using Unified markup language (UML) diagramming, systems (business) analysis, requirements gathering, analysis, and design are the focus of this course.

**IT 340**  
**Software Engineering II (5)**  
A second course in Application/Software Engineering. Introduces test-driven development. Coding exercises include building unit tests and application code based on the requirements documentation of a project. Prerequisite: BAS-IT: AD admission or approval.

**IT 350**  
**Advanced Databases (5)**  
A second course in Application/Software Engineering. Introduces test-driven development. Coding exercises include building unit tests and application code based on the requirements documentation of a project. Prerequisite: BAS-IT: AD admission or approval.

**IT 410**  
**Adv. Data Access Techniques (5)**  
This course examines utilization of advanced database systems such as NOSQL systems, dimensional cubes and hypercubes (OLAP), ODBC connections, and relational database systems for data analysis and development of data driven applications. Prerequisite: IT 350 or permission of instructor.

**IT 420**  
**Business Intelligence App (5)**  
Students gain practical experience and skills to develop business intelligence solutions. Students will create reports, dashboards, setup and perform statistical analysis, data mining, and classification/clustering of data using both programming and tools. Prerequisite: BAS-IT: AD admittance or permission of the instructor.

**IT 430**  
**Info Security for Dev (5)**  
Students will examine information system security. Students will develop protocols and controls to harden information systems, and learn how vulnerabilities in information systems can be exploited using common, easy to access tools and techniques. Prerequisite: BAS-IT: AD admittance or permission of the instructor.

**IT 440**  
**Internship I (5)**  
Students enrolled in this internship will have opportunities to serve on a software development team in some capacity, gaining practical experience in the software development life cycle, stakeholder communication, collaboration, and software development. Prerequisites: IT 310, IT 330, IT 340

**IT 450**  
**Internship 2 (5)**  
Students enrolled in this internship will have opportunities to serve on a software development team in some capacity, gaining practical experience in the software development life cycle, stakeholder communication, collaboration, and software development. Prerequisite: BAS-IT: AD admittance or permission of the instructor.

**IT 460**  
**BAS-IT: AD Capstone (5)**  
Students will deliver a working software project, and all associated documentation to demonstrate mastery of the software development life cycle, and of modern software development methodologies. Prerequisite: BAS-IT: AD admittance or permission of the instructor
INTEGRATED ENGLISH

IEL 015
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests lower than 190.

IEL 016
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests lower than 190.

IEL 017
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests lower than 190.

IEL 018
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests lower than 190.

IEL 025
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 191-200.

IEL 026
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 191-200.

IEL 027
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 191-200.

IEL 028
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 191-200.

IEL 035
IELC INTEGRATED LAB (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 201-210.

IEL 036
IELC INTEGRATED LAB (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 201-210.

IEL 037
IELC INTEGRATED LAB (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 201-210.

IEL 038
IELC INTEGRATED LAB (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 201-210.

IEL 045
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 211-220.

IEL 046
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 211-220.

IEL 047
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 211-220.

IEL 048
IELC Integrated Lab (1-5)
Technology lab for IELCivics. Students learn how to use computers as a tool to improve listening, speaking, reading, writing, and math skills. Prerequisite: valid scaled scores from CASAS pre- or post-tests 211-220.
**INTENSIVE ENGLISH PROGRAM**

**IEP 070**

**Comprehension Language 1 (1-9)**
In this Level 1 Comprehension Language Skills course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 071**

**Communicative Language 1 (9)**
In this Level 1 Comm Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 072**

**Comprehensive Language 2 (1-9)**
Language skills course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 073**

**Communicative Language 2 (9)**
In this Level 2 Comm Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 074**

**Comprehension Language 3 (1-9)**
In this Level 3 Comprehension Language Skills course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 075**

**Communicative Language 3 (9)**
In this Level 3 Comm Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 076**

**Comprehension Language 4 (1-9)**
In this Level 4 Comprehension Language Skills course, students will develop listening and reading comprehension skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**IEP 077**

**Communicative Language 4 (9)**
In this Level 4 Comm Language course, students will develop speaking, grammar, and composition skills needed to succeed in subsequent liberal arts and technical/occupational courses. Prerequisite: Official Language Test score or Accuplacer score.

**JOURNALISM**

**JOUR 106**

**Introduction to News Writing I (H) (5)**
Learn the difference between news writing and other types of writing. Practice writing a variety of kinds of news articles.

**JOUR 107**

**Introduction to News Writing II (H) (3)**
Start, develop and polish hard news and soft news stories. Practice gathering information from a variety of sources. Prerequisite: JOUR 106.

**JOUR 111**

**Newspaper Staff I (1-5)**
Help produce the college's online student newspaper. Editors, reporters, photographers, videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106.

**JOUR 112**

**Newspaper Staff II (1-5)**
Help produce the college's online student newspaper. Editors, reporters, photographers, videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106, 111.

**JOUR 113**

**Newspaper Staff III (1-5)**
Help produce the college's online student newspaper. Editors, reporters, photographers, videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106, 111, 112.

**JOUR 180**

**Issues in Mass Media (2)**
Discuss and interpret issues as they relate to the media. Learn to evaluate media messages critically.

**JOUR 206**

**News Reporting and Writing (5)**
Write a variety of in-depth and extended coverage news articles concentrating on enterprise and package projects. Practice writing editorial s, columns and reviews. Learn the basics of broadcast and public relations writing. Prerequisite: JOUR 106, 107, 111, ENGL 101

**JOUR 208**

**Copy Editing and Newspaper Design (5)**
Learn newspaper copy editing and page design. Edit copy for the student newspaper. Design and layout pages of the student newspaper. Prerequisite: ENGL 101, JOUR 106, 107, 111, 206

**JOUR 211**

**Newspaper Staff IV (1-5)**
Help produce the college's online student newspaper. Editor, reporters, photographers, videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106, 111, 112, 113.
JOUR 212
**Newspaper Staff V (1-5)**
Help produce the college's online student newspaper. Editors, reporters, photographers, videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106, 111, 112, 113, 211.

JOUR 213
**Newspaper Staff VI (1-5)**
Help produce the college's online student newspaper. Editors, reporters, photographers videographers, page designers, and advertising sales people needed. Prerequisite: JOUR 106, 111, 112, 113, 211, 212

LIBRARY

LIBR 180
**Research in the 21st Century (5)**
Students examine various strategies for locating, evaluating, and applying information resources in the research process. Attention is paid to information issues like intellectual property, censorship, and freedom of information. Prerequisite: eligibility for ENGL& 101.

LIBR 182
**Research Skills (2)**
Student will learn how to use the tools of research, including both traditional library resources and those accessed over the internet. They will discover how information is organized and indexed for retrieval, the appropriate search syntax for a variety of databases, and the underlying search patterns that remain constant from resource to resource. Students will demonstrate acquisition of these skills through the creation of a topic pathfinder and individual weekly assignments. Prerequisite: ENGL 099 or equivalent.

LINGUISTICS

LING 101
**Intro to Linguistics (SS) (5)**
Learn how languages take a collection of sounds and create meaning from them using many different techniques. This course studies the different levels of language composition by looking at data from many different languages. (SS)

LING 102
**World Languages Survey (D) (SS) (5)**
Similar to a family tree, the thousands of languages of the world are also related in complex ways. Learn how the history of human migration and culture can be seen in the world's languages. (D)(SS)

MATHEMATICS

MATH 095
**Basic Mathematics (1-5)**
For students who need to review basic math concepts such as whole number, fraction and decimal operations. Appropriate placement test scores.

MATH 096
**Pre-Algebra (1-5)**
Covers percents, proportions, unit conversions, geometry, simplifying algebraic expressions and solving simple first degree linear equations. Prerequisite: MATH 095 or appropriate test score placement.

MATH 097
**Algebra for Statistics (5)**
An algebra course for students intending to enroll in MATH& 146, Introduction to Stats. This course does not meet the algebra prerequisite for other quantitative skills courses or for transfer to the University of Washington. Prerequisite: MATH 096 or Compass score of 78+.

MATH 098
**Algebra I (1-5)**
For students with good arithmetic skills and familiarity with signed numbers and basic algebraic expressions. Problemsolving skills are emphasized. Topics include: linear equations and inequalities, graphing, polynomials, and rational expressions. Prerequisite: MATH 096.

MATH 099
**Algebra II (1-5)**
Introduces the concept of functions, their graphs and properties. Particular attention will be paid to linear, quadratic, exponential and logarithmic functions. Prerequisite: MATH 098 or equivalent.

MATH& 107
**Math in Society (M) (5)**
Designed to enhance math proficiency of liberal arts students as they meet personal and professional demands. Includes mathematics in management, statistics, probability, art, and other practical applications in society. Not preparation for calculus. Prerequisite: MATH 099 or equivalent.

MATH 118
**Linear Algebra (M) (5)**
Computational and modeling tools with applications in physics, mathematics, engineering, economics, and business. Topics include systems of equations, matrix algebra, vector spaces, subspaces, bases, orthogonality, transformations, and eigenvalues. Prerequisite: MATH& 142 or equivalent placement.
MATH 128
Discrete Structures (M) (5)
This class is designed to introduce mathematical concepts
and applications in computer science. Topics include logic,
permutations and combinations, graphs and trees, recursion,
and basic modular arithmetic. Prerequisite: MATH 099 or
Instructor permission.

MATH& 131
Math for Elem Education 1 (M) (5)
Designed to provide the conceptual framework for teaching
mathematics from kindergarten through eighth grade.
Prerequisite: MATH 099 or equivalent ASSET/COMPASS score.

MATH& 132
Math for Elem Education 2 (M) (5)
The second of two courses designed to provide the conceptual
framework for teaching mathematics from kindergarten
through eighth grade. Prerequisite: MATH& 131

MATH 135
Pre-Calculus Refresher (M) (5)
Designed as a refresher course for students who have
previously had a Pre-Calculus course. Content includes
everything covered in MATH 141 and MATH 142. Prerequisite:
High school pre-calculus equivalent or Instructor Approval.

MATH& 141
Pre-Calculus I (M) (5)
Study of elementary functions (polynomial, exponential,
logarithmic), systems of equations, matrix algebra. Modeling
and problem solving techniques are emphasized from a
graphic, symbolic and numeric perspective. Prerequisite: MATH
099 or equivalent placement.

MATH& 142
Pre-Calculus II (M) (5)
Graphical, numerical, symbolic development of trigonometric
functions and their inverses as defined on the unit circle and
right triangles; identities, equations, and applications; complex
numbers, polar coordinates, parametric equations, vectors,
conics, and sequences and series. Prerequisite: MATH& 141.

MATH 145
Statistics Prep Seminar (1)
Refreshes and enhances the necessary prerequisite skills
for a college-level statistics course. Topics include algebra
for statistics, spreadsheet software skills, and probabilistic
reasoning. Prerequisite: MATH 097, 099 or equivalent, or
instructor permission.

MATH& 146
Introduction to Stats (M) (5)
Introduction to concepts of data collection, organization and
summaries. Develop the fundamental concepts of mean,
median and standard deviation, probability, probability
distributions, and apply these ideas to hypothesis testing,
linear regression and analysis of variance. Prerequisite: MATH
097, MATH 099 or equivalent.

MATH 147
Finite Math for Business (M) (5)
Linear, polynomial and rational function models. Exponential
and logarithmic functions. Mathematics of finance, matrices,
linear programming, set operations and probability.
Prerequisite: MATH 099 or equivalent.

MATH& 148
Business Calculus (M) (5)
An introduction to calculus concepts needed for business
applications. Topics discussed are limits, derivative, integrals,
and partial derivatives. Business applications are stressed.
Prerequisite: MATH 147 or MATH& 141 or equivalent.

MATH 156
Calculus I Lab (AE) (1)
Analyze concepts from Calculus I using algebra-based
computer software. For students currently enrolled in Calculus
I or who have instructor permission. Corequisite: MATH& 151.

MATH 158
Calculus IV (AE) (3)
Fourth in a four-quarter sequence. Optimization of 2 and 3
variable functions, Lagrange Multipliers, applications and
techniques of multiple integration, Green's Theorem, Stokes
Theorem, and line and surface integrals. Prerequisite: MATH&
163 or its equivalent.
MATH 315  
**Teaching Math (M) (5)**  
Provides the requisite knowledge and skills to teach K-8 students core math concepts. Current state standards for math learning will be reviewed with a focus on understanding how to teach and apply mathematical concepts.

MATH 350  
**Managerial Statistics (M) (5)**  
Statistical analysis techniques will be examined and applied in case studies involving real-world management issues. Students will examine difficulties, subjective decisions, and pitfalls when analyzing data and making inferences from numbers. Prerequisite: Lower division Quantitative Skills course

MATH& 151  
**Calculus I (M) (5)**  
The first in a four-quarter sequence. Limits, derivatives of algebraic and some transcendental functions, applications of derivatives, the indefinite integral. Topics covered from numerical, analytical and graphical viewpoints. Prerequisite: MATH& 142 or equivalent.

MATH& 152  
**Calculus II (M) (5)**  
The second in a four-quarter sequence. Covers the calculus of transcendental functions (exponential, logarithm, inverse circular, hyperbolic), techniques of integration, sequences, series, and power series. Prerequisite: MATH& 151 or equivalent.

MATH& 163  
**Calculus III (AE) (5)**  
Third in a four-quarter sequence. Polar coordinates, parametric equations, vectors, and vector fields, the analytic geometry of three-space, partial derivatives, and multiple integrals. Prerequisite: MATH& 152 or equivalent.

MATH 100  
**Technical Mathematics I (5)**  
Focus is on methods of problem solving for the technical fields. Course develops mathematical vocabulary and skill with algebraic expressions, formula manipulations, graphing techniques, right triangle trigonometry, geometry, exponents, logarithms, and equation/system of equation solving. Prerequisite: MATH 098.

TMATH 101  
**Foundational Math Concepts (5)**  
Study of foundational math theory and concepts including number sense, algebra, geometry, data analysis and math vocabulary through inquiry-based learning. Does not meet Quantitative Skills distribution requirement for AA degree. Prerequisite: MATH 095 or equivalent.

TMATH 110  
**Technical Math II (3)**  
Course emphasizes trigonometric functions used to solve engineering, electronics, and mechanics application problems. Prerequisite: TMATH 100.

TMATH 116  
**Industrial Math (5)**  
Application of basic mathematical operations to specific workforce programs including common fractions, decimal fractions, percentages, ratio and proportion, practical algebra, and computations involving rectangles and triangles. Emphasizes the use of mathematics in diesel and welding. Prerequisite: MATH 095.

TMATH 121  
**Electronics Math 1 (5)**  
Students will be introduced to math concepts relating to electronics and robotics. Topics studied will include functions, direct and inverse relationships, unit analysis, calculator operation, linear and exponential equations, and spreadsheet math operations. Prerequisite: MATH 098.

TMATH 122  
**Electronics Math 2 (4)**  
Continuation of Electronics Math 1 -students will learn math concepts applicable to AC electronics and semiconductor device performance. Trigonometry and complex numbers will be emphasized. Prerequisite: TMATH 121.

**MECHATRONICS**

ERA 101  
**Electronics Assembly (5)**  
Techniques of electronics assembly using through-hole and surface mount components. Schematics and computer aided design will be studied. Heavy emphasis placed on personal and component safety and Electro-Static Discharge (ESD). Pre/Corequisite: MATH 098, ENGL 099 or equivalents.

MEC 105  
**Industrial Computer Operations (2)**  
Best practices for computer operations in an industrial environment. Topics include Microsoft Windows operating system navigation, hardware maintenance and various industrial software interfaces.

MEC 116  
**AC/DC Electronics (4)**  
Basic analysis and troubleshooting of Direct and Alternating current circuits including Ohm’s Law, Watt’s Law, and Kirchoff’s Laws; devices such as resistors, capacitors, and transformers are studied. Prerequisite: MATH 098 or equivalent.

ERA 117  
**Adv AC/DC Electronics (4)**  
Advanced theorems, analysis and troubleshooting of Direct and Alternating Current. Devices including inductors and variable resistors and capacitors will be studied. Circuit simplification theorems will be studied and demonstrated. Prerequisite ERA 116 or MEC 116.
MEC 120  
**Machine Tool Operation (6)**  
Introduction to machining operations. Emphasis on safe application of the most common machining procedures and machines used by multi-skilled industrial maintenance technicians.

MEC 151  
**Mechanical Systems (5)**  
Introduction to mechanical system components and safe operation of mechanical drive systems. Simple machines, basic drive systems, and operation of various tools will be studied.

MEC 152  
**Power Transmission (3)**  
Continuation of MEC 151, course includes study of power transmission components including bearings, brakes and gear systems. Concepts will also include vibration analysis, heat control and maintenance, and gear/cam systems. Prerequisite: MEC 151

MEC 153  
**Hydraulic Systems (5)**  
Introduction to fluid power - hydraulics and pneumatics. Safe operation of fluid systems will be emphasized. Course covers fluid characteristics, component symbols, control valves, pumps and reservoirs.

MEC 154  
**Electrohydraulics (4)**  
Continuation of MEC 153. Fluid power transfer and electrohydraulic fluid systems. Components studied will include pipes and hoses, pressure regulators, pressure and flow sensors, and electrical control systems. Heavy emphasis on troubleshooting. Prerequisite: MEC 153

MEC 155  
**Preventative Maintenance (3)**  
Basic Preventive and predictive maintenance procedures. Topics include facility upkeep, safety monitoring and risk management, teardown and inspection techniques, and technologies used in PM procedures. Prerequisite: MEC 151.

ERA 170  
**Solid State Devices (4)**  
Applications of circuits using solid state electronic devices will be studied. Course content will include diodes, transistors, solid state relays, operational amplifiers and their respective applications in sensory and device control circuits. Prerequisite: ERA 115.

MEC 190  
**Coop Work Experience (1-12)**  
Education through experience in an industrial automated facility. Students will learn safe work habits and proper workplace procedures and interaction strategies under the instruction of workplace supervisor. Prerequisite: instructor permission and Coop Work Experience Seminar.

ERA 212  
**Digital Electronics (4)**  
Digital logic systems and devices, boolean and hexadecimal numbering systems, combinational logic sequences and application of logic systems. Lab section emphasizes safety and electro-static discharge avoidance. Prerequisites: MATH 115, ERA 115.

MEC 220  
**Sensors and Instruments (5)**  
Examination of sensors and diagnostic tools used in industrial environments. Electrical and mechanical measurement instruments will be studied and troubleshooting steps performed to prove competency. Control systems will also be studied. Prerequisite: MEC 151

ERA 230  
**Robotic Controllers (4)**  
Introduction to robotic control systems and input/output processing. Platforms studied will include microcontrollers, computer numerically controlled (CNC) machines, various types of motor drive controllers and integration of input devices and sensors into algorithms to drive outputs. Prerequisite: TMATH 122 or equivalent.

ERA 235  
**Communication Systems (3)**  
Survey of communication systems used in electronics. Wired systems will include Serial, Parallel, Ethernet, fiber optic, industrial communication protocols and others. Wireless systems will include RF, IR, Bluetooth and Wi-Fi including basic applications in robotics.

ERA 240  
**Amplifiers (5)**  
Amplifier applications in audio and industrial settings. Topics will include small and large signal voltage and current amplifiers, analog and solid state configurations and applications to audio, sensing and measurement, and digital comparison circuits. Prerequisite: ERA 170.

MEC 250  
**Industrial Electronics (2)**  
Study of electricity in an industrial facility. Topics covered will focus on 3-phase power analysis and motion control devices including motors, motor drivers and controls. Prerequisite: MEC 116 or equivalent knowledge of AC electricity.

ERA 252  
**Data Processing for Automation (3)**  
Introduction to retrieving, storing, processing and reporting data from input devices common to an industrial setting. A heavy emphasis will be placed on MS spreadsheet and database applications. Prerequisites: ERA 121, ERA 170.

MEC 260  
**Allen Bradley PLCs (5)**  
Study of Allen Bradley programmable logic controllers. Input and output modules will communicate with peripheral devices such as sensors, motors, lights and relays. Heavy emphasis on ladder logic, safety, troubleshooting and efficiency.
MEC 261
Siemens PLCs (3)
Study of Siemens programmable logic controllers. Siemens SIMATIC equipment and STEP7 software will be used to construct basic PLC systems. Heavy emphasis on Siemens ladder logic, safety, troubleshooting and efficiency. Prerequisite: MEC 260.

MEC 270
Industrial Robotics (5)
Survey of robotics used in industry. Heavy emphasis on safe handling and work cell safety. Programming features include teaching points, program structure and device interfaces. Course includes Fanuc Corporation Certified Education Robot Training (CERT) Certification.

ERA 276
Robotics Capstone (3)
Class will cover project management through research and product development. Students will be required to supply project proposals, plans, budgets, structured updates and technical reports. Effective time management, communication and team dynamics will be emphasized. Prerequisite: instructor permission.

MEDIA STUDIES

M ST 122
Writing the Short Film (3)
An introduction to the basics of writing the short screenplay. Corequisite MST 261.

M ST 125
Introduction to Sports Announcing (AE) (1)
Learn about the history of Sports Broadcasting. Specific duties of announcers as well as technical knowledge, current trends, career paths, legal and ethical issues of Sports Broadcasting will be covered during the quarter.

M ST 126
Sports Announcing for Football (C) (1)
Learn and apply the basic skills and knowledge required of today's football announcers. This course will emphasize practical tips, ideas and theories that will help you on your way to becoming a quality football announcer.

M ST 127
Sports Announcing for Basketball (1)
Learn and apply the basic skills and knowledge required of today's basketball announcers. This course will emphasize practical tips, ideas and theories that will help you on your way to becoming a quality basketball announcer.

M ST 128
Sports Announcing for Baseball (1)
Learn and apply the basic skills and knowledge required of today's baseball announcers. This course will emphasize practical tips, ideas and theories that will help you on your way to becoming a quality baseball announcer.

M ST 158
Studio & Outdoor Lighting for Television & Film (2)
Discover the basic principles and techniques of lighting television and film sets in both indoor and outdoor situations.

M ST 159
Stagecraft for Television and Film (2)
Designed specifically for television and film majors, this class introduces students to the basic tools, materials, equipment and techniques used in the design and building of television and film sets.

M ST 190
Cooperative Work Experience (1-12)
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Reaching set learning objectives and development of positive work habits are emphasized. The Cooperative Education Coordinator and employees arrange Cooperative Work Experience. 60-360 hours on-the-job per quarter. Prerequisite: Enrollment in a Work Experience Seminar (BTEC 191-194) is required of Co-op students. You may take the Work Experience Seminar before or in the same quarter as the Co-op course. Instructor permission required.

M ST 220
Introduction to Broadcast News and Production (AE) (4)
Learn basic media news writing, produce and broadcast news and feature stories on both radio and television. Some media production techniques will be covered during the quarter.

M ST 225
Introduction to Telecommunications (AE) (5)
The field of telecommunications is constantly changing and affecting the way we live our lives. Learn about the history, social impact, moral, ethical issues and philosophies of telecommunications in our society.

M ST 230
Intro to Radio Broadcasting (C) (5)
As an introduction to radio broadcasting you will learn about programming philosophies, announcing skills, production techniques, copy writing and the FCC rules and regulations that apply to the industry.

M ST 231
Advanced Radio Broadcasting (3)
Learn strategies to research and prepare material for broadcast. The use of promotions and contests to increase station ratings also will be covered.

M ST 260
Intro to TV & Video Production (AE) (5)
Learn studio and control room operations, field and studio camera techniques, basic script writing and video editing. At the end of the quarter students will be able to write, produce and edit short videos.
MST 261
**Adv TV & Video Production for Electronic Media (5)**
Improve editing skills while producing documentary and music videos. Advanced camera, editing, studio and field production techniques will be covered. Students will also take part in producing live college basketball games.

MST 262
**Television Production (5)**
Students will write, direct, produce and edit video packages and participate as crew members in producing classmate’s video projects.

MST 271
**Radio Broadcasting Internship (1)**
Practice and perfect your announcing skills on the campus radio station KCED FM. Prerequisite: MST 230, 231 or instructor permission.

MST 281
**TV Broadcasting Internship (1)**
Designed for students who wish to produce independent video projects outside of the classroom environment. Permission of instructor required. Prerequisite: M ST 260, 261, 262.

**MEDICAL ASSISTANT**

MA 130
**Medical Math (5)**
A mathematics course that focuses on solving applications using percent, proportion, and unit conversion as well as descriptive data interpretation. Satisfies the math requirement for Medical Assistant AAS. Pre requisite: MATH 096 or equivalent.

MA 139
**MA Medical Terminology (5)**
A required class for all students enrolled in the Medical Assistant Program to develop a medical vocabulary from an anatomy, physiology, and pathology format. It is suitable for others entering medical-related fields.

MA 140
**Intro to Medical Assistant (5)**
An introduction to the profession of the Medical Assistant in the health care setting. Designed to explore the fundamentals of the scope of practice in a lecture and lab setting.

MA 208
**MA Electrocardiography (2)**
Electrocardiography (ECG) for the medical assistant student; including anatomy of the heart and the cardiac cycle, ECG applications and methods for testing in ambulatory care.

MA 241
**MA Clinical Procedures (6)**
Overview of physical examinations, procedures, and testing that a medical assistant would assist a health care provider with in an ambulatory care setting. Prerequisite: Acceptance into a 2nd year MA.

MA 242
**Medical Administration (7)**
An overview of pharmacology and medication administration as it applies to the medical assistant’s responsibilities in ambulatory care. Pre requisite: Acceptance into 2nd year MA program.

MA 243
**MA Clinical Procedure II (6)**
Surgical setup for clinical/office procedures explored in detail; review of the role of diagnostic imaging, rehabilitation, and nutrition in the interdisciplinary approach of patient care. Prerequisite: MA 242, MA 246 with a 2.5 GPA or higher.

MA 244
**MA Externship Seminar (1)**
This class allows the medical assistant extern to explore objectives and challenges in bridging their classroom/lab experiences to the experiences they are encountering in their externships. Prerequisite: MA 24 2, MA 246 with a 2.5 GPA or higher.

MA 245
**MA Clinical Externship (6)**
One hundred eighty unpaid hours of externship in an ambulatory health care setting that allows the medical assistant student to bridge their classroom education and lab training to the real world medical setting. Prerequisite: MA 242, MA 246 with a 2.5 GPA or higher.

MA 246
**MA Laboratory Procedures (10)**
Overview of laboratory procedures and regulations for the ambulatory health care setting, including phlebotomy training. Prerequisite: acceptance into 2nd year MA program.

MA 249
**MA Admin Procedures (8)**
Administrative protocols and procedures related to front and back office responsibilities in an ambulatory care setting; with emphasis on communications, medical records management, and fiscal management practices. Prerequisite: acceptance into 2nd year of MA program.

**MUSIC**

MUSC 100
**Fundamentals of Music (H) (5)**
Introduction to the elements of music theory, including scales, intervals, keys, triads, elementary ear training, notation, meter and rhythm.

MUSC& 105
**Music Appreciation (D) (H) (5)**
Developing an understanding of music through the study of musical elements and cultural contexts.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSC 118</td>
<td><em>Musical Theatre (H) (AE) (5)</em></td>
<td>The study of musical theatre, its major works, its significance in theatre history, and role in American culture with an emphasis on production elements and the play in performance.</td>
</tr>
<tr>
<td>MUSC 124</td>
<td><em>Jazz Ensemble I-VI (AE) (2)</em></td>
<td>Performing ensemble made up of students and community members. The ensemble's instrumentation is flexible, depending on availability of musicians. One evening rehearsal and one evening concert will be required. Off campus performances may be required.</td>
</tr>
<tr>
<td>MUSC 132</td>
<td><em>Music Theory II (AE) (3)</em></td>
<td>A technical study of music, designed for music majors and minors. Emphasis on part-writing, harmonization of melody and harmonic analysis. Required of all music majors. Prerequisite: MUSC&amp; 131 or permission of instructor. Co-requisite: MUSC&amp; 122.</td>
</tr>
<tr>
<td>MUSC 135</td>
<td><em>Beginning Guitar (AE) (2)</em></td>
<td>Presents the basic skills for reading and techniques needed to play the guitar. Intended for students with little or no background in guitar performance. Students must supply their own acoustic guitar.</td>
</tr>
<tr>
<td>MUSC 139</td>
<td><em>Music of the World (D) (H) (5)</em></td>
<td>A music survey of diversity found in music around the world. Examines music as accompaniment to ceremony and ritual, aid to work and routine, and an expression of universal unchanging human emotions. Prior musical experience is not necessary. Prerequisite: proficiency in reading, grammar skills.</td>
</tr>
<tr>
<td>MUSC 140</td>
<td><em>History of American Music (D) (H) (5)</em></td>
<td>This course offers students a thorough and general study of American Music from Tin Pan Alley to the first part of the 21st Century.</td>
</tr>
<tr>
<td>MUSC&amp; 141</td>
<td><em>Music Theory I (H) (5)</em></td>
<td>A study of musical concepts, such as pitch and rhythmic notation, scales and modes, key signatures, intervals, seventh chords and triads. Prerequisite: MUSC 100 or placement by instructor.</td>
</tr>
<tr>
<td>MUSC&amp; 142</td>
<td><em>Music Theory II (H) (5)</em></td>
<td>A study of musical concepts, including 16th and 18th century counterpoint, part writing, and musical phrases. Prerequisite: MUSC&amp; 141.</td>
</tr>
<tr>
<td>MUSC&amp; 143</td>
<td><em>Music Theory III (H) (5)</em></td>
<td>A study of musical concepts, such as dominant substitutions, voice leading chords, secondary dominants, motives, and phrase structures. Prerequisite: MUSC&amp; 142.</td>
</tr>
<tr>
<td>MUSC 144</td>
<td><em>Concert Choir I-VI (AE) (2)</em></td>
<td>A vocal ensemble performing both sacred and secular music literature. Availability for up to two evening performances is required.</td>
</tr>
<tr>
<td>MUSC 150</td>
<td><em>Applied Flute (AE) (1)</em></td>
<td>This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: Ensemble and/or music theory.</td>
</tr>
<tr>
<td>MUSC 151</td>
<td><em>Functional Piano I (AE) (1)</em></td>
<td>Functional piano study/skill for music majors. A practical course to accompany the music theory courses. Co-requisite: Simultaneous enrollment in music theory class.</td>
</tr>
<tr>
<td>MUSC 152</td>
<td><em>Functional Piano II (AE) (1)</em></td>
<td>Functional piano study/skill for music majors. A practical course to accompany the music theory courses. Prerequisite: MUSC 151 or permission of instructor (audition required). Co-requisite: Simultaneous enrollment in music theory class.</td>
</tr>
<tr>
<td>MUSC 153</td>
<td><em>Functional Piano III (AE) (1)</em></td>
<td>Functional piano study/skill for music majors. A practical course to accompany the music theory courses. Co-requisite: Simultaneous enrollment in music theory class. Prerequisite: MUSC 152 or permission of instructor (audition required)</td>
</tr>
<tr>
<td>MUSC 154</td>
<td><em>Applied French Horn (AE) (1)</em></td>
<td>This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.</td>
</tr>
<tr>
<td>MUSC 155</td>
<td><em>Applied Trumpet (AE) (1)</em></td>
<td>This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.</td>
</tr>
<tr>
<td>MUSC 156</td>
<td><em>Applied Trombone (AE) (1)</em></td>
<td>This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.</td>
</tr>
</tbody>
</table>
MUSC 157
Applied Tuba (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 158
Applied Euphonium (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 159
Applied Percussion (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 160
Applied Piano (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 161
Applied Violin (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 162
Applied Viola (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 163
Applied Cello (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 164
Applied Double Bass (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 165
Applied Guitar (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 166
Applied Saxophone (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 167
Applied Voice (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor’s permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 168
Applied Composition (AE) (1)
This course teaches composition skills to students majoring in music. Students will study musical literature from various style periods and composers and will complete works based on guidelines set out by the instructor. Instructor’s permission and/or audition required. Corequisite: Ensemble and/or music theory.
MUSC 169
Applied Clarinet (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 170
Applied Oboe (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 171
Applied Bassoon (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Instructor's permission and/or audition required. Corequisite: ensemble and/or music theory.

MUSC 172
Applied Harp (AE) (1)
This course teaches performance skills to students majoring in music. Musical literature from various style periods and composers will be selected to acquaint the student with a wide range of repertoire written for the instrument. Prerequisite: ensemble and/or music theory, and instructor permission.

MUSC 175
Community Band I-VI (AE) (2)
Performance ensemble consisting of students and community members. Repertoire will vary and be selected by the band director(s). The ensemble consists of band instrumentation and meets weekly for three hours.

MUSC 185
Community Orchestra I-VI (AE) (2)
Performing ensemble made up of students and community members. Repertoire will vary and will be selected by the orchestra director. The ensemble consists of orchestral instrumentation and meets weekly for three hours.

MUSC& 241
Music Theory IV (H) (5)
A study of musical concepts, such as modulation, binary and ternary forms, and contrapuntal genres, including fugues and inventions. Prerequisite: MUSC& 143

MUSC& 242
Music Theory V (H) (5)
A study of musical concepts, such as mode mixture, Neapolitan and Augmented Sixth chords, chromatic modulation, popular music and song forms, variation, Sonata and Rondo form. Prerequisite: MUSC& 241.

MUSC 243
Music Theory VI (H) (5)
A study of musical concepts, focused on techniques and methods of the 20th and 21st century. Prerequisite: MUSC& 242

MUSC 244
Performance Ensemble I-VI (AE) (1)
An ensemble is for the advanced performer (Instrumentalists or Vocalists). Music reading is imperative. Will perform many styles of music. Concert performances will be both on and off campus and/or tour. By audition ONLY.

MUSC 250
Musical Theatre Production I (H) (5)
Designed to introduce the student to all the elements of musical theatre. The student will study the audition process, the effect of musical choreography, the historical setting of the work chosen, musical score and dialogue.

MUSC 251
Musical Theatre Production II (AE) (5)
The student will continue to study the audition process, the effect of musical choreography, the historical setting of work chosen, musical score and dialogue. Prerequisite: by audition only.

MUSC 254
Vocal Ensemble I-VI (AE) (2)
A small vocal ensemble that prepares and performs chamber works, and contemporary vocal literature. Placement is by audition only. Auditions will take place during the first scheduled class.

MUSC 276
Computer Music (AE) (3)
A course focused on the creation of music using digital software on computers and/or other electronic devices.

MUSC 281
Instrumental Improvisation I-VI (AE) (2)
An historical study of improvisation in instrumental styles: Dixieland, jazz, and contemporary popular music. Course will involve stylistic and chordal analysis as well as performance on the students major instrument.

NURSING

NURS 101
Basic Nursing Care Concepts (12)
Program themes of homeostasis, the role of the nurse, and continuum of care are applied at on-campus theory and skills labs and off-campus clinical experiences at assisted living and long-term care facilities. Prerequisite: admission to the Centralia College Nursing Program.
NURS 102
Common Alterations I (12)
Progressive competencies reflecting program themes are applied to nutrition; cardiac, respiratory, and endocrine systems; and medication and fluid administration. On-campus theory, skills labs and off-campus clinical experiences are provided. Prerequisite: NURS 101 or equivalent.

NURS 103
Common Alterations II (12)
Progressive competencies reflecting program themes are applied to surgical, neurologic, musculoskeletal, renal, and gastrointestinal nursing care. On-campus theory and skills labs and off-campus acute care clinical experiences are provided. Prerequisite: NURS 101, 102 or equivalent.

NURS 108
Electrocardiography for Health Care Professional (2)
Review of cardiac anatomy and physiology; ECG equipment operation and supplies; patient preparation; ECG testing procedure; rhythm recognition and interpretation; cardiovascular disorders; pharmacology in ECG testing. Includes hands on ECG training and practice. Co-requisite: RN, LPN, or nursing student or instructor permission.

NURS 200
LPN to RN Transition (2)
Explores LPN and RN roles and responsibilities. Centralia College Nursing Program philosophy, purpose, conceptual framework, and outcome criteria are reviewed. Includes orientation to clinical facilities and classroom, campus, and off-campus lab expectations. Prerequisite: Admission to RN program.

NURS 201
Mental Health & Lifespan (10)
Progressive competencies reflecting program themes are applied to the care of clients with mental health alterations, complications of child-bearing and high-risk newborns and children. Community-based and in-patient clinical experiences are provided. Prerequisites: NURS 101, NURS 102, NURS 103 & Co-requisite NURS 220 or equivalents.

NURS 202
Complex Alterations (12)
Progressive competencies reflecting program themes are applied to the care of clients with complex alterations in health. Women's Health and Pediatric and Adult acute care clinical opportunities are provided at regional facilities. NURS 201 and 220 or equivalent.

NURS 203
Complex Management (8)
Progressive competencies reflecting program themes are applied to the care of clients with complex alterations in health. Community-based and acute care inpatient clinical opportunities are provided at regional facilities. Prerequisite: NURS 201, NURS 202 & NURS 220 or equivalent, concurrent NURS 222.

NURS 210
Basic Life Support for Healthcare Providers (1)
Covers the information and skills needed for adult, child, and infant cardiopulmonary resuscitation; the use of an automated external defibrillator; recognition and treatment of choking; safety factors in training and actual rescue. Corequisite: admission to the nursing program or permission of the instructor.

NURS 220
Management & Leadership (2)
Expands on the program theme of the role of the nurse to provide a stronger theoretical foundation for assuming a management and leadership role in a variety of care settings. Prerequisite: NURS 101, 102 and 10 3 or equivalent; corequisite: NURS 201.

NURS 222
Transition to Practice (4)
Preceptor-guided experiences in a variety of community health care organizations are provided. Community-based and personal professional development projects are assigned. Prerequisite: NURS 201, NURS 202, NURS 220 and corequisite NURS 203 or equivalent.

NURSING ASSISTANT

HLSV 100
Home Care Aide
Home Care Aides provide personal care for vulnerable individuals. Upon successful completion of the DSHS-approved course, graduates are eligible for the WA state HCA competency exam. HCA's must have a favorable background check. RCW 18.130.064.

HLSV 110
Basic Life Support for Healthcare (1)
Course covers the information and skills needed for adult, child, and infant cardiopulmonary resuscitation; the use of an automated external defibrillator; recognition and treatment of choking; safety factors in training and actual rescue.

HLSV 122
Calculation and Vocabulary of Healthcare Profess (4)
This course will use a team teaching approach to give students the basic calculations and vocabulary skills needed to enter the healthcare field including the abbreviations and formulas commonly used in the NAC profession.

HLSV 130
Basic Fundamentals of Caregiving (2)
Focus is on the requirements for basic caregiving. Topics include client rights, communication, problem solving skills, and protecting the health and safety of residents.

HLSV 131
Nursing Assistant Certification (9)
Awareness of the role of the nursing assistant in nursing care and skill development. Topics: maintain a safe environment, provide restorative care, communication, and practice basic concepts of care. Background check is required for clinical.
HLSV 132  
**Nurse Delegation (2)**  
Class for Washington caregivers who work or will work with specific populations in community-based care settings. Course covers laws pertaining to delegation and hands-on skills.

HLSV 133  
**Mental Health 1 (1)**  
Course identifies types of mental illness and common signs and symptoms. Learn capable caregiving for mental wellness. A DSHS curriculum that meets population specific training requirements.

HLSV 134  
**Dementia 1 (1)**  
Learn how dementia affects a person’s body and mind. This basic understanding is the foundation on which to build skills needed to provide the best care for people with dementia.

HLSV 160  
**Emergency Medical Technician (12)**  
Techniques of emergency medical care presently considered as the responsibilities of a technician in his/her role. Designed to assure a uniformly high level of knowledge and skills among those involved in emergency care. Prerequisite: healthcare provider CPR, instructor permission.

HLSV 163  
**Emergency Medical Responder (5)**  
This course prepares students for certification as an Emergency Medical Responder in the State of Washington. Both lecture and practical training are used to teach important aspects of basic pre-hospital care.  
Prerequisite: 18 years old, affiliated with Lewis County EMS, valid driver’s license.

NUTRITION

NUTR 101  
**Nutrition (NS) (5)**  
An exploration of human nutrition with an emphasis on metabolism, digestion, dietary planning and analysis, and weight control. Prerequisite: High school-level biology or chemistry.

NUTR 202  
**Nutritional Laboratory (AE) (1)**  
Consumer-oriented labs will teach students how to analyze their diet, apply nutrition knowledge to menu planning and reading food and supplement labels. Prerequisite: NUTR 201, HLTH 140 or permission of instructor.

NUTR 203  
**Issues in Nutrition (NS) (5)**  
Examines the interrelationship between diet and individual lifestyles with regard to health risks during all stages of life.

OCEANOGRAPHY

OCEA 101  
**Intro to Oceanography (NS) (5)**  
Explore the physical, geological, chemical and biological characteristics of the ocean: waves and tides, ocean and atmosphere circulation, coastal features and beach processes, ocean basins, sediments, ocean chemistry and physics, plate tectonics, and marine life.

PHILOSOPHY

PHIL 101  
**Intro to Philosophy (H) (5)**  
Investigate the assumptions philosophers have made about reality, knowledge, truth, God, morality, social construction, freedom, and paternalism.

PHIL 103  
**Introduction to Ethics (H) (5)**  
Focus on choices made in concrete circumstances. Study traditional ethical theories and present-day moral dilemmas.

PHLEBOTOMY

PHLE 131  
**Intro to Phlebotomy Tech (5)**  
Overview of laboratory procedures and regulations for the medical office laboratory. Prerequisites: BIOL 170 & 172, MA 139 with a 2.5 GPA or higher.

PHLE 132  
**Advanced Phlebotomy (8)**  
Expansion of Phlebotomy skills introduced in PHLE 131. This course will offer lecture and lab sessions with emphasis on hands on practice and dexterity for successful and safe venipuncture. Prerequisite: PHLE 131 with a 2.5 GPA or higher.

PHYSICAL EDUCATION

P E 101  
**Introduction to Physical Education (3)**  
A survey course designed for students considering a career in physical education, recreation and sports. Presents background information for the wide scope of career opportunities.

P E 103  
**Basketball (1)**  
This course will cover the basic skills and techniques of basketball. Includes team defense and team offense.

P E 107  
**Cycling Basics (HF) (2)**  
A class consisting of road tours of varying distances as well as classroom lectures. Each student must have a bicycle in good repair and an approved helmet.
**PE 108**  
**Soccer Fundamentals (1)**  
This course will cover the basic skills and techniques of soccer. Includes team defense and team offense.

**PE 109**  
**Golf (1)**  
Instructions for beginners, fundamentals, rules, and etiquette. Off campus but first class will meet in HWC 103.

**PE 110**  
**Physical Fitness (HF) (1)**  
Study all five areas of fitness: aerobic endurance, muscle strength, muscle endurance, flexibility, and body composition. Students work at their own fitness levels.

**PE 111**  
**Fitness in the Workplace (HF) (1-2)**  
Course will increase cardiovascular endurance, flexibility, and increase strength. Students will develop and conduct their own personal fitness program.

**PE 113**  
**Beginning Tennis (1)**  
Instruction for beginners in fundamentals of the game. Rules and court etiquette. All students need their own racquet. Gold Street courts will be used. First class meets in GYM 120.

**PE 115**  
**Volleyball (1)**  
This course will cover the fundamental skills and techniques of beginning volleyball. Includes basic rules, scoring and strategy.

**PE 120**  
**Lifestyle Mgmt & Exercise (HF) (2)**  
Designed to assist individual in making life style changes associated with health and fitness.

**PE 121**  
**Stretching & Flexibility (HF) (1)**  
Learn and perform safe stretches to increase flexibility and range of motion. Understand how stretching can help decrease injury, recover after other workouts and calm the mind and body.

**PE 123**  
**Basic Weight Training/Conditioning (HF) (1)**  
Designed to condition the musculature of the body using machine and free weights.

**PE 125**  
**Free Weights (HF) (1)**  
Designed to develop muscle fitness through lifting free weights, Olympic lifts, plyometrics and power lifting. Students need prior weight training experience.

**PE 130**  
**Basketball Applications (3)**  
A course designed to provide experience in advanced strategies, fundamental skills, and team concepts of basketball. Prerequisite: PE 103, 1 67 or instructor permission.

**PE 131**  
**Baseball Application I (3)**  
Learn the techniques and strategies in a practice or game situation with an emphasis on fundamentals, conditioning, team concept and sportsmanship.

**PE 139**  
**Volleyball Applications (3)**  
A course designed to provide experiences in advanced strategies, skills, and team concepts of volleyball. Prerequisite: PE 115 or instructor permission.

**PE 140**  
**Boot Camp Basics (HF) (1)**  
A high-impact exercise class designed to improve muscle strength, endurance, flexibility and aerobic capacity.

**PE 141**  
**Elite Fitness (1)**  
A combination of cardio, strength, core and circuit training in athletic conditioning format. Topics of athletic durability, athletic functional training, and the typical physical adaptations will be covered throughout the quarter. Prerequisite: instructor permission.

**PE 142**  
**Cardio Conditioning (HF) (1)**  
A combination of current cardio experiences to improve cardiovascular endurance, body composition, muscle fitness and flexibility. A variety of movements will be explored, including step aerobics, kickboxing, HIIT, Zumba and circuits.

**PE 150**  
**Yoga (HF) (1)**  
An exercise class integrating components of flexibility, muscular strength and endurance, and relaxation. Students will be encouraged to work at their own level of fitness.

**PE 151**  
**Aerobic Fitness/Walking (HF) (1)**  
A fitness program emphasizing aerobic activities only. Designed to develop cardiovascular endurance, flexibility and body composition.

**PE 152**  
**Pilates/Core (HF) (1)**  
An exercise class designed to teach breathing with movement, body mechanics, balance, coordination, spatial awareness, strength and flexibility.

**PE 153**  
**Tai Chi Basics (HF) (1)**  
Develop balance, lower-body strength and relaxation in motion with Wu Style Tai Chi. Students will work at their own level of fitness.

**PE 158**  
**Beginning Tae Kwon Do (HF) (2)**  
Develop balance, coordination, agility, spatial awareness, strength, and flexibility through the Korean art of Tae Kwon Do. Students will work at their own level of fitness.
Intermediate Tae Kwon Do (2)
Further development of the techniques, forms, the sport, and self-defense aspects required to advance to blue belt in the Korean martial art of Tae Kwon Do.

Advanced Tae Kwon Do (2)
Further development of the techniques, forms, the sport, and self-defense aspects required to advance to blue and orange belt in the Korean martial art of Tae Kwon Do.

Softball Fundamentals (1)
A mental and physical approach to the fundamentals of fast pitch softball. An emphasis will be placed on the basic skills and concepts needed to play the game effectively.

Softball Theory (3)
An analysis of the mental approach to the game of softball. An emphasis will be placed on the theories and strategies of fast pitch.

Softball Applications I (3)
Learn how to apply the fundamentals of softball in game like situations.

Baseball Fundamentals (1)
On-the-field practice in development of the basic fundamentals of baseball. Emphasis on basic skills and conditioning.

Basketball Fundamentals (1)
This course will implement basic fundamentals with theory of various phases of the game. Conditioning for a lifetime activity is an important aspect of the course.

Lifetime Fitness (HF) (2)
Cardiovascular endurance, muscle fitness, weight management and flexibility will be studied. One lecture hour and two hours of activity per week.

Theory of Baseball (3)
A practical course with emphasis on the coaching of offensive and defensive strategies, theory, psychology and basic rules. First class meets in Gym.

Adv Soccer Fundamentals (1)
This course will review basic skills and techniques of soccer. Included in the course will be advanced skills and techniques along with game strategies, team offense and team defense. Prerequisite: PE 108 or instructor permission.

Advanced Golf (1)
The course is designed to help the individual develop more advanced skills and strategies of golf. Prerequisite: PE 109 or instructor permission. First class meets in Gym.

Advanced Physical Fitness (HF) (1)
Designed to continue the individual's personal health-related physical fitness - cardiovascular endurance, muscular strength, muscular endurance, body composition and flexibility. Students will be encouraged to work at their own level of fitness. Prerequisite: PE 110 or instructor permission.

Advanced Fitness in the Workplace (1-2)
Course will continue to increase cardiovascular endurance, flexibility, and increase strength. Students will develop and conduct their own advanced personal fitness program.

Advanced Tennis (1)
For students who are more advanced than the beginning level in tennis. First class will meet in the gym classroom. Burst Court will be used.

Advanced Volleyball (1)
Advanced techniques and skills included in competitive volleyball. Advanced offensive and defensive tactics and strategy will be covered. Prerequisite: PE 115 or instructor permission.

Advanced Weight Training (HF) (1)
Advanced weight training methods and programs including Olympic lifting and power lifting programs. Prerequisite: PE 123.

Physical Fitness Concepts (HF) (3)
A combination of theory and practice in the development of physical fitness. Two lecture hours and two activity hours per week.

Advanced Basketball Applications (3)
A course designed to provide experiences in advanced strategies, advanced fundamental skills, and advanced team concepts of basketball. Prerequisite: PE 130 or instructor permission.

Baseball Application II (3)
Learn advanced techniques and strategies in a practice or game situation with an advanced emphasis on fundamentals, conditioning, team concept and sportsmanship. Prerequisite: PE 131 or instructor permission.
**PE 239**
**Advanced Volleyball Applications (3)**
Provides experiences in advanced techniques and tactics needed to execute advanced team concepts of volleyball.

**PE 251**
**Advanced Aerobic Fitness/Walking (HF) (1)**
Advanced aerobic conditioning class for the well-conditioned aerobic athlete. Prerequisite: PE 151.

**PE 262**
**Advanced Softball Fundamentals (1)**
Continuation of the physical and mental skills needed for playing fast pitch softball. Emphasis will be on a variety of strategies utilized in the game of softball.

**PE 264**
**Advanced Softball Theory (3)**
An advanced analysis of the mental approach to the game of softball. An emphasis will be placed on the theories and strategies of fast pitch. Prerequisite: PE 164

**PE 265**
**Softball Applications II (3)**
Learn how to apply the advanced techniques of softball in game-like situations. Prerequisite: PE 165 or instructor permission.

**PE 266**
**Advanced Baseball Fundamentals (1)**
On the field practice in development of the advanced fundamentals of baseball. Emphasis on advanced skills, strategies, and techniques. Prerequisite: PE 166 or instructor permission.

**PE 267**
**Advanced Basketball Fundamentals (1)**
More advanced skills practiced. Prerequisite: PE 167 or instructor permission.

**PHYSICS**

**PHYS& 110**
**Physics: Non-Sci Majors w/Lab (NS) (5)**
A survey of physics with applications in everyday life for non-science majors. Basic concepts in Newtonian mechanics, thermodynamics, electricity, magnetism, optics, and modern physics. Requires knowledge of basic algebra. Includes a 2 hour lab.

**PHYS& 114**
**General Physics I w/Lab (NS) (5)**
Fundamentals of classical mechanics. The first of a three quarter sequence for science majors not requiring calculus based physics. Classica I mechanics including statics and dynamics of particles, rigid bodies, and fluids. Prerequisite: two years HS algebra and trigonometry or concurrent enrollment in MATH 110.

**PHYS& 115**
**General Physics II w/Lab (NS) (5)**

**PHYS& 116**
**General Physics III w/Lab (NS) (5)**

**PHYS& 221**
**Engineering Physics I (NS) (5)**
First in a three quarter calculus-based sequence for science and engineering majors stressing classical mechanics. Include dynamics of translational, rotation, and oscillatory systems of solids, particles and fluids. Prerequisite: MATH& 151 and Corequisite: MATH& 152.

**PHYS& 222**
**Engineering Physics II (NS) (5)**
Wave motion, thermodynamics, and electrostatics. Includes sound, heat transfer, law of thermodynamics, and electric fields. Prerequisite: PHYS& 221 and MATH& 152 and corequisite: MATH& 153.

**PHYS& 223**
**Engineering Physics III (NS) (5)**
Optics modern physics, electricity and magnetism. Includes geometrical and physical optics, Maxwell's equations, AC/DC circuits and special relativity. Prerequisite: PHYS& 222 and MATH& 153.

**PHYS 270**
**Research in Physics (AE) (12)**
Design a research project, set up experiments, collect data in the lab or in the field, and/or analyze data. Each credit hour requires 33 hours of activity per quarter. Prerequisite: instructor permission.

**POLITICAL SCIENCE**

**POLIS& 101**
**Intro Political Science (SS) (5)**
Exploration of the fundamentals of political science: key concepts, principles, and theories. Analyze why and how leaders make the decisions they do, and why citizens obey most of these decisions.

**POLIS& 202**
**American Government (SS) (5)**
Students will examine the American political structure and its ideological roots. We will explore how the structure is organized and how it operates.
POLS& 204  
**Comparative Government (D) (SS) (5)**  
Examine political theory and application within a comparative framework: ideology, nature of participation, as well as a variety of governmental structures, and functions. Contemporary situations will provide the cases for example and analysis.

POLS 220  
**International Terrorism (AE) (S)**  
An introduction to terrorism in contemporary society, focusing on the underlying political, social, economic, cultural and religious causes, its use as a political tool and measures to be taken to counter and prevent its use.

POLS 280  
**History of American Foreign Relations (SS) (5)**  
Survey of American foreign relations from the 17th to 21st centuries, focusing on such issues as national security, economic needs, capitalism, and democracy and imperialism.

**PSYCHOLOGY**

PSYC& 100  
**General Psychology (SS) (5)**  
An introduction to the scientific study of behavior: history, research methods, biology of behavior, lifespan development, sensation and perception, learning, memory, intelligence, motivation, emotion, personality, psychological disorders and therapies, and social psychology.

PSYC& 200  
**Lifespan Psychology (SS) (5)**  
Human development from conception to death. Basic concepts and principles of biological, cognitive, and psychosocial development are integrated for each age period. Typical developmental tasks as well as problems are emphasized. Prerequisite: PSYC& 100.

PSYC 202  
**Biopsychology (AE) (5)**  
Biopsychology, studies the branch of neuroscience that explains human behavior in terms of the biology of the brain, including mechanisms that produce motivation, emotion, and aggression. Prerequisite: PSYC& 100.

PSYC 209  
**Research Methods (AE) (5)**  
Overview of scientific method, major research designs, statistical concepts and utilization of materials related to scientific journals. Prerequisites: PSYC& 100 (may be currently enrolled), eligible for ENGL& 101 and college-level math.

PSYC 210  
**Introduction to Personality (AE) (5)**  
An introduction to the study of personality, including major theories, with a focus on basic principles of psychology and their application to personality development, personal growth and psychological adjustment. Prerequisite: PSYC& 100 or instructor permission.

PSYC& 220  
**Abnormal Psychology (5)**  
An introduction to the study of abnormal behavior, including behavioral problems, personality disorders and maladjustment, and the study of the causes, diagnoses, and treatment. Prerequisite: PSYC& 100.

PSYC 250  
**Social Psychology (AE) (5)**  
The scientific study of how a person's thoughts, emotions and behavior are influenced by other people. Includes an exploration of: propaganda, persuasion, social cognition, human aggression, prejudice, love, and interpersonal sensitivity. Prerequisite: PSYC& 100 or instructor permission.

PSYC 320  
**Leadership & Org. Behavior (SS) (5)**  
Relate theory and research to organizational problems by reviewing advanced concepts in motivation, perception, leadership, decision-making, communication and influence, group behavior, diversity, conflict and cooperation, politics, corporate culture, organizational structure, and environmental influences.

**READING**

READ 096  
**Independent Study (1-5)**  
Individualized instruction for the student whose needs are not currently being met by the available course offerings. Specialized curriculum and instruction are developed to meet each student's needs. Permission of instructor only.

READ 097  
**Specific Reading Skill Development (1-3)**  
This course is designed to provide students with opportunities to improve their reading specifically identified areas of need. Comprehension building, word attack skills, and content area reading are a few of the specific areas that can be targeted by this class.

READ 099  
**Improvement of Reading (1-5)**  
Students strengthen thinking, reading comprehension, and vocabulary skills in learning to read and study textbooks, writing summaries, note taking, and test taking. Completion of course satisfies the basic skill deficiency in reading. Prerequisite: COMPASS placement (reading) 49.

READ 100  
**Technical Reading (3)**  
Designed to teach discipline-specific reading strategies useful to students in both vocational and academic areas. It will also teach awareness of academic though processes and present skills to enhance that thinking process.
READ 110
Speed Reading (3)
Self-paced course for students wishing to increase reading rate and comprehension using proper eye movements, improved vocabulary, and correct reading methods based on reading material. Prerequisite: college level reading and vocabulary skills.

SCIENCE

SCIE 103
Survey of Earth Sciences (NS) (5)
Explores topics in earth sciences: geology, oceanography, meteorology, astronomy. Earthquakes, volcanoes, glaciers, streams, floods, landslides, tides, coastal features, weather and climate, planets and stars. Integrates information about the relationship between humans and the physical environment. SCIE 103L must be taken concurrently or a later quarter to satisfy the requirement for a science course with a lab. Designed for students with little or no science background.

SCIE 104
Intro to Physical Science (NS) (5)
Study the basic concepts of physical science, learn to apply the scientific method to problem solving and popular science, and apply the scientific methods to a project.

SCIE 115
Weather and Climate (NS) (5)
Study of Earth's atmosphere, atmospheric processes, weather, climate, and climate history. Experience will be provided in weather map interpretation, use of instruments, forecasting, interpretation of past climate conditions, and hands-on dendrochronology. Prerequisite: MATH 098 or equivalent.

SOCIAL STUDIES TEACH

SST 365
Teaching Social Studies (5)
Explores the specific concepts and topics in social studies. Applies methods used to teach through integrated thematic units of curriculum and instruction. Incorporating current research and best practices for teaching. Prerequisite: Admittance to BAS-TE or Administrator approval.

SOCIOLOGY

SOC& 101
Intro to Sociology (SS) (5)
Study of society and human interaction. Topics include social ranking, change, deviance, social control, the creation of thought and personality, groups, institutions, political and economic power, social movements, and how to gather valid sociological information.

SOC 125
Sociology of the Family (SS) (5)
Introduction to the study of the family as a social institution. An overview of social theories and methodological underpinnings will be included.

SOC 190
Cooperative Work Experience (1-12)
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Reaching set learning objectives and development of positive work habits are emphasized. The Cooperative Education Coordinator and employees arrange Cooperative Work Experience. 60-360 hours on-the-job per quarter. Prerequisite: Enrollment in a Work Experience Seminar (BTEC 191-194) is required of Co-op students. You may take the Work Experience Seminar before or in the same quarter as the Co-op course. Instructor permission required.

SOC& 201
Social Problems (SS) (5)
Investigate problems within society and how we view certain social conditions as social problems. Topics include technology, environment, population, economy, class, race/ethnic relations, sexism, ageism, family problems, education, cities, deviance, crime, mental health, physical health.

SOC 225
Cultural & Ethnic Pluralism (D) (SS) (5)
Examine ethnicity, ethnic identity, and cultural characteristics of ethnic and social groups in North America and around the world. Understand the relationship between social organization and forms of social, economic, and political domination and subordination.

SPANISH

SPAN 105
Spanish for Public Service (AE) (3)
Basic Spanish to meet the needs of working professionals who wish to communicate with Spanish speaking persons.

SPAN 106
Spanish for Social Services (AE) (3)
Basic Spanish to meet the needs of working professionals who wish to communicate with Spanish speaking persons.

SPAN 107
Spanish for Social Services (AE) (3)
Basic Spanish to meet the needs of working professionals who wish to communicate with Spanish speaking persons.

SPAN& 121
Spanish I (H) (5)
First class in 100 level sequence. Learn the fundamental skills of listening comprehension, speaking, reading and writing. Develop an awareness of Spanish speaking countries and their cultures.

SPAN& 122
Spanish II (H) (5)
Second class in sequence. Learn the fundamental skills of listening comprehension, speaking, reading and writing. Develop an awareness of Spanish speaking countries and their cultures. Prerequisite: SPAN& 121 or instructor permission.
SPAN& 123  
**Spanish III (H) (5)**  
Third class in sequence. Learn the fundamental skills of listening comprehension, speaking, reading and writing. Develop an awareness of Spanish speaking countries and their cultures. Prerequisite: SPAN& 122 or instructor permission.

SPAN 170  
**Latin American Texts (D) (H) (5)**  
A survey course analyzing representative texts of Latin American literature in English from the pre-Columbian period to the present. Develop an understanding of the historical and cultural contexts and apply literary criticism.

SPAN 201  
**Heritage Spanish I (H) (5)**  
Introduction to academic Spanish for heritage/native speakers. Course is first sequence designed to prepare speakers for more advanced study. Areas of focus included grammar terminology, spelling, accentuation, reading, writing and discussion of cultural topics. Prerequisite: Native or heritage speaker of Spanish, Instructor permission required.

SPAN 202  
**Heritage Spanish II (H) (5)**  
Introduction to academic Spanish for heritage/native speakers. Course is second in sequence designed to prepare speakers for more advanced study. Areas of focus include grammar terminology, spelling, accentuation, reading, writing and discussion of cultural topics. Prerequisite: Native or heritage speaker of Spanish, Instructor permission required.

SPAN& 221  
**Spanish IV (H) (5)**  
Fourth class in sequence. Learn the fundamental skills of listening comprehension, speaking, reading, and writing. Develop an awareness of Spanish speaking countries and their cultures. Prerequisite: Spanish III or equivalent amount of high school Spanish.

SPAN& 222  
**Spanish V (H) (5)**  
Fifth class in sequence. Learn the fundamental skills of listening comprehension, speaking, reading, and writing. Develop an awareness of Spanish speaking countries and their cultures. Prerequisite: Spanish IV or equivalent amount of high school Spanish.

SPAN& 223  
**Spanish VI (H) (5)**  
Sixth class in sequence. Learn the fundamental skills of listening comprehension, speaking, reading, and writing. Develop an awareness of Spanish speaking countries and their cultures. Prerequisite: Spanish V or equivalent amount of high school Spanish.

SPAN 260  
**Latin America Field Trip I (D) (5)**  
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

SPAN 261  
**Latin America Field Trip II (D) (5)**  
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

SPAN 262  
**Latin America Field Trip III (D) (5)**  
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

SPAN 263  
**Latin America Field Trip IV (D) (5)**  
Explore the culture(s) and language(s) of a specific region of Latin America through first-hand experience. Contact instructors or follow Field Trip links on Anthropology or Foreign Language pages of college website for current information. Prerequisite: instructor permission.

SPEECH  

SPEE 101  
**Fundamentals of Public Speaking (H) (3)**  
A course focusing on development, preparation, and delivery skills for beginning public speakers. Attention given to anxiety reduction techniques in addition to the preparation and use of visual aids in informative and persuasive speeches.

SPEE 111  
**Interpersonal Communication in Film (1)**  
Highlights concepts introduced in SPEE 110 by using films to identify a different application of the principles of interpersonal communication.

STUDENT DEVELOPMENT  

SDEV 100  
**Start Smart (1)**  
A seminar for new students on college expectations and communication and technological skills for college. Introduction to academically related technology. Students will participate in small group activities, reading, writing and discussion exercises and practice accessing on-line resources.
Centralia College 101 (1)
An orientation class emphasizing utilization of campus resources and offering multiple workshops on library research skills, note taking, test taking, stress management, reading skills and memory improvement.

Career Planning (2)
Students identify their interests, skills and abilities and evaluate their personality styles, values and work environments as they relate to careers. Activities include interest inventory test, computer programs, job market research and informational interviewing. The format is lecture, discussion, group activities and individual projects.

Career Workshops (1)
Nine workshops cover analyzing peoples’ interests, values, aptitudes and personalities as they relate to career success. Includes career information, transfer information, resume writing, interviewing, placement and workforce trends.

Student Success (3)
Students learn and put into practice concepts related to college success. Topics include exploration of self, learning style, degree and career planning, culture, academic, personal and financial resources, academic skills, and campus involvement.

College Success (5)
Major topics include setting academic, career and personal goals; effective communication and presentation skills; study, research and test-taking strategies; critical thinking; note taking and memory improvement. Includes Saturday field trip for challenge course activity.

Stress Management for Test Anxiety (2)
Identify causes of stress and physical and emotional side-effects. Learn methods for reducing stress, including progressive relaxation, meditation, biofeedback, cognitive analysis, and nutrition and exercise strategies. Management of test and math anxiety is emphasized.

WELD 151
Welding for Mechanics (5)
Introduction of cutting and welding processes. Includes information on welding equipment and material, various welding techniques and proper safety procedures. Prerequisite: DET 110 or DET 130 or instructor permission.

Oxyfuel & GTA Welding (12)
Theory and practice of oxyacetylene welding, brazing, cutting and gas tungsten arc welding. Safety, handling and use of compressed gases, materials, types of weld joints, and procedures. Prerequisite: GPS 2.0 or higher in WELD 164 or permission from instructor

SMAW Welding (12)
Shielded metal arc welding safety, joint design, electrode selection, welding machine setup and operations. Lab practice will include butt, lap, tee and corner joints in all positions. Weld testing and air carbon arc cutting included.

GMAW Welding (12)
Gas metal-arc welding (GMAW) and flux-cored arc welding (FCAW) safety, setup, operation and troubleshooting. Lab practice includes butt, lap, tee and corner joints in all positions. Also includes GMAW with aluminum and AWS weld testing. Prerequisite: GPA 2.0 or higher in WELD 161 or instructor permission

Metallurgy for Welders (3)
Study of metals relevant to welding technology, extraction of metals from ores, refining metals, the manufacture of metal products, mechanical, physical and chemical properties of metals and the hardening, tempering and heat treating of metals.

Oxyfuel & GTA (5)
Safety, setup, brazing, cutting, and welding in all positions using oxy-fuel and gas tungsten arc welding equipment.

Shielded Metal Arc Welding (5)
Safety, setup, and welding in all positions using AC/DC arc welding equipment on carbon steel.

Gas Metal Arc Welding (5)
Safety, setup, and welding in all positions using gas metal arc and flux cored arc welding equipment.

Cooperative Work Experience (1-12)
Cooperative Work Experience allows students to apply classroom learning to on-the-job settings. Credit is earned for new and continued learning taking place in the work environment. Reaching set learning objectives and development of positive work habits are emphasized. The Cooperative Education Coordinator and employees arrange Cooperative Work Experience. 60-360 hours on-the-job per quarter. Prerequisite: Enrollment in a Work Experience Seminar (BTEC 191-194) is required of Co-op students. You may take the Work Experience Seminar before or in the same quarter as the Co-op course. Instructor permission required.
WELD 265
Advanced Arc Welding (12)
Theory and practice of advanced shielded metal arc welding (SMAW) to prepare for the Washington Association of Building Officials (WABO) certification tests on plate and pipe. Prerequisite: GPA 2.0 or higher in WELD 161 or Instructor permission. Completion of year 1 welding.

WELD 267
Adv. Gas Shielded Arc Welding (12)
Advanced Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW) techniques for all position plate and pipe welding. This course prepares welders for WABO certification. Prerequisite: WELD 164 or permission of instructor.

WELD 268
Gas Shielded Arc Welding (9)
Exercises enable students to prepare for the Washington Association of Building Officials tests. Includes Gas Metal Arc, Flux Cored Arc and Gas Tungsten Arc Welding on test plates and pipe in all positions; Oxyfuel introduced. Concurrent enrollment in WELD 267. Prerequisite: WELD 164 or permission of instructor.

WELD 269
Advanced Fabrication (11)
Blueprint interpretation, layout tools and procedures, oxy-fuel and plasma cutting, fitting, and welding fabrication projects. Prerequisite: WELD 267 with a 2.0 or higher or instructor permission

WELD 270
Advanced Fabrication and Welding Procedure Lab (6)
Fabrication and fitting tools, setup, and procedures. Butt and tee joint will be required in the flat position using various welding processes. Students will have the opportunity to work on individual projects. Prerequisite: WELD 268 or permission of instructor. Corequisite: WELD 269.

WELD 271
Blueprint Reading (3)
Fundamentals of drawing interpretation in the welding trade. Included are blueprint reading, welding symbols, fabrication techniques, identification of welds, and welding abbreviations.

WELD 281
Advanced Gas Metal Arc Welding - Aluminum (5)
Provides a thorough understanding of welding safety and gas metal arc welding of aluminum. Prerequisite: WELD 165, WELD 181 or prior welding experience with permission of instructor.

WELD 285
Arc Welding Certification (5)
Practical exercises enable students to prepare for the Washington Association of Building Officials (WABO) certification tests in gas metal arc welding (GMAW), flux cored arc welding (FCAW), and shielded metal arc welding (SMAW). Prerequisite: prior welding experience required.
